Re: US LEC of Pennsylvania PUC Tariff No. 1, Supplement #6

Dear Mr. McNulty:

R-00038408

Enclosed please find revised tariff pages for US LEC of Pennsylvania's PUC Tariff No. 1, for facilities based competitive local exchange service. The following pages are included,

Pennsylvania PUC Tariff No. 1

Preface Sixth Revised Page 2  
 Preface Fifth Revised Page 3  
 Preface Third Revised Page 6  
 Section 4 First Revised Page 2  
 Section 5 First Revised Page 9

Section 6 Fourth Revised Page 1  
 Section 6 Fourth Revised Page 2  
 Section 6 Fourth Revised Page 3  
 Section 6 Third Revised Page 9  
 Section 6 Third Revised Page 10  
 Section 7 Third Revised Page 1  
 Section 7 Original Page 2  
 Section 7 Original Page 3  
 Section 7 Original Page 4

The issue date on the tariff pages is May 1, 2003, and the effective date is June 1, 2003. In this filing, US LEC restructures its local usage rates for T-1 based business customers. All business customers have been notified of the restructure via direct mailing. US LEC is also introducing ADVANTAGE Power T Service, and 'grandfathering' Advantage T-1 Service to existing customers.

If you have any questions, please contact me at 704-319-1946.

Very truly yours,

*Greg Lunsford*

SECTION 4 – EXCHANGE ACCESS SERVICE

4.2 Explanation of Rate Schedules and Mileage Bands:

C

Three rate schedules are presented for each Exchange Access Service offered. Except for the central office exceptions listed below, a customer's rate schedule is dependent on the distance between the customer's dominant serving wire center and a US LEC switch.

Each rate schedule is airline mileage based as follows:

Schedule 1: Customers whose serving wire centers are 0 – 10 miles from a US LEC switch.

Schedule 2: Customers whose serving wire centers are 10 – 16 miles from a US LEC switch.

Schedule 3: Customers whose serving wire centers are greater than 16 miles from a US LEC switch.

Mileage bands apply for usage sensitive Exchange Access Services offered.

Each band is airline mileage based as follows:

Band 1: 0-10 miles    Band 2: 11-16 miles

Band 3: 17-22 miles    Band 4: 23-30 miles

Band 5: 31-40 miles    Band 6 41+ miles

SECTION 5 – SERVICE DESCRIPTIONS

5.3 Exchange Service Additional Options (cont'd)

5.3.10 ISDN PRI Measured Rate Service

ISDN PRI Measured Rate Service offers a Digital T1 Facility channelized for data or voice use. Calls within the predefined local calling area are subject to usage based charges. Flat Rate PRI is configured with 23 bearer (B channels) which can transport voice or data traffic. An additional 24<sup>th</sup> channel (D channel) delivers information about the call.

5.3.11 Advantage T-1\*

C

The Advantage T-1 provides customers with flexible, high capacity bandwidth for a flat monthly rate. The customer has the flexibility of choosing any combination of voice or data products, by channel, not exceeding either 960 Kbps or 1.54 Mbps. Each 1.54 Mbps T-1 has the capacity for 24 channels with each channel having a capacity of 64 Kbps of bandwidth. Each 960 Kbps fractional T-1 has the capacity for 15 channels with 64 Kbps of bandwidth. The T-1 can be either analog, digital or PRI.

\*Effective June 1, 2003, Advantage T-1 service will no longer be available to new Customers.

## SECTION 7 - OTHER SERVICE ARRANGEMENTS

7.1 ADVANTAGE Power T

The ADVANTAGE Power T service provides customers with up to 24 channels of highly flexible, high capacity bandwidth. The Customer has the flexibility of bundling local exchange service and data services including Frame Relay Service and Internet access\*. These voice and/or data services are provisioned on individual 64 Kbps channels which can total up to, but not exceed, 1.54 Mbps. Miscellaneous service rates contained in Section 8 of this tariff are not included in ADVANTAGE Power T monthly recurring rates. Frame Relay channels are provided with a committed information rate of 0%. Committed information rates higher than 0% will be provided in 16 Kbps increments and will be subject to standard Frame Relay Service pricing. ATM service is offered as Unspecified Bit Rate quality of service. Additional quality of service levels are available in 8 Kbps increments and are subject to standard ATM rates. Digital Data Service is available in 64 Kbps increments, and all mileage charges will apply in addition to the channel rate. A minimum monthly charge of \$500 applies to each ADVANTAGE Power T configuration. Additionally, all ADVANTAGE Power T configurations are subject to a minimum 1-year term commitment. An analog gateway is required for analog line terminations. Optional bundles of regulated and non-regulated services described in 7.1.1, 7.1.2 and 7.1.3 are available in addition to the basic Power T configuration.

<u>ADVANTAGE Power T</u>	<u>Monthly Recurring Charges</u>

JUN 17 2003

Attn: James J. McNulty, Secretary  
 Pennsylvania Public Utility Commission  
 Commonwealth Keystone Building  
 400 North Street  
 Harrisburg, PA 17120

PA PUBLIC UTILITY COMMISSION  
 SECRETARY'S BUREAU

Re: US LEC of Pennsylvania PUC Tariff No. 1, Supplement #7

Dear Mr. McNulty:

R-00038408

This filing is being issued to correct a tariff revision US LEC of Pennsylvania Inc. issued on May 1, 2003 with an effective date of June 1, 2003. The following pages are included,

Pennsylvania PUC Tariff No. 1

- |                                 |                                 |
|---------------------------------|---------------------------------|
| Preface Sixth Revised Page 2    | Section 6 Fourth Revised Page 3 |
| Preface Fifth Revised Page 3    | Section 6 Third Revised Page 9  |
| Preface Third Revised Page 6    | Section 6 Third Revised Page 10 |
| Section 4 First Revised Page 2  | Section 7 Third Revised Page 1  |
| Section 5 First Revised Page 9  | Section 7 Original Page 2       |
| Section 6 Fourth Revised Page 1 | Section 7 Original Page 3       |
| Section 6 Fourth Revised Page 2 | Section 7 Original Page 4       |

The revision was originally incorrectly submitted as Supplement #6. US LEC had previously used this supplement number on a revision of the same tariff on January 9, 2003. All pages have been updated to reflect the proper sequencing to Supplement #7. Also, we are correcting a typographical error in Section 6-Third Revised Page 3. A rate increase was noted with the proper code, and customers were notified of the rate increase, but the rate itself on Page 3 was not updated.

If you have any questions, please contact me at 704-319-1946.

Very truly yours,

Greg Lunsford  
 Regulatory Manager

SECTION 4 – EXCHANGE ACCESS SERVICE

4.2 Explanation of Rate Schedules and Mileage Bands:

C

Three rate schedules are presented for each Exchange Access Service offered. Except for the central office exceptions listed below, a customer's rate schedule is dependent on the distance between the customer's dominant serving wire center and a US LEC switch.

Each rate schedule is airline mileage based as follows:

Schedule 1: Customers whose serving wire centers are 0 – 10 miles from a US LEC switch.

Schedule 2: Customers whose serving wire centers are 10 – 16 miles from a US LEC switch.

Schedule 3: Customers whose serving wire centers are greater than 16 miles from a US LEC switch.

Mileage bands apply for usage sensitive Exchange Access Services offered.

Each band is airline mileage based as follows:

Band 1: 0-10 miles    Band 2: 11-16 miles

Band 3: 17-22 miles    Band 4: 23-30 miles

Band 5: 31-40 miles    Band 6 41+ miles

## SECTION 5 – SERVICE DESCRIPTIONS

### 5.3 Exchange Service Additional Options (cont'd)

#### 5.3.10 ISDN PRI Measured Rate Service

ISDN PRI Measured Rate Service offers a Digital T1 Facility channelized for data or voice use. Calls within the predefined local calling area are subject to usage based charges. Flat Rate PRI is configured with 23 bearer (B channels) which can transport voice or data traffic. An additional 24<sup>th</sup> channel (D channel) delivers information about the call.

#### 5.3.11 Advantage T-1\*

The Advantage T-1 provides customers with flexible, high capacity bandwidth for a flat monthly rate. The customer has the flexibility of choosing any combination of voice or data products, by channel, not exceeding either 960 Kbps or 1.54 Mbps. Each 1.54 Mbps T-1 has the capacity for 24 channels with each channel having a capacity of 64 Kbps of bandwidth. Each 960 Kbps fractional T-1 has the capacity for 15 channels with 64 Kbps of bandwidth. The T-1 can be either analog, digital or PRI.

\*Effective June 1, 2003, Advantage T-1 service will no longer be available to new Customers.

## SECTION 7 - OTHER SERVICE ARRANGEMENTS

7.1 ADVANTAGE Power T

The ADVANTAGE Power T service provides customers with up to 24 channels of highly flexible, high capacity bandwidth. The Customer has the flexibility of bundling local exchange service and data services including Frame Relay Service and Internet access\*. These voice and/or data services are provisioned on individual 64 Kbps channels which can total up to, but not exceed, 1.54 Mbps. Miscellaneous service rates contained in Section 8 of this tariff are not included in ADVANTAGE Power T monthly recurring rates. Frame Relay channels are provided with a committed information rate of 0%. Committed information rates higher than 0% will be provided in 16 Kbps increments and will be subject to standard Frame Relay Service pricing. ATM service is offered as Unspecified Bit Rate quality of service. Additional quality of service levels are available in 8 Kbps increments and are subject to standard ATM rates. Digital Data Service is available in 64 Kbps increments, and all mileage charges will apply in addition to the channel rate. A minimum monthly charge of \$500 applies to each ADVANTAGE Power T configuration. Additionally, all ADVANTAGE Power T configurations are subject to a minimum 1-year term commitment. An analog gateway is required for analog line terminations. Optional bundles of regulated and non-regulated services described in 7.1.1, 7.1.2 and 7.1.3 are available in addition to the basic Power T configuration.

<u>ADVANTAGE Power T</u>	<u>Monthly Recurring Charges</u>
