

53.64 (c)(7) A list of off system sales, including transportation, storage, or capacity releases by the utility at less than the weighted average price of gas, or at less than the original contract cost of transportation, storage or capacity supplied to the utility for its own customers.

Response:

Columbia did not sell gas at prices below the weighted average price of gas in the review period. Columbia did, however, complete a number of releases at prices below the maximum allowed pipeline tariff rates. This is the normal nature of the secondary transportation capacity market. These releases are listed in Attachment 1.
