RE: Eligo Energy NY, LLC – ESCO Code ELIG

Dear Mr. Goldstein:

Thank you for submitting your Retail Access Application Package to become an Energy Services Company (ESCO) serving residential and nonresidential natural gas and electric customers in New York State. This letter is to inform you that documentation submitted in your application package has been reviewed by Staff and established to be in compliance with the New York State Public Service Commission's ESCO eligibility requirements that are implemented by codes and regulations found in the Uniform Business Practices, the Home Energy Fair Practices and other applicable regulations.

I am also pleased to notify you that Eligo Energy NY, LLC has successfully met the Commission's EDI Phase I certification requirements for core and rate ready transactions effective September 13, 2012. All requirements for this initial stage of your eligibility determination have been satisfied.

Please be advised that you may now continue with the utility approval stage of the eligibility process by contacting those companies in whose service territories you intend to participate. The utility stage normally consists of a creditworthiness determination, completion of Phase III EDI testing and the execution of any operating or billing service agreements. Please note that each utility's eligibility requirements pertain to only their retail access programs.

Once you have satisfactorily completed the utility eligibility stage, Staff will be notified by the utility of your success. It would be helpful if Eligo Energy NY, LLC notifies Staff of the actual production date in the utility service territories you intend to

enroll customers. At that point I will confirm that your final eligibility requirements have been satisfied.

Be advised that to maintain your ESCO eligibility, you must notify Staff of any substantive legal, financial or business related changes to your company as they occur. If your business plan changes and you decide to expand your service offerings, you must immediately submit the appropriate documentation for Staff review and determination of how it affects your current eligibility.

If you are using vendors to provide ESCO related services (e.g., EDI), the ESCO remains fully responsible for any activities the vendors perform. If you have not already done so, or if you have changed vendors since last reporting them to us, please provide Staff a list with contact information for all vendors that you are now using. ***Finally, you must submit a statement annually, by January 31st, indicating that the information in your original or most recent updated Retail Access Application (RAAF) remains current, or submit a revised RAAF with statement identifying revisions.***

We will only post your company's contact information on our Website once you have completed the eligibility process and are ready to begin enrolling customers. Please do not hesitate to contact me if you have any further questions or concerns at (518) 486-2432 or Christine.Bosy@dps.ny.gov.

Applicant asserts that the disclosure of this information would cause it harm in the highly competitive energy supply market. Applicant requests that the financial information be afforded proprietary and confidential treatment.

V. COMMISSION CONCLUSION AND CERTIFICATE OF SERVICE AUTHORITY

The Commission has reviewed the request for confidential treatment and finds that it is appropriate to grant a two-year period of confidential treatment for Attachment D to the application. The Commission concurs with Applicant that disclosure of the redacted information and use by a competitor is apt to cause the Applicant competitive harm. Applicant's confidential information in the Commission's possession should, therefore, be accessible only by the Commission and Commission Staff, unless such information is or becomes publicly available from another source for a period of two years.

The Commission has reviewed the application and attachments along with the supplementary information provided by Applicant regarding the technical, financial, and managerial requirements and all other requirements of the Act and Part 451 and finds that the Applicant sufficiently demonstrates compliance with the requirements. It is noted that no demonstration of compliance with the requirements of Section 451.20(d)(2) has been made and Applicant's employees are not permitted to perform such functions, and other entities are not permitted to perform such functions pursuant to contractual arrangements with Applicant.

The Commission concludes, therefore, that Applicant's request for a certificate of service authority to operate as an ARES in Illinois should be granted and should include the following authority:

CERTIFICATE OF SERVICE AUTHORITY

IT IS CERTIFIED that Eligo Energy IL LLC is granted service authority to operate as an Alternative Retail Electric Supplier as follows:

SERVICES TO BE PROVIDED: The sale of electricity and power.

CUSTOMERS TO BE SERVED: All eligible residential and nonresidential retail customers.
