 This is not permitted in any other business or retail

I am against the proposed increase because it is a ridiculous reason for requesting a rate increase. People who try to conserve should not be penalized.

5. **RELIEF**

What do you want the Public Utility Commission to do about your complaint? Use additional paper if you need more space.

Turn down this request and also future rate increases without first holding public meetings. My wife and I are retirees who live on a fixed S.S. & pension income. Another year of increasing utility costs will force us to sell our home in a market of depressed real estate values.
See over

When I witness National Fund employees working on various local projects, I am appalled by their work ethics. I see several people standing around while one person is doing something. No wonder this lack of efficiency is adding to their costs. I even witnessed one situation where the so-called foreman was taking a nap under a nearby tree. Why should consumers be penalized by the inefficiency of this company. They should look for ways of correcting these costly abuses. Private firms do not have the monopolistic pleasures of having rate increases for the asking. They must constantly streamline their activities to stay in business.

Let's force them to upgrade their way of doing business by cost cutting measures like any private firm.

National Fuel, by substantially raising rates and surcharging customers for using less natural gas, is:

1. NOT supporting conservation.
2. NOT effectively running the company
3. NOT concerned about their customers, especially those on fixed incomes
4. NOT concerned about the economy of the region or country
5. ARE ONLY concerned about their position on the stock market

5. RELIEF

What do you want the Public Utility Commission to do about your complaint? Use additional paper if you need more space.

Help this faltering company figure out a sensible way to recoup the mega loss from a young drunk driver hitting a major supply line in past year. Evidently the driver's insurance (or lack of insurance) didn't cover it. This was completely covered on the news...costing mega dollars of loss!

One would think National Fuel would better locate and better protect such a supply line.

We would like the PUC to refuse both increases. Their action is not a reasonable or responsible answer.
