- Questions

Questions pertaining to completion of this application may be directed to the Bureau of Technical Utility Services at the above address or you may call the Bureau at the following number: (717) 783-5242.

• **Nontraditional Marketers/Nonselling Marketer**

- Nontraditional Marketers:

A nontraditional marketer is not required to obtain an NGS license. Per 52 Pa. Code § 62.101, a nontraditional marketer is defined as a community-based organization, civic, fraternal or business association, or common interest group that works with a licensed supplier as an agent to market natural gas service to its members or constituents. A nontraditional marketer:

(i) May not require its members or constituents to obtain its natural gas service through a specific licensed NGS.

(ii) May not be compensated by the licensed NGS if members or constituents enroll with the licensed NGS.

- Nonselling Marketer:

A nonselling marketer is not required to obtain an NGS license. Per 52 Pa. Code § 62.101, a nonselling marketer is an individual or commercial entity, such as a telemarketing firm, door-to-door salesman or company, or auction-type website, **under contract to a single licensed NGS**, that provides marketing services to retail customers for natural gas supply services. However, any individual or commercial entity under contract to multiple NGS entities must obtain an NGS license.

• **Confidentiality**

All information disclosed within this application is considered public information unless specifically labeled confidential. You have the responsibility to disclose to the Secretary's Bureau what is privileged or confidential information not otherwise available to the public. You should **submit one copy of all confidential information, on documents stamped "CONFIDENTIAL" at the top in clear and conspicuous letters, in a separate envelope (but still attached to the application) to the Secretary's Office along with the Application.** For more information, see 52 Pa. Code § 62.103.

If you have e-filed your application, separately mail in any confidential information specifically identifying that you have e-filed the application. Be sure to specify the Applicant's name, and provide the e-filing confirmation page.

COVER PAGES END. PLEASE REMOVE BEFORE FILING.

7. FINANCIAL FITNESS

- a. **BONDING:** In accordance with 66 Pa. C.S. Section 2208(c), no natural gas supplier license shall be issued or remain in force unless the applicant or holder furnishes a bond or other security in a form and amount to ensure the financial responsibility of the natural gas supplier. The criteria used to determine the amount and form of such bond or other security shall be set by each NGDC. Provide documentation that the applicant has met the security requirement of each NGDC by submitting the letters sent by the NGDCs stating what bonding amounts they require.

Please see Attachment 7(a), which provides a letter from each NGDC, except for National Fuel Gas Distribution Corp. Applicant will supplement this application with that NGDC's letter. With respect to each NGDC for whom a letter is provided, none is requiring bonding or other form of security at this time.

- b. **FINANCIAL RECORDS, STATEMENTS, AND RATINGS:** Applicant must provide sufficient information to demonstrate financial fitness commensurate with the service proposed to be provided. Examples of such information which may be submitted include the following:
- Actual (or proposed) organizational structure including parent, affiliated or subsidiary companies.
 - Published Applicant or parent company financial and credit information (i.e. 10Q or 10K). (SEC/EDGAR web addresses are sufficient)

- Applicant's accounting statements, including balance sheet and income statements for the past two years.
- Evidence of Applicant's credit rating. Applicant may provide a copy of its Dun and Bradstreet Credit Report and Robert Morris and Associates financial form, evidence of Moody's, S&P, or Fitch ratings, and/or other independent financial service reports.
- A description of the types and amounts of insurance carried by Applicant which are specifically intended to provide for or support its financial fitness to perform its obligations as a licensee.
- Audited financial statements exhibiting accounts over a minimum two year period.
- Bank account statement, tax returns from the previous two years, or any other information that demonstrates Applicant's financial fitness.

Please see Attachment 7 (confidential).

- c. **SUPPLIER FUNDING METHOD:** If Applicant is operating as anything other than **Broker/Marketer only**, explain how Applicant will fund its operations. Provide all credit agreements, lines of credit, etc., and elaborate on how much is available on each item.

Not Applicable.

- d. **BROKER PAYMENT STRUCTURE:** If applicant is a broker/marketer, explain how your organization will be collecting your fees.

Applicant collects fees by invoicing the end user client directly for services rendered, by recovering its service fees through an arrangement whereby a millage charge is placed on the natural gas supplied by the client's licensed retail natural gas supplier, or by a combination of the two reimbursement methods. The millage charge is applied with the full knowledge and consent of the client, and the natural supplier collects the charge from the client as a pass-through and remits the charge so collected to Applicant.

- e. **ACCOUNTING RECORDS CUSTODIAN:** Provide the name, title, address, telephone number, FAX number, and e-mail address of Applicant's custodian for its accounting records.

- f. **TAXATION:** Complete the TAX CERTIFICATION STATEMENT attached as Appendix D to this application.

All sections of the Tax Certification Statement must be completed. Absence (submitting N/A) of any of the TAX identifications numbers (items 7A through 7C) shall be accompanied by supporting documentation or an explanation validating the absence of such information.

