The majority of homeowners cannot afford any more increases (rates and surcharge). Many are struggling just to pay rent and buy food. I turned my furnace down to 57° all last winter. It's all I can afford. We shouldn't have to live like this. NFG can make some changes too in cutting their administrative costs. (less advertising) they're also paying twice when companies pass this cost to their customers.

5. RELIEF

What do you want the Public Utility Commission to do about your complaint? Use additional paper if you need more space.

I want the surcharge dropped and the rates decreased to a reasonable charge. This year there were no major storms to disrupt fuel sources as there was last year. This in itself should be a big factor in reducing rates.
