Bureau of Fixed Utility Services

RR

ok to re-assign 8/25/05
JD

On March 4, 2005, Duquesne Light Company ("Duquesne") filed an Application for Authorization to Site and Construct of a 4.1 mile 138 kV Transmission Line in Hampton and McCandless Townships, Allegheny County, Pennsylvania.

To date, two protests against Duquesne's Application have been filed.

Duquesne's Application at Docket No. A-110150F0031 should be re-assigned to the Office of Administrative Law Judge in order to dispose of the protests and issue an initial decision on the Letter of Notification. Therefore, please re-assign this case to the Office of Administrative Law Judge.

Cc: Chief, ALJ
H. Edwin Rodrock

In re: *Amended Application of Duquesne Light Company for the Siting and Construction of a 138 kV Transmission Line in Hampton, McCandless, and Ross Townships, Allegheny County, Docket No. A-110150 F0031*

Dear Secretary McNulty:

Enclosed for filing are an original and six (6) copies of Duquesne Light Company's Amended Application for Authorization to Site and Construct a 138 kV Transmission Line in Hampton, McCandless and Ross Townships. This documents amends the Application for Authorization to Site and Construct a 138 kV Transmission Line in Hampton and McCandless Townships, Allegheny County, that was filed on March 4, 2005. Appended to the Amended Application are the Notice of Filing Pursuant to 52 Pa. Code §57.74(c)(2), the Exhibit to the Notice, Exhibits 1, 2, 3 and 8 to the Amended Application (Exhibits 4, 5, 6, 7, and 9 of the original Application remain unchanged by this Amendment), and the Certificate of Service. Copies of the Amended Application and Exhibits, or of the Notice and Exhibit, are being served by certified mail upon all persons who are listed in the Certificate of Service. As noted in the Certificate of Service, those persons entitled to service of a complete copy under Commission Regulation 57.74(b) who were not previously served with a copy of the Application, are being served with a copy of the Application as well. Those persons entitled to receive notice of filing under Commission Regulation 57.74(c) who were previously served but are no longer affected by the amended route of the proposed line are nevertheless being served with copies of the Notice of Filing, as are those persons who were not entitled to service of Notice of Filing of the Application but who, by reason of the change in the location of the line, are entitled to service of Notice of Filing of the Amended Application. A copy of the Amended Application is also being provided to Administrative Law Judge Fred R. Nene, to whom this matter is assigned.

Thank you for your attention to this matter. Please contact me at (412) 393-1546, if you have any questions.

Sincerely,

Regina M. Sestak

In re: :
Amended Application of Duquesne Light Company :
for the Siting and Construction of a 138 kV :
Transmission Line in Hampton, McCandless and : Docket No. A-110156
Ross Townships, Allegheny County : Folder 031

**AMENDED APPLICATION FOR AUTHORIZATION
TO SITE AND CONSTRUCT A 138 kV TRANSMISSION LINE
IN HAMPTON, McCANDLESS AND ROSS TOWNSHIPS**

TO THE HONORABLE COMMISSION:

AND NOW comes Duquesne Light Company ("Duquesne Light") and, pursuant to Commission Regulations 5.91, and 57.71 through 57.77, 52 Pa. Code §§ 5.91, and 57.71 through 57.77, files the this Amended Application for Authorization to Site and Construct a 138 kV Transmission Line in Hampton, McCandless and Ross Townships, Allegheny County, amending its Application for Authorization to Site and Construct a 138 kV Transmission Line in Hampton and McCandless Townships, Allegheny County ("the Original Application") which was filed with the Commission on March 4, 2005:

INTRODUCTION

1. Duquesne Light hereby incorporates Paragraph 1 of the Original Application as though set forth fully herein.
2. Duquesne Light hereby incorporates Paragraph 2 of the Original Application as though set forth fully herein.
3. Duquesne Light hereby incorporates Paragraph 3 of the Original Application as though set forth fully herein.