Items 7A and 7C on the Tax Certification Statement are designated by the Pennsylvania Department of Revenue. Item 7B on the Tax Certification Statement is designated by the Internal Revenue Service.

Completed Tax Certification Statement attached – Appendix D

8. TECHNICAL FITNESS:

To ensure that the present quality and availability of service provided by natural gas distribution companies does not deteriorate, the Applicant shall provide sufficient information to demonstrate technical fitness commensurate with the service proposed to be provided.

a. **EXPERIENCE, PLAN, STRUCTURE:** such information may include:

- Applicant's previous experience in the natural gas industry.
- Summary and proof of licenses as a supplier of natural gas services in other states or jurisdictions.
- Type of customers and number of customers Applicant currently serves in other jurisdictions.
- Staffing structure and numbers as well as employee training commitments.
- Business plans for operations within the Commonwealth.
- Any other information appropriate to ensure the technical capabilities of the Applicant.

Please see Attachment 8(a) to this Application.

b. **PROPOSED MARKETING METHOD** (*check all that apply*)

- Internal – Applicant will use its own internal resources/employees for marketing
- External NGS – Applicant will contract with a **PUC LICENSED NGS**
- Affiliate – Applicant will use a **NON-NGS affiliate that is a nontraditional marketer and/or marketing services consultant**
- External Third-Party – Applicant will contract with a **NON-NGS third party nontraditional marketer and/or nonselling marketer**
- Other (Describe):

c. **DOOR TO DOOR SALES:** Will the Applicant be implementing door to door sales activities?

- Yes
- No

If yes, will the Applicant be using verification procedures?

- Yes
- No

If yes, describe the Applicant's verification procedures.

AGREED

- c. **TRANSFER OF LICENSE:** The Applicant understands that if it plans to transfer its license to another entity, it is required to request authority from the Commission for permission prior to transferring the license. See 66 Pa. C.S. § 2208(d). Transferee will be required to file the appropriate licensing application.

AGREED

- d. **ASSESSMENT:** The Commission does not presently assess Natural Gas Suppliers for the purposes of recovery of regulatory expenses.

ACKNOWLEDGED

- e. **FURTHER DEVELOPMENTS:** Applicant is under a continuing obligation to amend its application if substantial changes occur to the information upon which the Commission relied in approving the original filing. See 52 Pa. Code § 62.105.

AGREED

- f. **FALSIFICATION:** The Applicant understands that the making of false statement(s) herein may be grounds for denying the Application or, if later discovered, for revoking any authority granted pursuant to the Application. This Application is subject to 18 Pa. C.S. §§4903 and 4904, relating to perjury and falsification in official matters.

AGREED

- g. **NOTIFICATION OF CHANGE:** If your answer to any of these items changes during the pendency of your application or if the information relative to any item herein changes while you are operating within the Commonwealth of Pennsylvania, you are under a duty to so inform the Commission, within thirty (30) days, as to the specifics of any changes which have a significant impact on the conduct of business in Pennsylvania. See 52 Pa. Code § 62.105.

AGREED

- h. **CEASING OF OPERATIONS:** Applicant is also required to officially notify the Commission if it plans to cease doing business in Pennsylvania, 90 days prior to ceasing operations.

Sample Disclosure Statement Format for Natural Gas Suppliers

This is an agreement for natural gas services, between NGS name and customer's name and full address.

Background

We at NGS Company Name are licensed by the Pennsylvania Public Utility Commission to offer and supply natural gas services in Pennsylvania. Our PUC license number is A-XXXX-XXXXXXX.

- We set the prices and charges that you pay. The Public Utility Commission regulates distribution or delivery prices and services. The Federal Energy Regulatory Commission regulates interstate pipeline prices and services.
- If you ask us, we can bill you directly for our service.
- Right of Recision - You may cancel this agreement at any time before midnight of the third business day after receiving this disclosure.

Definitions

- Interstate Pipeline Charges - Charges for moving natural gas to the distribution lines of a distribution company.
- Nonbasic Charges - *Define each nonbasic service being offered.*

Terms of Service

1. (a) Basic Service Prices - *Itemize Basic Services you are billing for and their prices.*

You will pay rate per (Mcf/Dth/ccf) for the commodity of natural gas.
Suppliers are to include any variable pricing conditions and limits, if charging a variable rate.

You will pay rate per (Mcf/Dth/ccf) for other natural gas service.
Suppliers are to include transmission service prices if billed.

(b) Nonbasic Service Prices - *Itemize Nonbasic Services you are offering and their prices.*

2. Length of Agreement

You will buy your natural gas services for the above street address from company's name beginning date through date of expiration, if any.

