Pillar and Mulroy, P.C. by John A. Pillar for the applicant.

O R D E R

BY THE COMMISSION:

This matter comes before the Commission on an application filed December 8, 1990. Public notice of the application was given in the Pennsylvania Bulletin of January 28, 1991. No protests have been filed. The unopposed application is certified to the Commission for its decision without an oral hearing.

Trans American Trucking Service, Inc. (applicant) is a corporation of the State of New Jersey domiciled at 115 St. Nicholas Avenue, South Plainfield, NJ. The applicant was organized under the laws of the State of

New Jersey and has registered as a foreign corporation with the Secretary of the Commonwealth on October 9, 1987.

The sole stockholder of the applicant is Ronald McGraw who is also president and treasurer. Jeffrey McGraw is vice president and secretary.

By the instant application, the applicant seeks in part, to acquire by transfer 37 common carrier rights held by Nicklaus Freight Lines, Inc. under the certificate issued at A-00106901. Upon transfer of the 37 rights, the transferor will hold no operating authority. In accordance with the sales agreement of November 6, 1990, total consideration for the 37 common carrier rights has been set at \$5,000. No tangible assets are involved. The total consideration is to be tendered to the transferor within 30 days of approval of the application for transfer.

The applicant was issued a contract carrier permit on December 7, 1988. The permit authorizes the transportation of heavy machinery and equipment, together with materials, equipment and supplies used in their manufacture and distribution, for Voith-Hydro, Inc., between points in the county of York, and from points in the county of York to points in Pennsylvania, and vice versa. The applicant has filed a petition seeking to have its contract carrier permit converted to a certificate of public convenience. The conversion is being sought so that the applicant would not be in violation of 66 Pa. C.S. §2504, which states that no person or corporation shall at the same time hold a certificate of public convenience as a common carrier by motor vehicle and a permit as a contract carrier by motor vehicle, unless for good cause shown. A statement has been filed by Robert Firestone, on behalf of Voith-Hydro, Inc., stating that the shipper has no objection to the conversion of the applicant's contract carrier authority to common carrier authority, and that Voith-Hydro, Inc. will continue to use the services of the applicant.

The unaudited balance sheet of the applicant indicates that as of June 30, 1990, it had total current assets of \$1,716,717, total assets of \$2,989,985, total current liabilities of \$1,143,273, total liabilities of \$1,640,366 and total stockholders equity of \$1,349,619. The unaudited income statement for the first six months of 1990, sets forth that from total revenue of \$7,138,210, the applicant generated a net income of \$161,900 after taxes.

The fourth right hereinafter granted has been modified to eliminate the phrase "excavated materials and road construction materials", since transportation of these commodities does not fall within the definition of "Common carrier by motor vehicle" set forth at 66 Pa. C.S. §102(4).

A review of the record before us indicates that the applicant possesses the requisite experience, equipment and financial capacity to provide the proposed service.

The authority to be transferred has been operated by the transferor, therefore, it is presumed that there is a continuing public need which may be overcome only by evidence to the contrary. In re: Byerly, 440

Pa. 521 (1970); Hostetter v. Pa. P.U.C., 160 Super. Ct. 94 (1947). Since the record is void of any such evidence, this presumption of continuing public need applies in this transfer proceeding.

We find:

1. That the applicant was issued a contract carrier permit on December 7, 1988, at A-00107793, F. 1.

2. That a petition has been filed by the applicant requesting that its contract carrier permit be converted to a certificate of public convenience thereby eliminating any possibility of violation of the Public Utility Code, 66 Pa. C.S. §2504.

3. That the petition filed by the applicant has merit.

4. That the applicant seeks to acquire by transfer, 37 common carrier rights held by Nicklaus Freight Lines, Inc. at A-00106901.

5. That the applicant is fit, willing and able to provide the service proposed.

6. That approval of the transfer application is in the public interest and is necessary for the continued accommodation and convenience of the public; THEREFORE,

IT IS ORDERED: That the transfer application be and is hereby approved and that a certificate of public convenience be issued granting the following rights:
