SECRETARY'S BUREAU

RECEIVED

Dear Mr. Morrissey:

Pursuant to 66 Pa. C.S. §2809(c), no electric supplier license shall remain in force unless the licensee furnishes a bond or other security approved by the Commission to ensure the financial responsibility of the electric generation supplier and the supply of electricity at retail. The Commission's records indicate that the bond or other approved security provided by Unitil Resources, Inc. expires on March 9, 2008.

The Commission's regulations at 52 Pa. Code §54.40(d) require "the security level for each licensee will be reviewed annually and modified primarily based upon the licensee's reported annual gross receipts information. The security level will be 10% of the licensee's reported gross receipts." The minimum security level provided may not be less than the initial security level provided when the license was granted. Unless approved by the Commission, the initial security level is \$250,000.

The Commission's regulations at 52 Pa. Code §54.39(b) require a licensee to file an annual report on or before April 30 of each year, for the previous calendar year, in order to comply with 66 Pa. C.S. §2810(c)(6). This report discloses the total amount of gross receipts from the sale of electricity and the total amount of electricity sold during the preceding calendar year. You must use this same information in calculating the appropriate security level necessary to maintain your license.

In order for your company to maintain its status as a licensed electric supplier in the Commonwealth of Pennsylvania, it must provide proof to the Commission that a bond or other approved security has been obtained.

Your response in this matter is requested within fifteen (15) days of the date of this letter. Submit your response to the Commission's Secretary. Additionally, fax a copy of your response to James Shurskis at (717) 787-4750, Bureau of Fixed Utility Services.

b2270
L 1805

Failure to respond to this matter within fifteen (15) days will cause Commission staff to initiate a formal proceeding, that may lead to the following: cancellation of your company's electric supplier license, removal of your information from the Commission's website and notification to all electric distribution companies, in which your company is licensed to do business, of the cancellation of the license.

Please direct any questions to James Shurskis at (717) 787-8763, Bureau of Fixed Utility Services.

Sincerely,

Robert Wilson, Director
Bureau of Fixed Utility Services

NOTICE TO LICENSED ELECTRICITY PROVIDERS**Availability of Confidential Treatment for Information
Provided in Quarterly and Annual Reports**

Note that pursuant to 52 PA Code § 54.39(d) these annual and quarterly reports "will be made available for public review upon request to the Commission subject to any rulings on confidentiality made by the Commission." However, the Commission has issued a general ruling that the total amount of gross receipts that licensed EGSs are required to report pursuant to 52 Pa. Code § 54.39(b)(2) is considered proprietary and shall not be released to the public. See Petitions of Exelon Energy; Reliant Energy Retail, Inc.; and Statoil Energy Services, Inc for Protective Order, Order entered July 20, 2000 at Docket Nos. P-00991752; P-00991753; P-00991755, p. 5. Updates to tax information requested in the application form; the total amount of electricity sold (kWh); and, the percentage of total electricity supplied by each energy source remain available for public review. Confidential treatment of this information may be requested in accordance with established Commission procedures. See also 52 Pa. Code § 5.423.

To request confidential treatment of submitted information, a company must:

- (a) indicate clearly in its transmittal letter that the filing contains proprietary information;
- (b) explain briefly why the information should be treated as confidential; and,
- (c) supply four copies of the filing: two copies of the report with confidential data expurgated and two copies of the unexpurgated report. The unexpurgated copies must be clearly marked "Confidential." The Secretary's Bureau and the Bureau of Fixed Utility Services will maintain copies of each type of filing accordingly.

Pending Commission review of a request for confidential treatment and upon its approval, information designated as proprietary will not be made available for public review. However, if any member of the public, the Office of Consumer Advocate or the Office of Small Business Advocate requests to examine the propriety information, or if the Commission's Office of Special Assistants or Office of Trial Staff believes that proprietary claim is frivolous or otherwise not justified, the Secretary's Bureau will issue a Secretarial Letter directing the company to file within 14 days a petition for protective order pursuant to 52 Pa. Code § 5.423. During the 14-day period, the Commission will continue to honor the proprietary claim. Absent the timely filing of such a petition, the proprietary information claim will be deemed to have been waived.