- 3. **Special Terms and Conditions** - *List and explain all that apply.*

 Exclusions

4. **Special Services** - *Provide explanation of price, terms and conditions, including advanced metering deployment, if applicable.*

5. **Penalties, Fees and Exceptions** - *List any that apply, including a late payment charge. The print size for this section must be larger than the print in the rest of the agreement.*

6. **Cancellation Provisions** - *This category may consist of both customer initiated cancellation provisions and supplier initiated cancellation provisions.*

7. **Renewal Provision** - *If this is a fixed term agreement with automatic renewal, explain the procedure here.*

8. **Agreement Expiration/Change in Terms**

If you have a fixed term agreement with us that is longer than 3 months and it is approaching the expiration date, we will send you advance written notices at about 90 days and 60 days before the expiration date. If we propose to change our terms of service in any type of agreement, we will send you advance written notices at about 90 days and 60 days before the effective date of the change. If we are billing you directly for our services, then we will provide the notices as a bill message, a bill insert, or in a separate corresponding mailing. If the NGDC is billing our charges for us, then we will provide the notices in separate corresponding mailings. We will explain your options to you in these two advance notifications.

9. **Dispute Procedures**

Contact us with any questions concerning our terms of service. You may call the PUC if you are not satisfied after discussing your terms with us.

Electronic Data Interchange and Internet Requirements

Any NGS suppliers and/or broker/marketers that wish to use the Electronic Data Interchange (EDI), in the NGDCs where its available, must meet the EDI certification requirements of the NGDC. Certification is a testing process using the Commission approved Internet protocol. To initiate this process, the NGS is encouraged to contact the NGDC as early as possible after filing an application for a license with the Commission, since certification may require as many as four months to complete and customer service contract dates may not commence prior to certification. NGDC requirements of new suppliers may be found on the respective NGDC home web page. Pennsylvania's industry stakeholder group the Electronic Data Exchange Working Group (EDEWG) develops and maintains the EDI transactions and related business practices, which are found on the Pa. PUC website at http://www.puc.pa.gov/filing_resources/issues_laws_regulations/electronic_data_exchange.aspx. The EDEWG meets telephonically the first Thursday of each month at 2:00pm ET to discuss EDI change control requests and other issues.

To keep current with Pennsylvania EDI practices and policies, a newly licensed NGS may choose to participate in the EDEWG by contacting the following:

Brad Stern
Vice President, Legal and Regulatory Affairs
Mondre Energy, Inc.
1800 JFK Boulevard, Suite 1504
Philadelphia, PA 19103

Dear Mr. Stern:

We are pleased that Mondre Energy, Inc. has applied for a license to provide Natural Gas Broker/Marketer Services on the distribution system of Columbia Gas of Pennsylvania, Inc. ("Columbia Gas").

Under Paragraph 2.4.5 of the Rules Applicable to Distribution Service section of the Tariff of Columbia Gas, Mondre Energy, Inc. could be required to provide to Columbia Gas a bond or other financial security instrument in an amount that Columbia Gas determines to be appropriate. Mondre Energy, Inc. has indicated only brokering and consulting services will be provided. Therefore, we have determined at this time that Mondre Energy, Inc. does not need a bond or other financial security requirement to provide broker natural gas services to Columbia Gas customers.

If the creditworthiness requirement or Columbia Gas' exposure to Mondre Energy, Inc. changes in the future, Columbia Gas might deem it appropriate to require Mondre Energy, Inc. to provide a bond or other financial security instrument.

Please feel free to contact me at 614-460-6841 should you have any questions regarding a bond or other financial security instrument requirements of Columbia Gas.

Sincerely,

Michele Caddell
Manager of Choice and Nominations

Re: Bonding Requirements

Dear Brad Stern:

PECO is aware that Mondre Energy, Inc. has applied for a license to provide brokering and consulting services to commercial and industrial customers on the distribution system of PECO.

In making such an application, Mondre Energy, Inc. could be required to provide to PECO a bond or other acceptable financial security in an amount that PECO determines to be appropriate. Mondre Energy, Inc. has indicated that it intends to provide only brokering and consulting services to commercial and industrial customers will not take title to any delivered natural gas; nor will accept any customer payments or deposits. Therefore, PECO has determined at this time that Mondre Energy, Inc. does not need a bond or other financial security requirement, since they are not directly engaging in business with PECO and only providing brokering or consulting services to PECO customers. However, if the services provided by Mondre Energy, Inc. or the creditworthiness requirement for PECO's exposure to Mondre Energy, Inc. changes in the future, PECO reserves the right to require Mondre Energy, Inc. to provide a bond or other financial security instrument.

If you should have any questions regarding this matter, please contact Chris Sauerbaum at 215-841-6422 or myself at 215-841-6452.

Respectfully submitted,

Dear Mr. Stern:

We are pleased that Mondre Energy, Inc. has applied for a license to provide natural gas broker/marketer services on the Peoples Group of Companies. Specifically you have requested to be licensed as a supplier on the distribution systems of Peoples Natural Gas Company LLC, Peoples TWP, and Peoples Natural Gas LLC – Equitable Division (“the Companies”).

Since Mondre Energy, Inc. is not currently operating, and has no immediate plan to operate a Pool on the Peoples systems, we have determined at this time that Mondre Energy, Inc. does not need a bond or other financial security requirement to provide these services to the Company’s customers.

If the creditworthiness requirement or the Company’s exposure to Mondre Energy, Inc. provision of services on the Peoples’ system changes in the future, the Companies may deem it appropriate to require a bond or other financial instrument.

