Docket Number – C-2014-2429611
Cool Transport
P.O. Box 262
Hatfield, Pa. 19440

Attention: Rosemary Chiavetta, Secretary,

I am writing to explain what the status is with Cool Transport, LLC and the Proof of Insurance for the company. Effective May 30th 2014, we are no longer an operational company. We have closed the business and did not renew our apportionment tags which were due June 1st 2014.

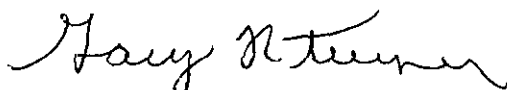

At that time, we cancelled all insurance associated with Cool Transport and we are not operating any vehicles and do not plan on starting operation again. Our intention is to close down Cool transport and if we need to file some type of forms that close the business for the Utility Commission I will work to get this accomplished as soon as possible. The question that I have is if the commission can cancel our Certificate of Public Convenience with is letter?

We are requesting that the Commission reconsider not issuing the civil penalty against Cool Transport for the \$500.00 due to the details listed above.

If you should need further details or information, please contact my accountant John Cerbus on his cell number (267) 446-8891 or his email address is johnc@cooltransport.com.

Thanks for all your time and consideration in getting this matter corrected.

Thanks Again,

Gary R. Turner
