**RE: Act 127 Pennsylvania Pipeline Operator Annual Registration Form**

Dear Ms. Chiavetta:

In response to your question as to why the 2014 Registration differs from the previous years mileage registration, your representatives conducted a field inspection on November 15, 2013 which concluded that both systems previously registered with the PUC "...were classified wrong originally. The system in Indiana is located in a class 1 location and the system in Jefferson County is a single well system and is a production pipe. This information will be reflected in the 2014 filing. No further action required." [a copy is enclosed for your reference]

I, Myron Tomb, President of H.A. Goal, Inc., hereby state that the facts above set forth are true and correct to the best of my knowledge, information and belief, and that I expect to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa. C.S. § 4904 (relating to unsworn falsification to authorities).

With regards,

Myron Tomb

Enclosure

Cc: Gary Fulton

**Summary:**  
H.A Goal LK Drilling Property, Indiana County, White Twp., 1500', 185 psig, 1.25" Performance Pipe SDR 7 PE 3608/3408  
H.A. Goal Tom Milligan, Elk Run Boro, Jefferson County, 700', 30 psig, 1.25" Performance Pipe SDR 7 PE 3608/3408.  
Both installed in ~ 1997.

2 wells feed Holiday Wyncoop gathering lines – HA Goal filed this as Class 2. It would be a type A gathering line since it is-plastic and the MAOP is more than 125 psig (treated like Transmission line except for subpart O and less OQ).

1 well feeds the Tom Milligan gathering line – HA Goal filed this as Class 2. It would be a type B gathering line since it operates under 125 psig and is plastic.

HA Goal sells gas to PTWP and Peoples.  
Has metered farm tap customers.

Not a member of PA 1 Call

**Findings:**  
Operator is currently working on developing program/procedures and does not have the required information needed at this initial inspection. Discussed what the operator needs to complete and will follow up at a later date.

Need to develop & implement procedures to address all section of 49 CFR 192 on this form.  
Specifically need to begin conducting Patrols, Leak surveys, and Odor testing for customers at least every 6 months, on each system. This would include Class 1 customers.  
Need to perform class location study for all lines including class 1 gathering to verify they are classed correctly.

11-15-13 a review of the systems in the field it is determined that both systems were classified wrong originally. The system in Indiana is located in a class 1 location and the system in Jefferson County is a single well system and is production pipe. This information will be reflected in the 2014 filing. No further action required.
