APPENDIX D

Standards of Conduct

- (1) The [natural gas distribution company] should apply its tariffs in a nondiscriminatory manner to its affiliate, its own marketing division and any nonaffiliate.
- (2) The [natural gas distribution company] should likewise not apply a tariff provision in any manner that would give its affiliate or division an unreasonable preference over other marketers with regard to matters such as scheduling, balancing, transportation, storage, curtailment, capacity release and assignment, or nondelivery, and all other services provided to its affiliated suppliers.
- (3) If a tariff provision is mandatory, the [natural gas distribution company] should not waive the provision for its affiliate or division absent prior approval of the Commission.
- (4) If a tariff provision is not mandatory or provides for waivers, the [natural gas distribution company] should grant the waivers without preference to affiliates and divisions or non-affiliates.
- (5) The [natural gas distribution company] should maintain a chronological log of tariff provisions for which it has granted waivers. Entries should include the name of the party receiving the waiver, the date and time of the request, the specific tariff provision waived and the reason for the waiver. Any chronological log should be open for public inspection during normal business hours.
- (6) The [natural gas distribution company] should process requests for transportation promptly and in a nondiscriminatory fashion with respect to other requests received in the same or a similar period. The [natural gas distribution company] should maintain a chronological log showing the processing of requests for transportation services. Any chronological log should be open for public inspection during normal business hours.
- (7) Transportation discounts and fee waivers and rebates provided to the [natural gas distribution company's] or its marketing affiliate's favored customers should be offered to other similarly situated customers and should not be tied to any unrelated service, incentive or offer on behalf of either the parent of affiliate. A chronological

log should be maintained showing the date, party, time and rationale for the action. Any chronological log should be open for public inspection during normal business hours.

- (8) The [natural gas distribution company] should not disclose any customer proprietary information to its marketing affiliate or division, and to the extent that it does disclose customer information, it should contemporaneously provide this same information to other similarly situated marketers in a similar fashion so as not to selectively disclose, delay disclosure, or give itself or its affiliate any undue advantage related to the disclosure. A chronological log should be maintained showing the date, time and rationale for the disclosure. Any chronological log should be open for public inspection during normal business hours. A natural gas distribution company should not provide information received from non-affiliated customers or suppliers to its affiliated natural gas suppliers.
- (9) The [natural gas distribution company] should justly and reasonably allocate to its marketing affiliate or division the costs or expenses for general administration or support services.
- (10) The [natural gas distribution company] selling surplus gas supplies and/or upstream capacity on a short-term basis (as defined by the Federal Energy Regulatory Commission) to its affiliate should make supplies available to similarly situated marketers on a nondiscriminatory basis. The [natural gas distribution company] should not make any gas supplies and/or upstream capacity available through private disclosure to the [natural gas distribution company's] affiliate unless the availability is made simultaneously with public dissemination in a manner that fairly apprises interested parties of the availability of the gas supplies and/or upstream capacity. The [natural gas distribution company] should maintain a chronological log of these public disseminations. Any chronological log should be open for public inspection during normal business hours.
- (11) The [natural gas distribution company] should not condition or tie agreements to release interstate pipeline capacity to any service in which the [natural gas distribution company] or affiliate is involved.
- (12) The [natural gas distribution company] should not directly or by implication . . . represent to any customer, supplier or third party that an advantage may accrue to any party through use of the [natural gas distribution company's] affiliate or subsidiary.

- (13) The [natural gas distribution company] should establish and file with the Commission a complaint procedure for dealing with any alleged violations of any of the standards listed in paragraphs (1) through (12), this paragraph or paragraphs (14) and (15), excepting for paragraph (9), which should be exclusively under the purview of the Commission. These procedures should be developed in consultation with interested parties during consideration of any tariff guided by this section and §69.191 (relating to general). The Commission may expect establishment of a complaint procedure or other recordkeeping requirements if warranted by subsequent facts or circumstances.
- (14) The [natural gas distribution company] should keep a chronological log of any complaints, excepting paragraph (9), regarding discriminatory treatment of natural gas suppliers. This chronological log should include the date and nature of the complaint and the [natural gas distribution company's] resolution of it. Any chronological log should be open for inspection during normal business hours.
- (15) Parties alleging violations of these standards may pursue their allegations through the Commission's established complaint procedures. A complainant bears the burden of proof consistent with 66 Pa. C.S. (relating to Public Utility Code) in regard to the allegations.
- (16) Licensees shall provide accurate information about their natural gas supplier services using plain language and common terms. Where new terms are used, such terms must be defined again using plain language. Information should be provided in a format which will allow for comparison of the various natural gas supply services offered and the prices charged for each type of service.
- (17) Licensees shall provide notification of the change in conditions of service, intent to cease operation as a natural gas supplier, explanation of denial of service, proper handling of deposits and proper handling of complaints in accordance with Commission regulations where applicable.
- (18) Licensees shall maintain the confidentiality of customers' historic payment information and right of access to their own load and billing information.

