KONRAD PUBLIC INPUT EX. 1
R-00006042 3/25/01 Phila PA

We the undersigned consider the continued PGW rate hikes ludicrous! The citizens of the City of Philadelphia are paying the bill for PGW's gross mismanagement and extravagant living by its management staff! The citizens of the City of Philadelphia have seen no accountable for the increase in the rate hikes received.

We urge the Public Utility Commission to proved to the citizens of the City of Philadelphia what has happened to our money paid to PGW. We request the PUC to hold local public information-gather hearings on the issue, with Mayor John Street present, as well as the PGW representatives. We do not feel we should have to pay for the mismanagement of PGW! Further, we do not feel we should pay for all the "dead beats" who do not pay thier bills! The burden is placed on the citizens of the City of Philadelphia who pay there bills promptly.

All the citizens of the City of Philadelphia are on a fixed income, whether on social security or even if they have a full time job. The citizens amount of money does not fluctuate enough to cover the cost of living, or the increases from PGW! Our bills have been double for December, 2000 and January, 2001 and will probably will continue on this track. **WHERE WILL IT END?**

When the citizens of the City of Philadelphia can no longer pay their bills promptly, where will PGW be than? We all agree an increase is fair, but the amount of so many increases is staggering!

DOCKETED

The citizens amount of money does not fluctuate enough to cover the cost of living, or the increases from PGW! Our bills have been double for December, 2000 and January, 2001 and will probably will continue on this track. **WHERE WILL IT END?**

When the citizens of the City of Philadelphia can no longer pay their bills promptly, where will PGW be than? We all agree an increase is fair, but the amount of so many increases is staggering!

February 25, 2001

We the undersigned consider the continued PGW rate hikes ludicrous! The citizens of the City of Philadelphia are paying the bill for PGW's gross mismanagement and extravagant living by its management staff! The citizens of the City of Philadelphia have seen no accountable for the increase in the rate hikes received.

We urge the Public Utility Commission to proved to the citizens of the City of Philadelphia what has happened to our money paid to PGW. We request the PUC to hold local public information-gather hearings on the issue, with Mayor John Street present, as well as the PGW representatives. We do not feel we should have to pay for the mismanagement of PGW! Further, we do not feel we should pay for all the "dead beats" who do not pay thier bills! The burden is placed on the citizens of the City of Philadelphia who pay there bills promptly.

All the citizens of the City of Philadelphia are on a fixed income, whether on social security or even if they have a full time job. The citizens amount of money does not fluctuate enough to cover the cost of living, or the increases from PGW! Our bills have been double for December, 2000 and January, 2001 and will probably will continue on this track. **WHERE WILL IT END?**

When the citizens of the City of Philadelphia can no longer pay their bills promptly, where will PGW be than? We all agree an increase is fair, but the amount of so many increases is staggering!
