Docket No. C-2014-2418219

Dear Mr. Loucks,

Medallion Transport & Logistics, PA Utility # A-8912968, is responding to the complaint filed against us in regards to the failure to maintain evidence of insurance filing.

We did in fact maintain the insurance and requested our insurance provider, Cherokee Insurance, file the Form E as required. They attempted to do so, but the initial filings were rejected. Our insurance company did not have the PA Utility number and attempted to file using our DOT #. Our DOT number was at one point registered under another company name, ATF, and the system still brought that name up. That attempt was rejected.

In addition, our mailing address had not been updated after our initial submission of the change-of-address form, which created another delay. We have communicated with Wendy (I am sorry that I do not have her last name) who has been extremely helpful in assisting us with the information that we needed to clarify the issues and complete a successful Form E filing.

Our insurance company has successfully resubmitted the Form E which correctly reflects the insurance effective date of 4/1/2014.

Because the delay in filing was through no fault on our part, we respectfully request our authority to be reinstated and also request a waiver of the \$500.00 penalty.

Sincerely,

Anita Hollister
Field Safety Manager
