C-2015-2469134

To: PA Public Utility Commission.

The complaint I filed months ago was not against PECO or Public Power, it was against you, the PUC!

Last year PECO along with Direct Energy quadrupled my rates. I filed a complaint against them. In December 2014, it happened again. While Energy prices are plummeting, Public Power quadrupled my rates. This is so wrong in so many ways. This is why my complaint is with the PUC, that they let this happen again. The PUC is supposed to regulate these companies but it is like the Wild West out there and the PUC is nowhere to be found! It is all about \$ and it is obvious that the PUC is part of the problem and not the solution.

I am livid! This is a waste of my time and money.

I owned a limo business but it went under. The PUC was always up my ass. Why is the PUC not up the energy companies butt? I need to end this letter now because I am getting worked up. The PUC deliberately turned it's back on these energy providers and let them do whatever they want. I don't expect the PUC to do anything let alone the right thing.

Sincerely,

Michael Rizzo