While the Commission is considering whether to grant a petition for protective order, the company's proprietary information claim will be honored unless a proceeding has been initiated to challenge the filing. In that event, the provisions of 52 Pa. Code § 5.423(b)(4) would apply. This provision requires the company to disclose the proprietary information to a party involved in the proceeding if the party "agrees to treat the information as if it were covered by a protective order until the presiding officer or the Commission issues the order or determines that issuance of the order would not be appropriate."

January 4, 2010

UNITIL RESOURCES INC
6 LIBERTY LANE WEST
HAMPTON NH 03842-1720

ATTENTION: RAYMOND J MORRISSEY

RE: License Bond or Other Financial Security

Dear Mr. Morrissey:

Pursuant to 66 Pa. C.S. §2809(c), no electric supplier license shall remain in force unless the licensee furnishes a bond or other security approved by the Commission to ensure the financial responsibility of the electric generation supplier and the supply of electricity at retail. The Commission's records indicate that the expiration of the bond or other approved security provided by Unitil Resources Inc. occurs on March 9, 2010.

The Commission's regulations at 52 Pa. Code §54.40(d) require "the security level for each licensee will be reviewed annually and modified primarily based upon the licensee's reported annual gross receipts information. The security level will be 10% of the licensee's reported gross receipts." The minimum security level provided may not be less than the initial security level provided when the license was granted. Unless approved by the Commission, the initial security level is \$250,000.

The Commission's regulations at 52 Pa. Code §54.39(b) require a licensee to file an annual report on or before April 30 of each year, for the previous calendar year, in order to comply with 66 Pa. C.S. §2810(c)(6). This report discloses the total amount of gross receipts from the sale of electricity and the total amount of electricity sold during the preceding calendar year. You must use this same information in calculating the appropriate security level necessary to maintain your license.

In order for your company to maintain its status as a licensed electric supplier in the Commonwealth of Pennsylvania, it must provide proof to the Commission that a bond or other approved security has been obtained.

RE: License Bond or Other Financial Security

Dear Mr. Morrissey:

Pursuant to 66 Pa. C.S. §2809(c), no electric supplier license shall remain in force unless the licensee furnishes an original of a bond or other security approved by the Commission to ensure the financial responsibility of the electric generation supplier and the supply of electricity at retail. The Commission's records indicate that the expiration of the bond or other approved security provided by Unitil Resources Inc. occurs on March 9, 2011.

The Commission's regulations at 52 Pa. Code §54.40(d) require "the security level for each licensee will be reviewed annually and modified primarily based upon the licensee's reported annual gross receipts information. The security level will be 10% of the licensee's reported gross receipts." The minimum security level provided may not be less than the initial security level provided when the license was granted. Unless approved by the Commission, the initial security level is \$250,000.

The Commission's regulations at 52 Pa. Code §54.39(b) require a licensee to file an annual report on or before April 30 of each year, for the previous calendar year, in order to comply with 66 Pa. C.S. §2810(c)(6). This report discloses the total amount of gross receipts from the sale of electricity and the total amount of electricity sold during the preceding calendar year. You must use this same information in calculating the appropriate security level necessary to maintain your license.

In order for your company to maintain its status as a licensed electric supplier in the Commonwealth of Pennsylvania, it must provide proof to the Commission that a bond or other approved security has been obtained. Provide an original of any documentation submitted as proof; including bond, letter of credit, continuation certificate, amendment, etc.

Your response in this matter is requested within fifteen (15) days of the date of this letter. Submit your response to the Commission's Secretary. Additionally, fax a copy of your response to James Shurskis at (717) 787-4750, Bureau of Fixed Utility Services.

Failure to respond to this matter within fifteen (15) days will cause Commission staff to initiate a formal proceeding, that may lead to the following: cancellation of your company's electric supplier license, removal of your information from the Commission's website and notification to all electric distribution companies, in which your company is licensed to do business, of the cancellation of the license.

Please direct any questions to James Shurskis at (717) 787-8763, Bureau of Fixed Utility Services.
