5. **Comment**

Describe your views about the proposed rate increase. Use additional paper if you need more space.

Why should we as consumers have to stand a rate increase just so they can keep their profit margins up because we had a very hard winter with ice & snow. All of the time, manpower, & equipment is already built into the budget & union contracts that they have already negotiated for the year & on contract terms.

We as consumers don't get rate increases in wages or Social Security & pensions. Met-Ed used to put the amount of rate of kilowatt on the bill, now all that is on it is the rate of PA Taxes & Progress receipts taxes.

6. **Public Input Hearings**

A public input hearing may be scheduled in your area to give consumers an opportunity to tell the Public Utility Commission in person what you think of the proposed rate increase.

Notice of a public input hearing will be published in a newspaper of general circulation in your area, publicized through Commission press releases, and noted on the Commission's website: [www.puc.pa.gov](http://www.puc.pa.gov).