If you have any questions feel free to contact me at 412-208-6528 or by email at Lynda.W.Petrichovich@peoples-gas.com.

Re: Security Requirement Bond for Mondre Energy, Inc.

Dear Mr. Stern:

Philadelphia Gas Works ("PGW") is aware that Mondre Energy, Inc. has filed an application with the Pennsylvania Public Utility Commission to supply natural gas services to the public in Pennsylvania and specifically within the services territory of Philadelphia Gas Works.

As you know, in making such an application, Mondre Energy, Inc. must furnish acceptable security to each utility where Mondre Energy, Inc. will do business. As such, under its tariff, Philadelphia Gas Works could require Mondre Energy, Inc. to provide a bond or other financial security instrument in an amount that Philadelphia Gas Works determines to be appropriate.

However, you have indicated, and it is Philadelphia Gas Works' understanding, that Mondre Energy, Inc. intends only to provide natural gas aggregating, brokering and consulting services at this time. You have stated that, in performing these services, Mondre Energy, Inc. will never take title to any delivered natural gas.

Based upon your representations, Philadelphia Gas Works has determined that, at this time, Mondre Energy, Inc. does not need to post a bond or other form of security to operate in its service territory. If the services provided by Mondre Energy, Inc. should change, Philadelphia Gas Works reserves the right to require security from Mondre Energy, Inc. as it deems appropriate.

If you have any questions concerning the foregoing, please contact me at (215) 684-6278.

Sincerely,

RE: Mondre Energy, Inc. Application to serve as a Natural Gas broker

Dear Mr. Stern,

Based on your assertion that Mondre Energy, Inc. ("MONDRE") is applying with the State of Pennsylvania to operate as a natural gas broker, UGI Utilities Inc. ("UGIU") has concluded that MONDRE will not need to post security with UGI-Central Penn Gas ("CPG"), UGI-Penn Natural Gas ("PNG") or UGI Utilities Gas Division ("UGI"). This is based on the declaration that MONDRE will not be taking title to gas or directly serving end use customers. This also assumes that MONDRE will be acting in conjunction with a licensed Natural Gas Supplier who has been approved by the Pennsylvania Public Utility Commission to serve in the applicable UGIU service territories and who has posted the required financial security as specified in the respective UGIU tariffs. If MONDRE wishes to directly serve Choice customers in the service territories of UGI, PNG and/or CPG in the future as a natural gas supplier, it will have to post security as specified in the respective UGI tariffs prior to the commencement of the service.

Please feel free to contact me with any additional questions that you may have.

Sincerely,

A handwritten signature in black ink, appearing to read "David E. Lahoff".

Dear Mr. Stern:

We understand that Mondre Energy, Inc. has applied with the Pennsylvania Public Utility Commission to supply natural gas services to the public in Pennsylvania including our company's service area.

Because Mondre Energy, Inc. intends to only provide natural gas aggregating, brokering and consulting services at this time, we have determined that Mondre Energy, Inc. will not be required to post a bond or other form of financial security instrument to provide this service in our service area. However, if the service provided or failure to meet our requirements for credit worthiness changes in the future, we reserve the right to require security from Mondre Energy, Inc. as deemed appropriate.

If you have any questions, please contact Mrs. Marjorie Johnston at 570-888-9664.

Sincerely,

Robert J. Crocker

COMPANY PROFILE

Mondre Energy, Inc. (MEI) was founded in 1998 by Judith Mondre, a pioneer in the field of energy conservation and cost control. MEI is a woman-owned business that brings to our clients an experienced and highly skilled team of experts in energy efficiency, engineering and sustainability; alternative and renewable energy development and procurement; energy commodity purchasing and risk management; information technology; law and regulation; communications; and strategic planning and management. MEI's clients span the governmental, commercial and industrial, and institutional sectors of the economy. MEI's professional staff collectively has CEM, LEED AP, BPI, CMVP and MFBA certifications.

MEI is a woman-owned small business, and is certified as a WBE or DBE in Pennsylvania, New Jersey, Delaware, Maryland, Florida, Massachusetts, New York and Rhode Island. MEI is a licensed energy broker and/or consultant in New Jersey, Pennsylvania, Maryland, Illinois, Delaware and Massachusetts.

MEI provides services under the following NAICS codes:

- 221122: Electric Power Distribution (Power Brokering)
- 221210: Natural Gas Distribution (Gas Brokering)
- 541330: Engineering Services
- 541350: Building Inspection Services (Energy Efficiency Inspection Services)
- 541511: Custom Computer Programming Services (Database Development)
- 541611: Administrative Management and General Management Consulting Services
- 541618: Utility Management Consulting Services
- 541690: Other Scientific and Technical Consulting Services
- 561210: Facilities Support Services

MEI has been awarded a COSTARS 030-003 Energy Consulting Services Contract by the Pennsylvania Department of General Services, by which MEI can assist governmental entities, educational and health care organizations, and other non-profits to achieve energy usage reductions, efficiencies and cost savings. MEI is pre-qualified by the New Jersey Division of Property Management and Construction to provide energy auditing services to governmental entities.

