Dear Ms. Chiavetta:

I write this letter to you to protest the proposed gas rate increase that PUC v Herman oil and Gas Company Inc. have proposed. I believe this increase is unfair and will hurt the customers of said Company. A 50%, 25% and 25% increases does not take into account the GRC that he can still play with.

Although I only been a customer for about 11 years, I think the documentation that mail to the consumer advocates showed the said company did have a rate increases throughout the years.

Why charge us a customer charge of \$13.50/month, we receive no benefit from this. They don't even get out of the truck to get an accurate reading.

This decision hurts all citizen especially those that survive on Social Security. SSI this year was 1.7 percent. How can we absorb this type of increase?

Consider this letter my formal written protest against the proposed Gas rate increase.

Sincerely

Joseph Rizzo
