PA PUBLIC UTILITY COMMISSION  
SECRETARY'S BUREAU

Secretary  
Pa Public Utility Commission

To whom it may Concern

I would like to take this opportunity to disagree with any decision pertaining to my issue with the PECO Energy Company.

Sir/Madam, I have received letters from the PECO Energy and your office; Most of these correspondence seem to me need a lawyer to explain to me.

I would call the Utilities office for advice what to do, I also call PECO Energy and did not get much help on how to respond, and I hope because of my inexperience in this issue, you will see it fit to grant me a hearing in front of your commission.

My issue with the PECO Energy Company is as follow.

At current I owe the company over \$6,000.00 accrued over 30yrs. The company thru their policies always offers me programs to help me pay my bills. On many occasion I have defaulted in the past. It was hard on me caring for seven kids and a sick brother. I travel over 200 miles daily to work and back home every day.

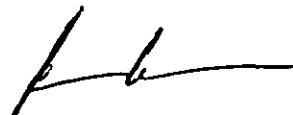

In 2005, I had to retired due to an injury, and went thru a severe financial period, especially when the IRS Seize our bank account.

Today Things are much better for me. At the age of 65, my kids living on their own, my house paid in full. I can manage a reasonable payment arrangement to have this arrears paid up.

I did try to contact the PECO Co., but was told nothing could be done once the case was with the PUC.

Inclosing, what I'm asking for is another chance to a payment agreement. I'm in a much better position today to pay my bills on time. I also hope if anything I have written in a wrong way, you will understand my inexperience on this matter, and see it appropriate in granting me a hearing.

Yours,

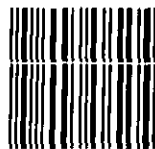

Dennis Hinkson