MEI is currently acknowledged by the Philadelphia Business Journal as one of the Top 100 Woman-Owned Businesses, and received a 2012 Excellence Award from the Greater Philadelphia Chamber of Commerce for Sustainable Business of the Year. Other recent awards for Judith Mondre include the Penn Future Green Energy Award, the Philadelphia Business Journal Woman of Distinction Award, and Smart CEO Magazine Top 100 Business Award.

MEI has helped scores of clients save hundreds of millions of dollars in energy costs, through a combination of energy strategies that include the following services.

Procurement: MEI has extensive experience in procuring electricity, natural gas, oil, and alternative energy for large-scale institutional clients in both regulated and unregulated markets nationally. In the past year alone, MEI has assisted its clients in the purchase of more than 525 million kWh of electricity, 2.3 million mmBtu of natural gas, 5.5 million gallons of heating oil, and 22.5 MWh of renewable energy credits (RECs). We carefully monitor national and international energy markets, and are aggressive in achieving significant discounts for clients when energy can be purchased from competing suppliers. Elements of our procurement strategy include commodity price hedging/risk management, tariff rate management and green power initiatives.

Energy Audits: MEI has conducted thousands of energy audits covering millions of square feet in commercial, industrial, administrative, and residential buildings. In addition to analyzing technical data, our audit experts work closely with the people who both work or live in the building. MEI understands the human element in energy consumption, and devises energy saving solutions that include not only technological upgrades, but operational policies and practices that can often make an even bigger impact.

MEI's recommendations for energy projects are based upon our experience and understanding of the capabilities and limitations of a wide range of efficiency technologies and conservation practices. MEI recommends only proven technologies that have the potential for payback periods consistent with client objectives, and often assists clients in identifying funding sources for the required capital investments.

Renewable Energy and Sustainability: MEI has performed numerous technical and financial evaluations of distributed generation projects involving renewable energy sources, including solar, wind, geothermal and biomass. MEI has established renewable energy purchasing programs for its clients, involving off-take power purchasing transactions, and the specification and sourcing of renewable energy credits. MEI has assisted clients in evaluating the feasibility of zero net emissions building designs and retrofits. MEI has developed strategies to help organizations meet carbon neutrality goals with minimum capital investment in onsite renewable energy facilities, and has structure an optimized portfolio of projects that can dramatically reduce carbon emissions, offer attractive financial returns and avoid reliance on renewable energy credits or carbon offsets for attainment of carbon reduction goals.

Strategic Energy Management Plan Development and Implementation: MEI's energy planning process begins with facility energy audits and feasibility studies of energy efficiency measures. MEI uses its analytical, engineering, legal, regulatory, and financial expertise to develop comprehensive energy programs that incorporate best practices, innovative procedures, and support for key management and facility personnel. MEI strategies are flexible, specific, and custom-designed for each client in a way that provides verifiable benchmarks for success.

Account Reconciliation and Bill Auditing: Utilities and suppliers generate thousands of billing statements. In our experience, errors are not uncommon, and can often represent significant costs to clients. MEI's Energy Insight System® analyzes client utility bills and verifies their accuracy. When errors are discovered, we help clients get refunds or adjustments. Where a project involves rate modeling or calculations, MEI will verify the accuracy of the model by using inputs from customer utility bills and comparing the model output with the actual bill.

Load Profile Analysis: MEI evaluates energy use and demand patterns to find opportunities for improvement. We identify and suggest corrections of operational issues to ensure that each client facility is functioning at maximum energy efficiency. Our engineers and analysts assess client utility commodities consumption and frequently identify significant savings opportunities. We detail energy usage by category (lighting, HVAC, motors and controls, etc.) and can assess capital improvements related to energy usage to identify and prioritize projects with the most beneficial paybacks.

Measurement and Monitoring: MEI's baseline studies of facility energy usage help to identify cost-reduction and efficiency-improvement opportunities. We develop measurement and monitoring strategies so clients can better manage energy consumption and cost, including the capability for remote, web-based control of building energy systems.

New Technology Analysis: MEI helps clients achieve savings using new technologies for heating, cooling, and lighting. We focus on proven technologies with reasonable payback periods. Our staff are expert on on-site energy generation options, and through "peak demand curtailment" we help clients gain financially when suppliers buy back unused peak power from the client.

Project Financing Analysis and Project Management: MEI understands the multiple financing options clients can face in making capital investments for energy. Whether clients are considering internal funds, debt financing, lease or lease/purchase agreements, or energy performance contracts, MEI helps achieve additional cost savings by structuring financing arrangements that yield net positive cash flow as quickly as possible.

Mondre Energy Insight System®: MEI offers clients its **Mondre Energy Insight System®**, a database management and applications system that allows clients to better understand and manage their energy usage. The System is tailored to each client's specific energy data, and allows a wide range of analysis and reporting capabilities, including carbon footprint monitoring and energy auditing. This analysis and reporting can form the basis of sound decision making about energy use, procurement, investment, and environmental impact.

