

TAG MOBILE, LLC
PENNSYLVANIA WIRELESS LIFELINE PLAN

TAG Mobile will offer its Pennsylvania Lifeline subscribers the 500 Anytime Minute Plan. The Plan includes 500 voice minutes every 30 days from date of activation, unlimited global text messaging, and a free 911/E911 compliant handset (“new” or in “like new” condition will be provided based on availability).

The 500 Anytime Minute Plan has a “cap” on voice minutes/texts meaning once a customer reaches a certain threshold he or she will be connected to our Customer Service Department to determine whether high usage is due to commercial use or technical problems. After discussion with the customer, the Customer Service Department will complete its review and will return the customer to normal status. The customer will never be cut off during a billing cycle for excessive use. TAG Mobile reserves the right to notice and disconnect a high usage customer at the end of their billing cycle.

TAG Mobile’s plan will also have “top-ups” available for all consumers for adding additional airtime. Minutes are available in \$5 and \$10 increments, and will be decremented at various rates depending on the destination country to which calls are placed.
