**LIST OF CHANGES MADE BY THIS TARIFF**

This Tariff supplement makes language changes to the Rider DSIC – Section 5 - Customer Safeguards, in accordance with the order entered on August 21, 2014 at Docket No. P-2013-2344595.

## RIDER DSIC (cont.)

Distribution System Improvement Charge (DSIC)

## Customer Safeguards (cont.):

3. **New Base Rates:** The DSIC will be reset to zero upon application of new base rates to customer billings that provide for prospective recovery of the annual costs that had previously been recovered under the DSIC. Thereafter, only the fixed costs of new eligible plant additions that have not previously been reflected in the Company's rates or rate base will be reflected in the quarterly updates of the DSIC.
4. **Customer Notice:** Customers shall be notified of changes in the DSIC by including appropriate information on the first bill they receive following any change. An explanatory bill insert shall also be included with the first billing.
5. **All Customer Classes:** The DSIC shall be applied equally to all customer classes, except that the Company may (C) reduce or eliminate the Rider DSIC to any customer with competitive alternatives who are paying flexed or discounted rates and customers having negotiated contracts with the Company, if it is reasonably necessary to do so.
6. **Earnings Reports:** The DSIC will also be reset to zero, if, in any quarter, data filed with the Commission in the Company's then most recent Annual or Quarterly Earnings reports show that the Company would earn a rate of return that would exceed the allowable rate of rate of return used to calculate its fixed costs under the DSIC as described in the pre-tax return section.

The provisions of Rider DSIC remain subject to the outcome of the pending proceeding before the Commission at Docket No. P-2013-2344595.