GENERAL DESCRIPTION OF THE PROPOSED LINE

4. Duquesne Light proposes to construct a 138 kilovolt ("kV") transmission line segment which will connect its North Substation, located in Ross Township, with its upgraded Wildwood Substation, located in Hampton Township,

Allegheny County, Pennsylvania. This 138 kV line will be identified as the "North-Wildwood 138 kV Line" ("the Line"). A topographic map of the area, that shows the location of the Line, is attached hereto and incorporated herein as Exhibit 1. A system map that shows the location and voltage of existing Duquesne Light transmission lines and substations and the location of the Line and the Wildwood Substation is attached hereto and incorporated herein as Exhibit 2.

5. The Line is 4.9-miles long and overbuilds existing 23 kV lines for approximately 95 percent of its entire length except for 600 feet at the southern terminus, which is on Duquesne Light property and requires no new right of way ("R/W"). The Line exits Wildwood Substation, in Hampton Township, toward the west along the south side of the substation access road for approximately 400 feet, on an existing 50-foot R/W, before turning southward. The Line then follows the eastern boundary of North Park for approximately 3,900 feet, on an existing 50-foot R/W. The Line turns southwest for approximately 1,900 feet following the existing 23 kV line through North Park and across Hemlock Drive, by existing License Agreement with no specified width. The Line turns westward following along the southern boundary of North Park for approximately 1,600 feet, by existing License Agreement with no specified width, where it enters McCandless Township. The Line continues for another 1,000 feet, on private property centerline R/W with no specified width, to Peebles Road. The Line follows Peebles Road to the southwest for 2,400 feet, and then turns southward following the existing 23 kV line along private property centerline R/W with no specified width for 1600 feet. The Line then generally follows Ringeisen Road and Duncan Avenue for 2,000 feet to the major intersection of Thomson Run Road, Duncan Avenue and Ferguson Road. The Line continues along the 23 kV line southward following Thomson Run Road for 5,100 feet where it enters Ross Township. The route continues to follow Thomson Run Road for another 5,400 feet, then turns east for 600 feet on Duquesne Light property to a new 138 kV breaker inside the North Substation. A length of 1.5 miles of the Line will be located within

Hampton Township, a length of 2.3 miles of the Line will be located within McCandless Township, and a length of 1.1 miles of the Line will be located within Ross Township, Allegheny County. The existing private property R/W are for transmitting electric current for any and all purposes, together with the right to erect, use, maintain and renew the line, and to trim or remove trees, which at any time may interfere with the construction, maintenance or renewal of the line.

6. Duquesne Light hereby incorporates Paragraph 6 of the Original Application as though set forth fully herein.

7. Construction of the Line will take place in the following sequence:

- (1) The R/W will be cleared as required to accommodate the construction and provide electrical clearances for the operation of the completed Line;
- (2) Construction vehicles will enter the R/W to auger holes and install the wood poles;
- (3) After installation of the necessary insulators, guys, grounding and other hardware on each pole, the overhead conductors will be installed and the Line connected to the substation terminals at the North Substation and the Wildwood Substation.

PROPERTY OWNERS

8. Duquesne Light hereby incorporates Paragraph 8 of the Original Application as though set forth fully herein

STATEMENT OF NEED

9. Duquesne Light hereby incorporates Paragraph 9 of the Original Application as though set forth fully herein

SAFETY CONSIDERATIONS

10. Duquesne Light hereby incorporates Paragraph 10 of the Original Application as though set forth fully herein.

ENVIRONMENTAL ASSESSMENT

11. Duquesne Light contracted with GAI Consultants to complete a comprehensive study of the projected environmental impacts of the Line and six alternate routes. The results of the study are contained in the Environmental Assessment and Line Route Study, dated May, 2004, and designated as Exhibit 9. The Line is referred to as Route E in the Study. At the time the Study was conducted, Route E was designed to tap the Crescent-North 138 kV circuit Z-20 at existing Tower #647-1, inside the North Substation. Duquesne Light subsequently decided to terminate the Line at a new 138 kV breaker inside the North Substation, rather than to tap circuit Z-20. This required a line extension of 400 feet, all of which is on Duquesne Light property. The additional 400 feet should have little impact on the environmental impact score of Route E.

12. Duquesne Light hereby incorporates Paragraph 12 of the Original Application as though set forth fully herein

GENERAL DESCRIPTION OF THE ALTERNATE ROUTES

13. Seven proposed routes, the Line (Route E) and six alternate routes, were selected to be included in the Environmental Assessment and Line Route Study. Alternate Routes A, B, C, D, D/C, and E-1 would tap the northern circuit (Z-56) of the Cheswick-North line at four different locations in Hampton Township. An aerial photographic map of the area, Figure ES-1, showing all seven routes is included in Exhibit 9.

