NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
COST OF SERVICE INTERROGATORIES

1. Please explain the Company's policy with regard to when customer advances and contributions in aid of construction must be made.

Response:

The Company's policy regarding customer advances and contributions in aid of construction is governed by its facility extension policy summarized in response to question NFG 1-9.

RECEIVED

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
COST OF SERVICE INTERROGATORIES

2. Please provide a detailed explanation describing how contributions in aid of construction and customer advances are reflected in the Company's cost of service study.

Response:

The cost and plant information provided in the cost of service study is based on Company costs and investment net of any customer contributions in aid of construction and customer advances.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
REVENUE REQUIREMENTS INTERROGATORIES

3. Please provide a breakdown of contributions in aid of construction by customer class and plant account number for the most recent year available.

Response:

The table below provides a summary of customer contributions by residential and non-residential accounts for the 12 months ended January 31, 2006.

|                 | Account 376<br>(Mains) | Account 380<br>(Services) |
|-----------------|------------------------|---------------------------|
| Residential     | \$68,877.30            | \$44,644.76               |
| Non-residential | \$47,281.27            | \$13,248.64               |

DISTRIBUTION CORPORATION

Supplement No. 54 to  
Gas - Pa. P.U.C. No. 9  
First Revised Page No. 10  
Cancelling Original Page No. 10

RULES AND REGULATIONS APPLYING TO ALL TERRITORIES SERVED

1. RULES AND REGULATIONS

The customer's application for service, the Pennsylvania Public Utility Code and the rules and regulations promulgated by the Pennsylvania Public Utility Commission, as amended from time to time, and the rules and regulations contained herein are a part of the contract with each Customer, and each Customer agrees to be bound thereby. (C)

2. APPLICATIONS FOR SERVICE

The Company may require any applicant for service to sign an application. Regardless of the manner in which an application is made, the acceptance of such application by the Company shall result in a contract service governed by Rule 1. (C)

3. DETERMINATION OF COMPANY INVESTMENT FOR UPGRADE/EXTENSION OF FACILITIES

A. Maximum Company Investment Level

The Company investment for upgrade/extension of facilities for a firm gas customer shall be limited to an amount determined as follows:

$$\text{Maximum Company Investment} = \frac{\text{Additional Annual Revenues} \times \text{Justified Company Investment per Dollar of Additional Annual Revenue}}{\text{Dollar of Additional Annual Revenue}}$$

B. Determination of Additional Annual Revenues

The Additional Annual Revenues are calculated as follows:

(1) The Company will estimate the customer's projected firm annual volumes as follows:

(a) Residential

For guideline purposes, the Company shall use annual gas consumption figures for gas space heating and for various gas appliances as shown below (These figures are based on current insulation standards as well as 80% efficient furnaces):

(C) Indicates Change

NATIONAL FUEL GAS  
DISTRIBUTION CORPORATION

RULES AND REGULATIONS APPLYING TO ALL TERRITORIES SERVED (Cont'd)

3. DETERMINATION OF COMPANY INVESTMENT FOR UPGRADE/EXTENSION OF FACILITIES  
(Cont'd)

Gas Space Heating:

Single Family Home - [(square footage x .032) + 11] Mcf  
Apartment - [(square footage x .029) + 8] Mcf  
Mobile Home - [(square footage x .029) + 37] Mcf

Gas Appliances:

Gas Water Heater - 25 Mcf  
Gas Dryer - 4 Mcf  
Gas Range - 6 Mcf

(D)  
(D)  
(I)

(b) Commercial or Public Authority: Industrial

The Company shall estimate projected firm annual volumes on a case-by-case basis.

(2) This annual volume is then distributed into 12 monthly amounts based on an average distribution in the appropriate revenue classification. (Alternatively, the customer's annual usage estimate may be distributed according to his own historic or projected monthly load profile pursuant to the Company's review and approval.)

(3) The appropriate rate schedule is applied to each monthly volume, and the results are added to produce annual gross revenues.

(4) For each monthly volume, the summation of the following costs shall be determined: (a) the portion of monthly gross revenues for recovery of purchased gas costs pursuant to applicable provisions of Rider A to this tariff and the applicable rate schedule; (b) Transition costs pursuant to applicable provision of Rider D to this tariff and the applicable rate schedule.

