BUREAU OF TRANSPORTATION & SAFETY
RAIL SAFETY DIVISION

Dear Mr. Oliver:

DOCKETED

NOV 13 1998

We have been in contact with CSX Transportation, Inc. concerning the acquisition of right-of-way required to construct the S.R. 0601, Section 03M project. In accordance with ordering paragraph number 13, CSX Transportation, Inc. shall donate any right-of-way necessary for the completion of this project. We submitted final right-of-way and construction plans to them on May 27, 1998. We requested that property descriptions be submitted and all right-of-way be acquired by September 1998. As of this date, CSX Transportation, Inc. has not submitted any property descriptions nor acquired any required right-of-way and in fact has not been in contact with one property owner.

We have been in contact with Jim Barker and Denise Rassano of CSX's Real Property Division. We have been unable to have either one of these individuals commit to a date whenever we would have property descriptions for all the right-of-way required to construct this project. Without property descriptions you will be unable to appropriate the right-of-way and we will not be able to construct the project.

We are requesting that you contact CSX and obtain a commitment whenever they will provide property descriptions for all right-of-way required to construct this project.

Our original schedule was to let this project by March 1999. If we receive property descriptions for all three properties from CSX and plan approval from you before December 4, 1998, we will be able to meet this letting.

If you have any questions concerning this matter, please contact Brian L. Ayers, Grade Crossing Liaison Engineer at (814) 696-7175.

Sincerely,

EEF

E.L. Neiderhiser, P.E.
District Engineer