Company Resumes

JUDITH L. MONDRE

Founder and President

Judith Mondre has a distinguished history of successful and innovative energy management and policy making, serving commercial, industrial, institutional, governmental and educational organizations. Her career in the energy field spans twenty years and her efforts have resulted in energy cost savings of hundreds of millions of dollars for her clients.

Mondre Energy, Inc. is a highly specialized, woman-owned small business founded in 1998. As the Company's chief executive, Ms. Mondre is responsible for all elements of client engagement, including client assistance in identification of energy objectives, development and implementation of strategic energy plans and programs, and assessment of performance. She leads a team of experts in strategic planning, energy audits and economic analyses, sustainability and carbon emissions reduction, energy market analysis and forecasting, load profiling, procurement strategies, demand reduction, and rate and policy analysis. In an era of commodity price volatility, technology advances, renewable energy and sustainable solutions, and a dynamic regulatory environment, the Company helps its clients strike the proper balance among capital and operating spending, price stability and market risk, and establishing and achieving sustainability and "green" objectives.

In 2010, Ms. Mondre received Green Energy Award from Penn Future, recognizing her leadership in alternative energy procurement and policy development. Ms. Mondre was named one of the "Best 50 Women in Business in Pennsylvania" in 2001. She has served on mayoral and gubernatorial transitions teams on energy and has been a technical advisor to energy publications. Ms. Mondre regularly participates in industry conferences as a featured speaker and panelist. She served as executive director for the New York Energy Buyers Forum (now called the NY Energy Consumers Council).

Prior to founding Mondre Energy, Ms. Mondre served as the first Executive Director of the City of Philadelphia's Municipal Energy Office under former Mayor Ed Rendell, building the Office into a nationally recognized leader in reducing energy costs and improving energy efficiency in municipal government operations. Under her leadership, the City received EPA's Partner of the Year Award and Vice President Al Gore's "Hammer Award" for Excellence in making Government more effective. She was Chair of the Urban Consortium Energy Task Force and the Greater Philadelphia Clean Cities Program.

Ms. Mondre's client-related work is focused in the following areas:

Project Management: Ms. Mondre ensures the proper allocation of staff, resources, and management oversight for the completion of projects on time and within budget. As a member of the Statewide Evaluator, she managed the Mondre Energy team providing services to the Pennsylvania Public Utility Commission pursuant to Phase I of Act 129 of 2008. For more than a decade, she has managed numerous tasks related to energy auditing, allowances development, renewable energy project studies for the Philadelphia Housing Authority. She has managed local government energy projects under the federal Energy Efficiency and Conservation Block Grant (EECBG) program and funded through the American Recovery and Restoration Act (ARRA), including projects for Meriden, Connecticut; Chester County, Pennsylvania; and Upper Darby Township, Pennsylvania.

Judith L. Mondre (continued)

Procurement: Ms. Mondre's expertise in contract negotiation with energy suppliers helps clients maximize the benefit of their commodity supply agreements, while developing and implementing a sound purchase strategy. In such capacity, she has advised many large-scale aggregated purchases of electricity, natural gas and/or fuel oil, including Montgomery County, Maryland; the Mid-Atlantic Aggregation Group Independent Consortium; the Archdiocese of Philadelphia; and the School District of Philadelphia.

Strategic Planning: Ms. Mondre guides clients on the economic, financial, legal, regulatory, policy, engineering, and management aspects of energy use. Clients for whom Ms. Mondre has developed energy strategic plans include the School District of Philadelphia; the Philadelphia Navy Yard Business Center (through the Philadelphia Industrial Development Corporation); Montgomery County, Maryland; the Archdiocese of Philadelphia; the Philadelphia Phillies; and the Commonwealth of Puerto Rico.

Owner's Representative: Ms. Mondre acts as "owner's representative" on behalf of the Company's clients for the solicitation, evaluation, design and installation of performance-based energy savings projects delivered by energy services companies (ESCOs). She provides executive leadership for services including conducting audits, preparing bid documents, evaluating responses, negotiating contracts, and evaluating, measuring and verifying the impact of energy conservation measures. She has acted in this capacity for clients including the Upper Darby School District and the Temple University Health System.

Expert Testimony: Ms. Mondre provided expert witness testimony regarding service connections and rate class cost allocation on behalf of the School District of Philadelphia in a utility rate proceeding.

STEVEN F. MILLER, PE, MFBA, CMVP, CEM
Vice President, Engineering

Steve Miller is a registered professional engineer experienced in the technical and financial evaluation of residential, commercial and industrial energy production and energy use systems. He has expertise in the design of combined heat and power (CHP), heat pumps, HVAC systems, photovoltaic (PVC) arrays, petroleum coke gasification plants and advanced fluidized bed technology projects. Mr. Miller has evaluated numerous renewable energy projects involving solar, wind, geothermal and biomass resources for technical and financial feasibility.

