RE: Application of Utilities, Inc., and Utilities, Inc.-Blue Mountain Lake for approval of (1) the transfer, by sale, of the assets of Blue Mountain Lake Associates, L.P., to Utilities, Inc., and Utilities, Inc.-Blue Mountain Lake; and (2) the right of Utilities, Inc.-Blue Mountain Lake to begin to offer, furnish or supply water and wastewater services to the public in portions of Stroud and Smithfield Townships, Monroe County, Pennsylvania; Docket Nos. A-210094 and A-230085

Dear Secretary McNulty:

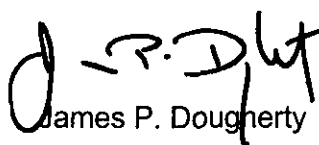

Reference is made to previous Utilities, Inc., status updates provided to the Commission on the transaction status and final closing between Utilities, Inc.-Blue Mountain Lake and Blue Mountain Lake. While Magistrate Judge Thomas J. Blewitt of the United States District Court of the Middle District of Pennsylvania issued his Order on February 6, 2004, the decision does not resolve the remaining issues at this docket. Specifically, a Notice of Appeal of Judge Blewitt's decision was filed on March 4, 2004. As such, this matter now is before the United States Court of Appeals for the Third Circuit.

Upon resolution of the issues at this docket, Utilities, Inc.-Blue Mountain Lake will immediately advise the Commission and address the directives set forth in the Commission's August 30, 2001, Order.

In the interim, if you have questions or need more information, please contact me. Thank you again for your continued patience in this matter. Please date stamp the extra copy of this letter and kindly return it to us for our filing purposes.

Very truly yours,

Dear Secretary McNulty:

Reference is made to previous Utilities, Inc., status updates provided to the Commission on the transaction status and final closing between Utilities, Inc.-Blue Mountain Lake and Blue Mountain Lake. As previously reported, oral argument was held in January 2005.

In light of an unfavorable Decision and Order from the United States Court of Appeals for the Third Circuit, Utilities, Inc., has decided to not pursue its remaining appellate alternatives regarding this issue. Accordingly, Utilities, Inc., is returning the Certificates of Public Convenience (*i.e.*, water and wastewater) issued by this Commission on August 30, 2001. Enclosed are copies of the PUC Certificates. We will forward the original Certificates to the Commission immediately upon retrieval from the Utilities, Inc., archives in Northbrook, Illinois.

If you have questions or need more information, please contact me. Thank you again for your continued patience in this matter. We sincerely appreciate the courtesy extended to us by the Commission staff throughout this lengthy process.

Re: Application of Q Wastewater Company Inc.; Docket No. A-230085;
**APPENDIX B (METES AND BOUNDS DESCRIPTION) and SECOND
REVISION TO APPLICATION – BOUNDARY CHANGE #2**

Dear Mr. McNulty:

On July 3, 2003, Q Wastewater Company (“Q Wastewater” or “Company”) filed an application for a certificate of public convenience. The application did not contain a metes and bounds description of the proposed service area; the Company represented that it would be provided at a later date.

On November 6, 2003, Q Wastewater revised its application in response to a letter dated August 7, 2003 sent to the Public Utility Commission (“Commission”) by several families whose property was located in the proposed service area. The purpose of the Company’s November 6 revision was to eliminate the signatories’ property from the proposed service area.

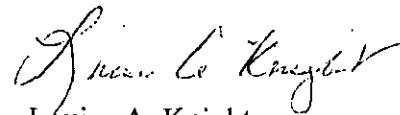

After Q Wastewater filed the November 6, 2003 revision and transmitted it to the people who signed the August 7, 2003 letter, one of the signatories of the August 7, 2003 letter, Carl Faix, brought to the Company’s attention the fact that the first revision did not accomplish its intended goal of excising the property of the concerned families from the proposed service area. In his letter to me dated November 7, 2003 (attached to this letter), he noted that *Revised Appendix D* did not eliminate the properties from the proposed service area because the Company did not identify the location of those properties properly on *Appendices D, D-1 and D-2*. Mr. Faix also provided a map with all the properties located. Finally, the letter identified two other families who wanted to be excluded from the proposed service area: the Wellers and the Stoltzfooses.

Enclosed with this letter is the original and three (3) copies of the metes and bounds description labeled as *Appendix B*. It consists of a written description accompanied by a map which visually references the point-by-point description in the metes and bounds document. Submission of this metes and bounds description should make Q Wastewater's application administratively complete. *Appendix B* excludes the property owned by the signatories to the August 7, 2003 letter, as well as the Wellers and the Stoltzfooses.

Therefore, in lieu of again revising *Revised Appendix D*, Q Wastewater is hereby withdrawing *Appendices D, D-1, and D-2*. Instead, at *Appendix D*, it will refer the reader to *Appendix B*, which, as stated above, excludes the property of everyone expressing concern about being included in the service area.

Based on all of the above, the Q Wastewater trusts that now the Commission may proceed to consider the application internally and requests the Commission to act on its application at this time. It will be happy to respond to any questions regarding same. Please feel free to contact me as necessary.

Very truly yours,

REVISION TO APPLICATION – BOUNDARY CHANGE

Dear Mr. McNulty,

We, the undersigned have received or are aware of copies of the referenced letters, which refer to a letter to the Commission dated August 7, 2003, from five families in the proposed service area. This is to make you aware of an error affecting two of those families. Specifically, with respect to paragraph two of both documents, which states that "several live in residences outside the proposed service area". This is incorrect; all five families live within the proposed service area. In revised Appendices D and D-2 of the referenced documents, two of the affected properties are correctly identified in the marginal notes as 420 and 416 Fairview Rd., New Providence; however, the map incorrectly locates those properties outside the proposed service area. We have reproduced, modified and included the supplied Appendix D map with all of the properties correctly located.

Counsel for Q Wastewater and Q Water Companies has stated in paragraph four of the referenced documents that the intention of the companies is to eliminate concern for a requirement to connect to the wastewater and water system by removing the residences from the proposed service area. We believe that the companies' intentions have not changed.

In addition, Mr. and Mrs. Eric Waller, 426 Fairview Rd. and Mr. and Mrs. Ammon Stoltzfoos, 412 Fairview Rd. (both adjacent to the properties mentioned above) were inadvertently omitted from the original intervention request dated August 7, 2003, and are requesting inclusion.