14. Duquesne Light hereby incorporates Paragraph 14 of the Original Application as though set forth fully herein

15. Duquesne Light hereby incorporates Paragraph 15 of the Original Application as though set forth fully herein

16. Duquesne Light hereby incorporates Paragraph 16 of the Original Application as though set forth fully herein

17. Duquesne Light hereby incorporates Paragraph 17 of the Original Application as though set forth fully herein

18. Duquesne Light hereby incorporates Paragraph 18 of the Original Application as though set forth fully herein

19. Route E-1 follows the alignment of the Line for the first 14,800 feet. This 4.1-mile long route exits Wildwood Substation toward the west along the south side of the substation access road for approximately 400 feet. The route follows an existing 23 kV line along the eastern boundary of North Park for approximately 3,900 feet. The route turns southwest for approximately 1,900 feet following the existing 23kV line across North Park and Hemlock Drive. The route turns westward following along the southern boundary of North Park for approximately 1,600 feet, where it enters McCandless Township. The route continues for another 1,000 feet to Peebles Road. The route then follows Peebles Road to the southwest for 2,400 feet, and turns southward following the existing 23 kV line along existing R/W for 1600 feet. The route then generally follows Ringeisen Road and Duncan Avenue for 2,000 feet to the major intersection of Thomson Run Road, Duncan Avenue and Ferguson Road. The route then turns southeast and follows an existing 23 kV distribution line along Ferguson Road for approximately 3,200 feet where it enters back into Hampton Township, then continues to follow Ferguson Road for another 2,300 feet. The route then turns southward for 350 feet along an existing 23 kV distribution line on Linwood Road and then follows a paper street behind houses along Coventry Drive on new construction on public R/W for 900 feet. It then turns east on new construction across a proposed 85-foot private property R/W for 300 feet to a tap of circuit Z-56 at existing tower #656. Route E-1 is located within Hampton and McCandless Townships, Allegheny County.

SELECTION OF PROPOSED LINE

20. The Line (Route E) is the most suitable alternative for the proposed transmission line project. The Line had the lowest environmental impact score and

had the lowest score for non-existing R/W. Other than the last 600 feet on Duquesne Light property, no commercial/densely populated areas or residential land or roads are crossed on non-electric line R/W. See Section 3 of Exhibit 9 for the environmental impact scores of all of the routes.

21. The Line was also selected because future reliability indices of the alternate routes may be adversely affected due to the increased exposure to the Cheswick-North (Z-56) line. This may, in the future, necessitate a line extension of the alternative routes to the North Substation.

CONSTRUCTION COST AND IN-SERVICE DATE

22. The estimated cost of construction of the project is \$2,900,000; the proposed in-service date for the Line is June 1, 2007.

LITIGATION

23. Duquesne Light hereby incorporates Paragraph 23 of the Original Application as though set forth fully herein

SERVICE OF APPLICATION

24. Copies of this Amended Application and the Exhibits hereto, or of the *Notice of Filing of Amended Application with Exhibit*, have been served by certified mail, return receipt requested, as required by Commission Regulation 57.74, 52 Pa. Code § 57.74, upon all interested parties. Those interested parties who were not served with the Original Application and who are being served with a copy of this Amended Application are also being served with a copy of the Original Application. Because this Amendment changes the route of a portion of the Line, certain property owners who were affected by the route of the Line in the Original Application are no longer affected by the route of the Line. Copies of the *Notice of Filing of Amended Application with Exhibit* are also being served upon these property owners.

EXHIBITS

25. The following exhibits are attached to this Application:
Exhibit 1 - Topographic Map showing the location of the Line

Exhibit 2 - Duquesne Light System Map showing the location of the
Line

Exhibit 3 - Description of the Line

Exhibit 8 - Names and Addresses of Property Owners

Exhibits 4, 5, 6, 7, and 9 to the Original Application have not been changed by the
above-noted amendments.