Mr. Miller designs and manages energy audits and energy conservation programs, identifying for clients cost-effective energy and demand reduction and conservation opportunities. He has either managed or performed thousands of energy audits involving, in the aggregate, tens of millions of square feet of facilities used for industrial, commercial, administrative, and residential purposes, and including specialized facilities such as sports arenas, refrigerated warehouses, health care and nursing facilities, and correctional facilities. He is expert in developing innovative strategies for improving energy efficiency, implementing sustainability programs and practices, reducing the client's carbon footprint, and managing overall energy usage. He also is expert in the evaluation, measurement and verification of energy savings and demand reductions achieved by utility incentive programs, and has provided recommendations regarding improvements to, and best practices for, such programs.

Mr. Miller serves as an Expert Reviewer for the Opportunity Research Fund (ORF), which provides grants to support research, development, demonstration and deployment of energy efficiency technologies, policies, business models, and training programs. ORF is part of the Greater Philadelphia Innovation Cluster for Energy Efficient Buildings (GPIC), a nationally recognized program based in the Philadelphia Navy Yard.

REPRESENTATIVE PROJECT EXPERIENCE

Pennsylvania Public Utility Commission (PUC) – Act 129 of 2008

Mr. Miller was a key member of the Statewide Evaluator (SWE) Team providing services to the PUC in the administration and implementation of Pennsylvania Act 129 of 2008, Phase I. He managed Mondre Energy's responsibilities in the on-site and desktop audit and evaluation of utility claimed savings in connection with commercial, industrial and low-income energy savings incentives programs. Responsibilities also included reviewing and updating quantitative energy savings and demand reduction protocols contained in the Pennsylvania Technical Reference Manual (TRM) related to implementing energy efficient residential, commercial and industrial energy equipment. He led the Mondre Energy team in the preparation of baseline studies for assessing the market penetration of energy efficient equipment, and research studies on best practices for incentive programs in applying net-to-gross ratios and in the implementing demand response programs.

Philadelphia Housing Authority (PHA)

For the fourth largest housing authority in the United States, Mr. Miller has performed numerous energy audits in accordance with Housing and Urban Development (HUD) program requirements. Specific projects in which Mr. Miller has participated include a natural gas and electric utility allowance analysis for several PHA housing developments, and an energy audit sampling residences in 31 PHA conventional properties with over 6,700 dwelling units.

Steven F. Miller (continued)

Local Government Energy Efficiency Planning Projects

Mr. Miller has performed facility audits and related work for local government, including projects funded by the federal Energy Efficiency and Conservation Block Grant (EECBG) program. Clients have included Chester County, Pennsylvania; Upper Darby Township, Pennsylvania; and the City of Meriden, Connecticut. Facilities audited included prisons, residential and senior centers, administration buildings, libraries, police and fire stations, water treatment plant, airport, health facilities and street lighting. The projects involved establishing baseline usage, identifying cost-effective energy conservation measures, identifying potential funding sources, implementing community outreach, advising on on-site power generation solutions, evaluating sustainability and carbon footprint reduction projects and opportunities, and assisting, where applicable, in EECBG reporting. Additionally, for Chester County, Mr. Miller prepared specifications for boiler replacements for two County courthouses and a 200-bed nursing home.

Philadelphia Industrial Development Corporation (PIDC)/Philadelphia Navy Yard (PNY)

Mr. Miller has provided diverse consulting services to the PIDC including utility master plan development, tenant energy efficiency surveys, distributed generation metering protocols and energy technology evaluation. Through this work, he has provided critical support in the areas of energy engineering economics and commodities procurement, CHP and HVAC systems conceptual design, electrical grid/substation interconnection and sub-metering protocols (include smart grid technology), tenant billing rate design and system cost recovery, tenant outreach and input to master plan development, demand response programs, and the measurement and verification protocols for evaluating energy efficiency.

Philadelphia Phillies

Mr. Miller conducted a comprehensive energy audit of Citizens Bank Park, home of the Philadelphia Phillies Major League Baseball team. The audit entailed a thorough evaluation of the entire 43,000 seat stadium, located in South Philadelphia, as well as the stadium's associated 21,000 space parking lots, and all food preparation facilities and administrative offices. Mr. Miller identified opportunities for a geothermal space heating and cooling system, food service refrigeration system upgrades, lighting controls, and modifying the existing peak shaving generators for combined heat and power operation.

STANLEY R. FORCZEK

Vice President, Energy Procurement and Management

Stan Forczek brings to Mondre Energy's clients over two decades of experience in strategic planning for, and the procurement and management of, large-scale energy supply portfolios. Over his career, Mr. Forczek has procured approximately 500 megawatts of electricity and more than 580,000 dekatherms of natural gas. At Amtrak, he managed the economic dispatch of a 1,200-mile electric transmission network and power pool, and had responsibility for an annual energy budget of more than \$300 million. His Amtrak experience also included experience with the NY Power Authority (NYPA). He established guidelines and business models for an integrated energy management system, and developed several projects to monetize energy asset capabilities throughout a national footprint. His procurement strategies saved Amtrak tens of millions of dollars.

