RE: C-2014-2456403

Dear Ms. Chiavetta:

This is in answer to the above referenced number.

Five months ago I had a major fall with broken bones and I am still in therapy and limited to the time I can spend in the office.

We ran out of money and had to close our business on January 4, 2015. Our receivables at that time were way less than our payables and, therefore, we have not been able to pay a lot of vendors anything. However, we cancelled our PUC rights with your office after the government deregulation of transportation companies.

Therefore, I don't understand why we are receiving an invoice from the PUC.

Sincerely yours,

William L. Rohrbaugh