Respectfully submitted,

Regina M. Sestak
Attorney for Duquesne Light Company

SECRETARY'S BUREAU

DESCRIPTION OF THE LINE

The Line is 4.9-miles long. The Line will be a three-phase alternating current 138 kV transmission line. It will consist of three phase conductors and one or two shield wires. Each phase conductor will be an 853.7 kcmil 24/13 Aluminum Conductor Alloy Reinforced ("ACAR") conductor. Each shield wire will be a #1 AWG Aluminum Equivalent, 4/3 Alumoweld-Aluminum ("AWAC") conductor. The Line will require approximately 145 single wood or steel poles and 7 wood or steel pole H-frames. The existing poles will be replaced with larger poles. The poles will be directly embedded. The height of the poles will range between 60 feet and 75 feet above the ground. The typical length of the spans will vary from 125 feet to 200 feet. The maximum span length will be 1,443 feet, between H-frames. The minimum line to structure clearance is 3.75 feet. The minimum conductor ground clearance at mid span is 32 feet under normal conditions and 30 feet under maximum load and temperature.

In re: :
Amended Application of Duquesne Light Company :
for the Siting and Construction of a 138 kV :
Transmission Line in Hampton, McCandless and : Docket No. A-110150
Ross Townships, Allegheny County : Folder 031

NOTICE OF FILING PURSUANT TO 52 Pa. Code §57.74 (c)(2)

An Amended Application is being filed with the Public Utility Commission on October 6, 2005, amending the Application filed on March 4, 2005. The Amended Application concerns the proposed siting and construction of a 4.9-miles long 138 kilovolt ("kV") transmission line ("the Line") that overbuilds existing 23 kV lines for approximately 95 percent of its entire length except for 600 feet at the southern terminus, which is on Duquesne Light property and which requires no new right of way ("R/W"). The Line exits Wildwood Substation, in Hampton Township, toward the west along the south side of the substation access road for approximately 400 feet, on an existing 50-foot R/W, before turning southward. The Line then follows the eastern boundary of North Park for approximately 3,900 feet, on an existing 50-foot R/W. The Line turns southwest for approximately 1,900 feet following the existing 23 kV line through North Park and across Hemlock Drive, by existing License Agreement with no specified width. The Line turns westward following along the southern boundary of North Park for approximately 1,600 feet, by existing License Agreement with no specified width, where it enters McCandless Township. The Line continues for another 1,000 feet, on private property centerline R/W with no specified width, to Peebles Road. The Line follows Peebles Road to the southwest for 2,400 feet, and then turns southward following the existing 23 kV line along private property centerline R/W with no specified width for 1600 feet. The Line then generally follows Ringeisen Road and Duncan Avenue for 2,000 feet to the major intersection of Thomson Run Road, Duncan Avenue and Ferguson Road. The Line continues along the 23 kV line southward following Thomson Run Road for 5,100 feet where it enters Ross Township. The route continues to follow Thomson Run Road for another 5,400 feet, then turns east for 600 feet on Duquesne Light property to a new 138 kV breaker inside the North Substation. A length of 1.5 miles of the Line will be located within Hampton Township, a length of 2.3 miles of the Line will be located within McCandless Township, and a length of 1.1 miles of the Line will be located within Ross Township, Allegheny County. A map showing the proposed route of the Line is attached.

Copies of the Amended Application and Exhibits are available for public examination during normal operating hours at Hampton Community Library, 3101 McCully Road, Allison Park, PA 15101, and at Northland Public Library, 300 Cumberland Road, Pittsburgh, PA 15237. A copy of the Amended Application and additional information is also available at: www.duquesnelightwildwood.info.

Attention: You may lose the case if you do not come to this hearing and present facts on the issues raised.

If you intend to file exhibits, 2 copies of all hearing exhibits to be presented into evidence must be submitted to the reporter. An additional copy must be furnished to the Presiding Officer. A copy must also be provided to each party of record.

Individuals representing themselves do not need to be represented by an attorney. All others (corporation, partnership, association, trust or governmental agency or subdivision) must be represented by an attorney. An attorney representing you should file a Notice of Appearance before the scheduled hearing date.

If you are a person with a disability, and you wish to attend the hearing, we may be able to make arrangements for your special needs. Please call the scheduling office at the Public Utility Commission at least (2) two business days prior to your hearing:
