EXCEPTIONS (File # F-2013-2381878)

Dear Sir/ Madam,

My father in law faxed copies of the bank records requested on 3 separate occasions. Each time he received notification that the fax went through successfully but nothing was ever posted to the correct PECO account. The fax number that was used each time was 215-956-3240. Please check with that department to see if any or all of those faxes were received. It seems to me that there was a disconnect between the department receiving the faxes and the department investigating the lost payments. In addition, my father in law faxed a copy of these bank records to the Office of the Administrative Law Judge on 4/7/2014. Please investigate these exceptions before making a final decision in this case. It seems like every effort has been made to get this matter resolved, but if need be he can make another attempt to fax these bank records.

Sincerely,

Jeffrey M. Jakubik
