This complaint is about the proposed rate increase. When the gas companies were to be allowed to go on open market to purchase their supplies we were led to believe that it was to be a benefit to the consumer and reduce cost. Since that time National Fuel continues to seek rate increases. This rate request is by far the most alarming in that it now wants to raise my rate if I reduce consumption. Is it possible to penalize an individual for investing in efforts to reduce consumption? Should I increase my insulation in my roof should I then pay more for my natural gas? Should I put in a 90% furnace should I have to now pay more for my natural gas. Should I replace my windows with better insulated window should I then pay more for my natural gas? All this seem opposite of what we are being encouraged to conserve natural resources. If I purchase a hybrid vehicle I receive a reduction in taxes. **If I reduce my natural gas consumption I receive an increase!!!!**

5. **RELIEF**

What do you want the Public Utility Commission to do about your complaint? Use additional paper if you need more space.

Their decision should be one made out of concern that this does not set a trend for future utilities to then all of a sudden start seeking the same type of rate favor ability because consumption falls. In my business when revenue falls we must adjust our costs and that includes fixed as well.

4. COMPLAINT (check one)

A. In general, what is your complaint?

- I want to oppose the company's proposed rate increase.
- There are incorrect charges on my bill.
- There is a reliability, safety or quality problem with my utility service.
- I received a notice that my utility service is being terminated.
- I would like a payment agreement.
- Other.
(explain)

B. State the facts of your complaint.

Include any specific dates, times or places that are important. If the complaint is about a bill, tell us about any charges that you believe are not correct. Use additional paper if you need more space. Provide copies of all relevant documents you believe will support your complaint.

I received an undated "Notice of Proposed Rates Changes," postmarked June 28, 2006. I have ~~two~~ objections - (1) The proposal rewards customers who use large amounts of gas by increasing their rates less than smaller customers. The gas company should be charging more for higher levels of use, to encourage conservation. (2) The proposal will increase rates, still more if customers do conserve. This is totally unfair and contrary to the public good.

5. RELIEF

What do you want the Public Utility Commission to do about your complaint? Use additional paper if you need more space.

- (1) Hold hearings on this matter.
- (2) Require National Fuel to charge higher rates for those who use large quantities of gas.
- (3) Forbid National Fuel from penalizing customers who reduce their gas consumption.

6. PROTECTION FROM ABUSE

Answer the following question if your complaint is against a natural gas distribution company, an electric distribution company or a water company AND your complaint is about a billing problem, an application for service problem, a termination of service problem or a request for a payment agreement.
