NOTICE OF FILING

Re: Application of PPL Electric Utilities Corporation filed Pursuant to 52 Pa. Code Chapter 57, Subchapter G, for Approval of the Siting and Construction of the North Lancaster-Honey Brook #1 & #2 138/69 kV Transmission Lines in Lancaster County, Pennsylvania

Dear Property Owner:

Enclosed is a Notice of Filing advising that PPL Electric Utilities Corporation will be filing the above-referenced Application seeking the Pennsylvania Public Utility Commission's ("Commission") approval to site and construct the North Lancaster – Honey Brook #1 & #2 138/69 kV transmission lines in Lancaster County, Pennsylvania. This Notice of Filing is being served on you in accordance with Section 57.74(c) of the Commission's regulations.

If there are any questions concerning this matter, please contact me at the addresses or telephone numbers provided above.

Respectfully submitted,

Christopher T. Wright

**BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION**

Application of PPL Electric Utilities :
Corporation filed Pursuant to 52 Pa. Code :
Chapter 57, Subchapter G, for Approval of the : Docket No. A-2014-_____
Siting and Construction of the North :
Lancaster-Honey Brook #1 & #2 138/69 kV :
Transmission Lines in Lancaster County, :
Pennsylvania :

NOTICE OF FILING

The foregoing Application will be filed with the Pennsylvania Public Utility Commission (“Commission”) on or about June 27, 2014. The purpose of the Application is to seek Commission review and approval required for the siting and construction of the proposed of the North Lancaster-Honey Brook #1 & #2 138/69 kV Transmission Lines in Lancaster County, Pennsylvania (“North Lancaster-Honey Brook Project”). Pursuant to 52 Pa. Code § 57.74(c), you are receiving this Notice because you are the record owner of property within the proposed right-of-way for the North Lancaster-Honey Brook Project. You are not required to appear or participate in this matter, but you may request Commission permission to intervene.

OVERVIEW OF THE PROJECT

Load growth in the in eastern Lancaster County, southwestern Berks County, and western Chester County areas has been significant. The existing 138/69 kV transmission lines serving the customers in this region are long in length and each serve a significant number of customers who are exposed to long duration outages in the event of the loss of one of these transmission lines. Currently, there are no alternate electrical transmission sources within the areas of high

population density, and the existing power supply is too distant to reliably and effectively serve that customer load.

The North Lancaster-Honey Brook Project is required to resolve planning and reliability violations and to reinforce the existing 138/69 kV systems serving approximately 32,000 customers in Honey Brook and Caernarvon Townships in Chester, Berks, and Lancaster Counties. The North Lancaster-Honey Brook Project will bring a new alternate source of supply closer to the growing load centers and reduce the line length and loading on the existing 138/69 kV lines serving the area. The North Lancaster-Honey Brook Project will improve reliability and reduce the number of customers affected by a single facility outage, as well as the duration of the outage.

The proposed North Lancaster-Honey Brook Project involves the construction of approximately 8 miles of new double-circuit 138/69 kV transmission line. The proposed transmission line will extend approximately 4.2 miles between the Lauschtown 500-230-69 kV Substation in Brecknock Township and the Brecknock 69-12 kV Substation in Brecknock Township, and then proceed approximately 3.8 miles to the South Akron-Morgantown #2 Transmission Line located in Caernarvon Township. Upon Commission approval, construction is scheduled to commence in the January of 2015 to meet the in-service date of May 2016.

ROUTE FOR THE PROJECT

The North Lancaster-Honey Brook #1 & #2 138/69 kV Transmission Lines will require a new 100-foot wide right-of-way. PPL Electric conducted an extensive, multi-faceted analysis to determine the preferred route for the North Lancaster-Honey Brook Project. The goal of PPL Electric's siting analysis for the proposed North Lancaster-Honey Brook Project was to determine the most suitable route to interconnect the proposed transmission line with the existing

system, while minimizing the impact to the natural and human environments, avoiding unreasonable and circuitous routes, and avoiding extreme costs and non-standard design requirements.

The proposed route for the North Lancaster-Honey Brook #1 & #2 138/69 kV Transmission Lines is divided into two segments: (1) the “northern” segment between the Lauschtown 500-230-69 kV Substation in Brecknock Township and the Brecknock 69-12 kV Substation in Brecknock Township; and (2) in the “southern” segment between the Brecknock 69-12 kV Substation in Brecknock Township and the existing South Akron – Morgantown #2 69 kV circuit in Caernarvon Township. A description of the selected route for each segment is provided below:

Northern Segment: PPL Electric selected Route B as the preferred route for the “northern” segment of the North Lancaster-Honey Brook Project. Route B would exit the Lauschtown Substation and proceed southeast for 2,100 feet crossing Boulder Hill Road (SR 10) near its intersection with Oaklyn Drive. At a point 1,600 feet southeast of its crossing with Boulder Hill Road, the line would turn to the south and proceed for 4,800 feet roughly parallel to Oaklyn Road crossing Maple Grove Road and Oaklyn Drive. At a point 500 feet south of its intersection with Oaklyn Drive, the route would turn to the southeast and parallel I-76 (i.e., the Pennsylvania Turnpike) for 2,200 feet. The route would then turn sharply to the southwest for 500 feet to cross I-76 and then turn to the southeast and parallel I-76 for an additional 1,200 feet to Oaklyn Drive. From here, the route turns to the south for 3,700 feet crossing Laurel Road. From Laurel Road, the route would travel to the southeast for 5,100 feet to the Brecknock Substation, crossing Black Creek Road along the way.

Southern Segment: PPL Electric selected Route D as the preferred route for the “southern” segment of the North Lancaster-Honey Brook Project. From the Brecknock Substation, the route would head south roughly parallel to Lambert Road for 2,000 feet. At this point, the route would turn to the east crossing Lambert Road and continue for 2,000 feet. From this point, the route would turn to the south for 5,700 feet crossing Turkey Hill Road. The route would head to the southeast for 1,500 feet and then turn east for 4,300 feet, crossing Hammertown Road and Water Street, to a point 2,500 feet east of its crossing with Water Street. From this point, the route would turn to the southeast for 2,750 feet to a point 500 feet northwest of Main Street (SR 23). From here, the route would turn to the south for 1,900 feet and cross Main Street and connect with the South Akron-Morgantown #2 transmission line east of Churchtown.

MAP

Enclosed are maps showing the route for the North Lancaster-Honey Brook Project across your property. The tract of land you own is identified on the applicable map.

EXAMINATION

A copy of the Application is available for examination during ordinary business hours at the following locations:

Caernarvon Township
2147 Main Street
Narvon, Lancaster County, PA 17555

Brecknock Township
1026 Dry Tavern Rd
Denver, Lancaster County, PA 17517

East Earl Township
4610 Division Highway
East Earl, PA 17519

PARTICIPATION

You are not required to appear or participate in this matter, but you may request Commission permission to intervene. To intervene as a formal party to this proceeding, you should file a petition to intervene with the Secretary of the Pennsylvania Public Utility Commission at P.O. Box 3265 Harrisburg, Pennsylvania 17105-3265. The petition to intervene should state you alleged right or interest to participate in the formal proceeding, the grounds of the proposed intervention, and your position regarding the issues in the formal proceeding. A copy of the petition to intervene should be served on the undersigned counsel for PPL Electric.

In the event you have any questions concerning the proposed North Lancaster-Honey Brook Project but do not wish to participate as a formal party to the proceeding, you should

contact either Douglas Grossman, Senior Siting Specialist for PPL Electric, at (610) 774-2540 or Christopher Wright, legal counsel for PPL Electric, at (717) 731-1970.