Mr. Forczek has managed energy strategic planning development and commodity procurements for large-scale institutional users, handling all phases from presentation and negotiation, through execution of procurement contracts, product development and management of the supply relationships after implementation. Mr. Forczek has directed supply solicitations throughout the United States, with focus on the PJM, NY-ISO and ISO-NE regions. Mr. Forczek provides in-depth understanding of the dynamics of regional and global energy markets, as well as the supporting infrastructure and operations from both the end-user and supplier perspective. MEI's clients benefit from his strong analytical skills and experience in strategic planning, administration, understanding the effects of operations on energy performance, budgeting, finance, accounting and auditing, and asset valuation.

Mr. Forczek has extensive regulatory experience with electricity market providers (PJM, NY-ISO, ISO-NE), several state utility commissions, and the FERC on issues such as market development, transmission utilization, transmission overbuild, and generation development. He has served as an expert witness in several filings. He has developed strategic partnerships with generation developers, assisting them through the regulatory process, has worked closely with all major utility companies on design, construction, asset acquisition, interconnection agreements and economic tariff design. Mr. Forczek is also experienced in energy master planning, including infrastructure construction and upgrades, having coordinated more than \$2.9 billion in energy related projects, including many on the federal level.

For a major national alternative energy commodity supplier, Mr. Forczek developed the business model that created a central team to manage end user business that required a national footprint. In addition, he set up policies to integrate energy services into the energy supply model.

Mr. Forczek has assisted Mondre Energy's large-scale energy consumers in electricity, natural gas and/or fuel oil procurement, including the Southeastern Pennsylvania Transportation Authority (SEPTA), The Philadelphia Phillies, Aramark, Parkway Corporation, The Salvation Army, Elwyn, the Archdiocese of Philadelphia and the Diocese of Scranton.

Stanley R. Forczek (continued)

While each of MEI's clients has unique energy use profiles and procurement objectives, Mr. Forczek's work on their behalf generally includes all or some of the following activities:

- Development of dynamic energy commodity acquisition plans, including recommendations on timing of purchases, the sizing of a hedging strategy and the placement of fixed and open orders;
- Energy usage analysis and load profile development;
- Recommendations for energy supply product development and hedging strategy consistent with client price and risk management objectives, accounting for anticipated growth in usage and operating drivers affecting energy consumption, changes in the utility's distribution rate, and ISO pass-through costs;
- Development and management of, or participation in, energy commodity solicitations, procurements, and associated master contract and transaction confirmation negotiations, with economic benefits achieved ranging from approximately 10 percent – 20 percent;
- Assistance in the preparation of fiscal year/annual operating budgets and the evaluation/interpretation of economic performance;
- Continued recommendations on revisions/upgrades to the overall strategic plan; and
- Continual monitoring of energy commodity forward markets.

Mr. Forczek also supports Mondre Energy's bill reconciliation and auditing services in connection with complex energy supply products, such as a variation of block and index, which involve pricing structures with multiple billing determinants.

BRADFORD M. STERN
Vice President, Legal and Regulatory Affairs

Brad Stern specializes in strategic management, commodity procurement, utility industry regulation, energy efficiency and demand-side management on behalf of public and private energy consumers. His experience includes private practice positions in the public utility and energy practice groups of prominent law firms. He also has project supervision experience in the siting and licensing of large-scale coal and nuclear power plants. In addition to his position with Mondre Energy, Mr. Stern maintains a legal practice in the areas of telecommunications, utility regulatory matters, and commercial transactions. He is a member of the bar in Pennsylvania and New Jersey. Mr. Stern's expertise includes:

Regulatory Analysis: Mr. Stern leads Mondre Energy's services related to regulatory compliance, transactional issues, tariff analysis and rate case participation.

Utility Rate Monitoring and Management: Mr. Stern assists Mondre Energy's clients in the negotiation of utility rates and off-tariff agreements.

Contracting: Mr. Stern is responsible for assisting Mondre Energy's clients with energy supply and energy services transactions, including power generation development and operation, and solicitation documents and proposals evaluation.

REPRESENTATIVE PROJECT EXPERIENCE

Southeastern Pennsylvania Transportation Authority (SEPTA)

Mr. Stern assisted SEPTA in the preparation of requests for proposals (RFPs) and contracting documents for the supply of electricity and natural gas for SEPTA's traction and non-traction energy requirements.

School District of Philadelphia, Upper Darby School District, William Penn School District

Mr. Stern was a key participant in the School Districts' solicitations under the Pennsylvania Guaranteed Energy Savings Act for the evaluation of energy service companies (ESCOs) proposals for energy savings performance contracts, and in energy master plan development.

Philadelphia Industrial Development Corporation (PIDC)

Mr. Stern assisted the PIDC in the development of an energy master plan for the Philadelphia Navy Yard, including development of solicitation documents and the evaluation of proposals for the procurement of planning and engineering services, and currently is engaged in an evaluation of implementing an on-bill financing program for incentivizing the installation of energy efficiency measures.
