NFG has for years been advising us, showing us, even HELPING customers lower their usage of gas. They have been preaching conservation for years and now that customers have spent time and money to conserve, NFG wants them to pay for the conservation!

5. **RELIEF**

What do you want the Public Utility Commission to do about your complaint? Use additional paper if you need more space.

I am sure you are aware of what happened when we got angry with our legislators.

Very much opposed to the "surcharge" proposed for gas conservation by the customers. Why should we be charged for conserving energy?

Dear P.U.C.,

I am asking that the commission disapprove any rate hike that NFG is requesting.

In the last 2 years, I have

insulated my attic:	\$ 850.00
replaced all windows	\$4300.00
new furnace + air	\$4100.00
new front door	\$ 250.00
2 new storm doors	\$ 300.00
	<hr/>
	\$9,800.00

As you can see, I have spent a considerable amount of money. Last year, it was cold in my house. I kept my thermostat at 68° and 66° while sleeping.

Please take into consideration that NW Pa. is a working class community + we cannot afford another rate hike. Thank you.

NFG ATTACHMENT # 1 WJW

National Fuel Gas should not receive the rate increase for numerous reasons:

- 1, The NFG shareholders should bear some risk because this is a traded stock.
2. Penalizing NFG ratepayers for conserving energy goes against all Pennsylvania's numerous programs promoting energy conservation.
3. NFG in Pennsylvania has failed in the promotion of new gas-fired technology that would increase their gas sales.
4. NFG has actually closed NFG fuel compressors stations that have sold compressed gas to vehicles. PA DEP has programs and grants for alternative fuel.
5. NFG has numerous gas leases in Pennsylvania and New York that are undeveloped yet contractually given them to foreign corporations Fortuna Energy. See attachment #3 WJW.
6. School districts throughout the Commonwealth of Pennsylvania are teaching students to conserve energy.

NFG Attachment #2 WJW

1. National Fuel Gas should encourage the marketing of new established technology. i.e. combined cycle, micro turbines, compressed gas, fuel cells, gas refrigeration, gas fired compressors, cogeneration, adsorption chillers.
2. National Fuel Gas should be investigated for anti-trust and the vertical integrated company should be forced to sell its subsidiaries.
3. National Fuel Gas should be forced to introduce technology that is cutting edge.
4. Subsidies such as LIHEAP & LIURP should be reformed where insulation & energy efficient technology is introduced to those customers who are having difficulty in paying their gas bills. This should not be a token program.

Talisman Energy and Seneca Resources Announce Appalachian Gas Joint Venture

CALGARY, Alberta - January 22, 2001 -Talisman Energy Inc. (NYSE/TSE: TLM) and Seneca Resources Corporation (the exploration and production subsidiary of National Fuel Gas Company) (NYSE: NFG) today announced an exploration joint venture in the Appalachian Basin of the United States.

"This is a tremendous opportunity for the two companies to work together in an under explored basin," said Dr. Jim Buckee, President and Chief Executive Officer of Talisman. "Talisman has been extremely successful working similar plays in Ontario where we have spent C\$60 million and drilled over 90 wells in the past three years, with a 91% success rate. We see considerable potential to develop this region into a core gas area.*"

"With recent deep gas discoveries, Appalachia has the potential to become a major producing area, with ample infrastructure, in the best gas market in North America," said James Beck, President of Seneca.

"This is a mutually beneficial agreement, with the two companies providing technical and operating expertise to jointly exploit Seneca's mineral holdings in the area."

The five-year agreement between Seneca and Talisman includes nearly one million acres of Seneca land in western New York and northwest Pennsylvania. This is one of the oldest oil and gas producing regions in North America with 150,000 wells in the area,

most of which are low productivity and shallow. The companies will be targeting deeper Ordovician gas prospects at depths of 6,500 to 11,000 feet.* The joint venture parties are conducting a detailed review of existing seismic with first drilling expected later this year.* Talisman will earn a 55% interest in wells drilled.*

Seneca will also participate in selected opportunities on Talisman acreage in Western Canada.* The first is a deep exploration test in the Monkman area of the British Columbia Foothills.* Other opportunities are under review.

Talisman Energy Inc. is the largest independent Canadian oil and gas producer with operations in Canada, the North Sea, Indonesia and Sudan. Talisman is also conducting exploration in Algeria, Trinidad and Colombia. Talisman has adopted the International Code of Ethics for Canadian Business and is committed to maintaining high standards of excellence in corporate citizenship and social responsibility wherever it does business. The Company's shares are listed on The Toronto Stock Exchange in Canada and the New York Stock Exchange in the United States under the symbol TLM.

Seneca Resources Corporation is a subsidiary of National Fuel Gas Company (NYSE:NFG). 5. RELIEF

What do you want the Public Utility Commission to do about your complaint? Use additional paper if you need more space.

I would like you to refuse the increase ^{for which} National Fuel has applied. I am on a fixed income and my winter bills are \$300-400. My thermostat was set at 60° all winter, I closed off the upstairs and the front room, and slept on the couch. If I have to cut back and make sacrifices then so can they. I refuse to go on budget billing because I do not trust their accounting based on my own experience and that of other people. My bill for June was \$53.08 and that is for hot water heater & furnace pilot light. I do not use my gas dryer because I can't afford it. Also, every business that uses gas has to increase prices/taxes, so we get hit again. Where does it end?

6. PROTECTION FROM ABUSE

IN 2003 I HAD AN 82% EFFICIENT FURNACE INSTALLED AT A COST OF \$6,000.00 TO ME. AT THE TIME IT CUT MY GAS USAGE IN HALF, I MADE THE INVESTMENT FOR CONSERVATION PURPOSES AND TO CUT MY GAS BILLS. What do you want the Public Utility Commission to do about your complaint? Use additional paper if you need more space.

THE PUC NEEDS TO STOP THE MONOPOLY OF NATIONAL FUEL, TAKE THEM DOWN FROM THEIR PEDESTAL, AND HOLD THEIR PRICES. THIS INCREASE IS AIMED AT KEEPING THEIR PROFITS HIGH REGARDLESS OF HOW MUCH GAS IS USED. THIS IS REDICULOUS !!
