RE: License Bond or Other Financial Security

Dear Ms. Jablonski:

Pursuant to 66 Pa. C.S. §2809(c), no electric supplier license shall remain in force unless the licensee furnishes an original of a bond or other security approved by the Commission to ensure the financial responsibility of the electric generation supplier and the supply of electricity at retail. The Commission's records indicate that the anniversary of the bond or other approved security provided by American PowerNet Management occurs on September 7, 2011.

The Commission's regulations at 52 Pa. Code §54.40(d) require "the security level for each licensee will be reviewed annually and modified primarily based upon the licensee's reported annual gross receipts information. The security level will be 10% of the licensee's reported gross receipts." The minimum security level provided may not be less than the initial security level provided when the license was granted. Unless approved by the Commission, the initial security level is \$250,000.

The Commission's regulations at 52 Pa. Code §54.39(b) require a licensee to file an annual report on or before April 30 of each year, for the previous calendar year, in order to comply with 66 Pa. C.S. §2810(c)(6). This report discloses the total amount of gross receipts from the sale of electricity and the total amount of electricity sold during the preceding calendar year. You must use this same information in calculating the appropriate security level necessary to maintain your license.

In order for your company to maintain its status as a licensed electric supplier in the Commonwealth of Pennsylvania, it must provide proof to the Commission that a bond or other approved security has been obtained. Please provide an original of any documentation submitted as proof; including bond, letter of credit, continuation certificate, amendment, etc.

Your response in this matter is requested within fifteen (15) days of the date of this letter. Submit your response to the Commission's Secretary. Additionally, fax a copy of your response to James Shurskis at (717) 787-4750, Bureau of Fixed Utility Services.

Failure to respond to this matter within fifteen (15) days will cause Commission staff to initiate a formal proceeding, that may lead to the following: cancellation of your company's electric supplier license, removal of your information from the Commission's website and notification to all electric distribution companies, in which your company is licensed to do business, of the cancellation of the license.

Please direct any questions to James Shurskis at (717) 787-8763, Bureau of Fixed Utility Services.

Sincerely,

Robert Wilson, Director
Bureau of Fixed Utility Services

Re: Modification of EGS license to include residential and small commercial customers for American PowerNet Management, LP, License #A-110173

Dear Ms. Chiavetta:

American PowerNet Management, LP is a licensed Electric Generation Supplier in Pennsylvania. We have been operating within the scope of our license since it was granted to us on October 11, 2007. By this letter we are requesting that our license be modified to include service to residential and small commercial customers. We are requesting this modification primarily to assure compliance with your Secretarial Letter issued on March 25, 2011 regarding requirements applicable to mixed meter scenarios.

We understand that it is not necessary for us to give any public notice of this request. Further, we understand that we are not required to submit and disclosure statements as required by 52 Pa. Code Section 54.5 until such time that we might begin interactions directly with such customers.

Further, we hereby request that our listing that is maintained by the Pennsylvania Public Utility Commission be updated to reflect the above requested rate class modifications.

Please let me know if you need any further information with respect to this matter. I look forward to hearing from you.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Scott Helm".
