**SUBJECT: TOWNSHIP OF LOWER MAKEFIELD QUIET ZONE
PUBLIC UTILITY COMMISSION APPLICATION
LOWER MAKEFIELD TOWNSHIP
PROJECT NO. 13-77-032**

Dear Ms. Chiavetta:

On behalf of Lower Makefield Township, as their Township Engineer, I am submitting the attached Public Utility Commission Application for establishment of the Lower Makefield Township Quiet Zone. The Quiet Zone will encompass three (3) railroad crossings along 2.0 miles of railway lines within Lower Makefield Township. The details of this project are outlined within the attached application and exhibits.

Please contact me if you should have questions regarding this project and thank you for your consideration of our application.

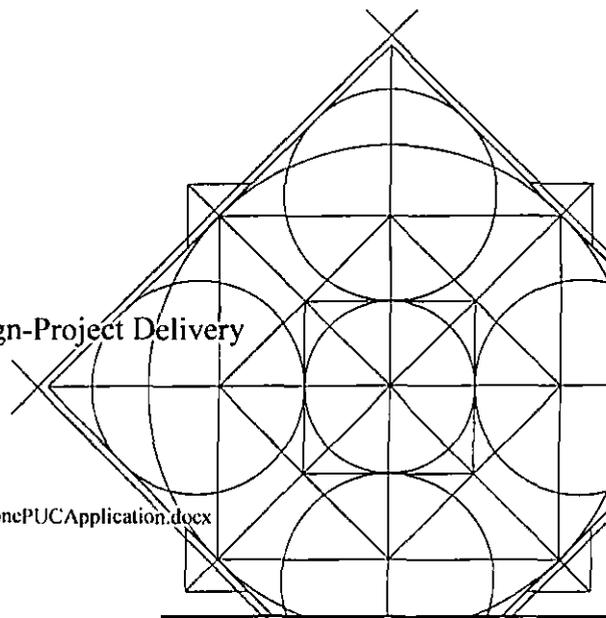

Sincerely,

Mark W. Eisold, P.E.
Township Engineer

PA P.U.C. BUREAU
SECRETARY'S BUREAU

To Pennsylvania Public Utility Commission:

1. The name and address of applicant are Lower Makefield Township
1100 Edgewood Road, Yardley, PA 19067

2. The name and address of applicant's attorney are Jeffrey P. Garton, Esquire
680 Middletown Blvd, Langhorne, PA 19047

3. (This paragraph to contain a general statement of the nature and character of service rendered by the applicant and the corporate right to alter said crossing.)

Lower Makefield Township is proposing to create a Quiet Zone along approximately 2.0 miles of the railway lines within their township. The three (3) railroad crossings involved in this project are Heacock Road, Stony Hill Road and Edgewood Road.

4. (This paragraph to contain a brief, concise statement of the nature and character of the construction or alteration, approval of which is sought, reference being made to plans filed as exhibits.)

The Quiet Zone will encompass three (3) railroad crossings at Heacock Road, Stony Hill Road and Edgewood Road. Among other Supplementary Safety Measures being added the crossings as part of the Quiet Zone, the alteration to the crossings will involve the installation of "No Train Horn" signs. Attached to this application are copies of a schematic diagram for each crossing showing the proposed alterations and signage.

5. (This paragraph to contain the names of public utilities, municipalities, corporations, or property owners concerned in or affected by the proposed alteration of the crossing. If consent to the proposed construction, abolition, etc., has been obtained from any municipality or department of the government of the Commonwealth of Pennsylvania, verified copies of such consent should be filed as exhibits.)

Entities concerned in or affected by the proposed alteration are as follow:
Lower Makefield Township

PennDOT

The County of Bucks

Southeastern Pennsylvania Transportation Association (SEPTA)

CSX Transportation

Federal Railroad Administration

PA American (Water Utility)

PECO (Gas & Electric Utility)

6. (This paragraph to contain a statement of the number of persons and vehicles of all kinds using the highway at the crossing for three days, preferably a Friday, Saturday and Sunday, the count to be taken 24 hours each day, and a classified statement verified by affidavit of the persons making the count must be attached as an exhibit.)

The attached information contains the requested documentation regarding the usage of the affected crossings. The study was performed by Tri-State Traffic Data, Inc. for a 10-day, 24 hour/day time frame between June 24, 2014 and July 3, 2014, inclusively.

7. (This paragraph to contain a statement of the expenses connected with the proposed construction, alteration, abolition, or suspension and from what sources it is proposed to provide such funds.)

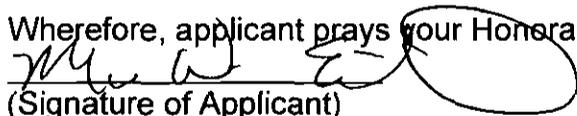

The cost for this project is approximately \$500,000.00; a breakdown of the estimated design and construction costs is attached. Each of the 3 crossings has a line item titled, "Roadway Signage and & Misc. Railroad Modifications" listed as a construction cost on the attached list. The cost for these line items for the 3 crossings are \$25,000, \$20,000 and \$20,000, totaling \$65,000.

8. The (construction, alteration, relocation, abolition or suspension) is necessary or proper for the following reasons _____

The alterations of the 3 Railroad Crossings are being performed for a variety of reasons. The subject crossings are in close proximity to multiple residential and/or commercial properties who have recently voiced their concerns over the nuisance of the perpetual train horn noise. This project is located within a uniquely congested rail corridor. The SEPTA West Trenton Line is one of the railways operating on this corridor and is SEPTA's third-highest ridership route and ranks fourth in service volume with 57 scheduled weekday trains. In addition, this corridor is used for CSX's Trenton Subdivision, which carries more than 20 trains per day. The goal of the project is to continue the use of the railway which helps support the favorable economic conditions in the area while safely reestablishing the quiet atmosphere of this suburban community. The ease of access to metropolitan areas combined with the quiet suburban feel of the area is one of the main

factors that initially facilitated the growth and economic status that this area has achieved. The elimination of the train noise will aid in reestablishing the quiet atmosphere of this community and reassure current and future residents and businesses that this area will maintain its current atmosphere and favorable economic standing. Additionally, the upgrades made in conjunction with this project will immensely increase safety at the crossings through the establishment of "gates with median" and/or "gates with channelization" supplemental safety measures.

Wherefore, applicant prays your Honorable Commission to approve the application:
