§ 57.195. (e)(1) A description of each major event that occurred during the preceding quarter, including the time and duration of the event, the number of customers affected, the cause of the event and any modified procedures adopted in order to avoid or minimize the impact of similar events in the future.

2nd Quarter 2015 Major Events

PCL&P received approval from the Pennsylvania Public Utility Commission ("Commission") on a Major Event submission, summarized below, that PCL&P submitted during the second quarter of 2015.

Date	Time	Circuit	Cause	Duration (minutes)	Customers Affected	Customer Minutes of Interruptions
4/24/2015	1:54	L7-6-34	Non-Company MVA	216 min	2,295	474,908

At approximately 1:54 a.m. on April 24, 2015, the recloser on pole 38467/49107 located along Route 209 in the Township of Westfall tripped open after sensing a fault. This incident was caused by a broken pole resulting from an apparent hit-and-run motor vehicle accident. Weather conditions at the time were partly cloudy and cool (36° F).

To minimize the potential of future damage at the fault location due to another motor vehicle accident, the replacement pole was set four feet farther back from the road than the original pole.
