(a) **PPL ELECTRIC UTILITIES CORPORATION – TRANSMISSION SERVICE CHARGE RECONCILIATION FOR 2005 AND TRANSMISSION SERVICE CHARGE RECALCULATION EFFECTIVE JANUARY 1, 2006.**

(b) By Order entered December 22, 2004 at R-00049255, the Commission approved PPL Electric Utilities Corporation's (PPL's or Company's)) request to establish a Transmission Service Charge (TSC) Tariff Rider. The TSC Rider permits PPL to recover from its retail energy customers all applicable transmission charges it incurs to acquire, on behalf of those customers, transmission service from the PJM Interconnection. Pursuant to the provisions in the effective TSC Rider, the Company has filed a reconciliation of its TSC activity for the period January 1, 2005 through November 30, 2005, along with an update of estimated transmission charges that it anticipates incurring over the twelve-month period beginning January 1, 2006. New ITC rates reflecting PPL's TSC activity through November 30, 2005 and approved projected transmission costs are to become effective January 1, 2006.

(c) The Staff recommends that the Commission:

- accept PPL's calculation of its TSC net under-collections for the period January 1, 2005 through October 31, 2005