- (19) Licensees shall not discriminate in the provision of natural gas supply services as to availability and terms of service based on race, color, religion, national origin, sex, marital status, age receipt of public assistance income, and exercise of rights under the Consumer Credit Protection Act, 15 U. S. C. §§1691-1691f; Regulation B, 12 C.F.R. §§202-202.14.
- (20) Licensees will be responsible for any fraudulent deceptive or other unlawful marketing or billing acts performed by their agents or representatives. Licensee shall inform consumers of state consumer protection laws that govern the cancellation or rescission of natural gas supply service contracts. 73 P. S. §201-7.
- (21) The natural gas distribution company shall not give any affiliate or marketing division preference over a non-traditional affiliate in the provision of goods and services such as processing requests for information, complaints and responses to service interruptions. The natural gas distribution company shall provide comparable treatment without regard to a customer's chosen natural gas supplier.
- (22) No transaction between the natural gas distribution company and an affiliated natural gas supplier shall involve an anti-competitive cross-subsidy and all such transactions shall comply with applicable law.
- (23) Natural gas distribution company employees who have responsibility for operating the distribution system, including natural gas delivery or billing and metering, shall not be shared with an affiliated or divisional Supplier, and their offices shall be physically separated from the office(s) used by those working for the Supplier. Such natural gas distribution company employees may transfer to a Supplier provided such transfer is not used as a means to circumvent these interim standards of conduct. Any supplier shall have its own direct line management. Any shared facilities shall be fully and transparently allocated between the natural gas distribution company function and the Supplier function. The natural gas distribution company accounts and records shall be maintained such that the costs a Supplier incurs may be clearly identified.
- (24) (a) Neither the natural gas distribution company nor an affiliated or divisional Supplier may directly or by implication falsely and unfairly represent:

- that the Pa PUC jurisdictionally regulated services provided by the natural gas distribution company are of a superior quality when power is purchased from an affiliated or divisional Supplier; or
- that the merchant services (for natural gas) are being provided by the natural gas distribution company rather than an affiliated or divisional Supplier;
- that the natural gas purchased from a Supplier that is not an affiliate or division of the natural gas distribution company may not be reliably delivered;
- that natural gas must be purchased from an affiliate or divisional Supplier to receive Pa PUC jurisdictional regulated services.

(b) The natural gas distribution company shall not jointly market or jointly purchase its Pa PUC jurisdictional regulated services with the services of an affiliated or divisional Supplier. This prohibition includes prohibiting the natural gas distribution company from including bill inserts in its natural gas distribution company bills promoting an affiliated or divisional Supplier's services, and further precludes a reference or link from the natural gas distribution company's web-site to any affiliated or divisional supplier.

(c) When an affiliated or divisional Supplier markets or communicates to the public using the natural gas distribution company name or logo, it shall include a disclaimer that states:

(i) That the Supplier is not the same company as the natural gas distribution company; (2) that the prices of the Supplier are not regulated by the Pa PUC; and (3) that a customer does not have to buy natural gas or other products from the Supplier in order to receive the same quality service from the natural gas distribution company. When a Supplier advertises or communicates verbally through radio or television to the public using the natural gas distribution company name or logo, the Supplier shall include at the conclusion of any such communication a disclaimer that includes all of the disclaimers listed in this paragraph.

(25) The natural gas distribution company must: (a) make interstate capacity available for release, assignment, or transfer to its affiliated or divisional Supplier only through the interstate pipeline electronic bulletin boards and the competitive bidding procedures in place on those interstate systems; (b)

not give its affiliated or divisional Supplier any preference over non-affiliated or non-divisional Suppliers, or potential non-affiliated or non-divisional Suppliers, in matters relating to the assignment, release, or other transfer of the natural gas distribution company's capacity rights on interstate pipeline systems; and (c) not condition or tie its agreement to release, assign, or otherwise transfer interstate pipeline capacity to any agreement by a gas Supplier, customer or other third party relating to any service in which its marketing affiliate is involved.
