Re: Viridian Energy PA LLC, Docket #A-2009-2145794 and Docket #A-2010-2203042

Dear Secretary Chiavetta:

Viridian Energy PA LLC (“Viridian”) was licensed as an Electric Generation Supplier on February 25, 2010 and licensed as a Natural Gas Supplier on August 26, 2011. Viridian is submitting this letter to comply with Section 54.34 of the regulations of the Pennsylvania Public Utility Commission (the “Commission”). Section 54.34(a) requires an applicant to inform the Commission of a material change in the information provided in the applicant’s license application while the licensee is operating in the Commonwealth. Section 54.34(b) requires an applicant to notify the Commission, within thirty days, of any material changes in the applicant’s organization structure or operation.

As a result of an April 1, 2015 Acquisition among TriEagle Energy LP (“TriEagle”) and Crius Energy LLC (“Crius”), certain changes have occurred that may trigger the reporting requirements of Sections 54.34(a) and (b). This letter discloses those changes.

Section 54.34

Viridian has become affiliated with an additional licensed competitive retail electricity supplier that supplies this commodity to customers in several states. The new affiliation has materialized as a result of the above-mentioned Acquisition. On April 1, 2015 Crius acquired TriEagle and created two entities: TriEagle 1, LLC (“TE1”) and TriEagle 2, LLC (“TE2”), both Nevada limited liability companies. TE1 holds the general partnership of TriEagle and TE1 holds the limited partnership of TriEagle. Crius is the sole member of both TE1 and TE2.

As stated above, TriEagle, with which Crius now owns, is a licensed supplier who provides electric service at retail. The states in which TriEagle is licensed to provide retail electric service, including the applicable license numbers, are shown in the following table.