The portion of monthly gross revenues for recovery of Purchased Gas Costs and Transition Costs for each month shall be added together to produce annual revenues for recovery of Purchased Gas Costs and Transition Costs.

(5) The amount calculated under item (4) above, shall be subtracted from the amount calculated under item (3) above.

(6) Additional annual revenues resulting from the upgrade/extension shall be determined by reducing the annual revenues for recovery of non-gas costs as calculated in (5) above, by the customer's currently generated annual revenues for recovery of non-gas costs, if any, as determined by the Company.

(D) Indicates Decrease  
(I) Indicates Increase

NATIONAL FUEL GAS  
 DISTRIBUTION CORPORATION

RULES AND REGULATIONS APPLYING TO ALL TERRITORIES SERVED (Cont'd)

3. DETERMINATION OF COMPANY INVESTMENT FOR UPGRADE/EXTENSION OF FACILITIES  
 (Cont'd)

C. Determination of Justified Company Investment Per Dollar of  
 Additional Annual Revenue

(1) Residential

The Justified Company Investment Per Dollar of Additional Annual  
 Revenue for residential customers is \$4.81. (D)

(2) Commercial and Public Authority; Industrial

The Justified Company Investment Per Dollar of Additional Annual  
 Revenue for commercial, public authority or industrial customers shall be  
 selected from the table below based upon the projected term of use by the  
 customer of the new or upgraded facilities.

| <u>Projected Term of Use<br/>of New/Upgraded<br/>Facilities (Years)</u> | <u>Justified Company Investment<br/>Per Dollar of Additional<br/>Annual Revenue</u> |
|---|---|
| 1   | \$ .49  |
| 2   | .94   |
| 3   | 1.34  |
| 4   | 1.72  |
| 5   | 2.06  |
| 6   | 2.38  |
| 7   | 2.67  |
| 8   | 2.93  |
| 9   | 3.17  |
| 10  | 3.39  |
| Greater than 10   | 4.81  |

(D)

Because the term of use has a substantial effect on the determination of  
 the Justified Company Investment Per Dollar of Additional Annual Revenue, the  
 Company may require a letter of intent from commercial, public authority and  
 industrial customers projecting the term of use of the new or upgraded  
 extension of facilities being requested.

The Company reserves the right to require a guaranteed revenue contract  
 if the customer projects a term of use of the new or upgraded facilities in  
 excess of 10 years or if the customer does not demonstrate that the customer's  
 term of use is reasonable.

(D) Indicates Decrease

NATIONAL FUEL GAS  
DISTRIBUTION CORPORATION

RULES AND REGULATIONS APPLYING TO ALL TERRITORIES SERVED (Cont'd)

3. DETERMINATION OF COMPANY INVESTMENT FOR UPGRADE/EXTENSION OF FACILITIES  
(Cont'd)

Additionally, the Company reserves the right to require a guaranteed revenue contract from a commercial, public authority or industrial customer if any of the following conditions exist:

(1) The investment is for a dual fuel or partially dual fueled facility;

(2) The Company determines that a customer's financial status does not demonstrate that the customer will be able to pay bills for the projected term of use of the facilities; or

(3) The actual investment by the Company is greater than \$50,000.

(3) Recomputation

The Company may recompute, modify, alter or amend the foregoing Justified Company Investment Per Dollar of Additional Annual Revenue amounts as the Company may deem necessary or convenient in the conduct of its business, provided, however, that such recomputation, modification, alteration or amendment shall not become effective unless and until included in this tariff.

(C)

D. Application of Maximum Company Investment

The Maximum Company Investment as determined above shall be applied, first, to the installed meter cost, if any, and then will be applied towards any mainline and/or service line extension, service connection, and/or the upgrade of any of the Company's facilities to accommodate increased volumes of sales or transportation. However, if the Maximum Company Investment is less than the installed meter cost, Company will provide and install the meter at no cost to the Customer.

(C) Indicates Change

NATIONAL FUEL GAS  
DISTRIBUTION CORPORATION

Gas - Pa. P.U.C. No. 9  
Original Page No. 14

RULES AND REGULATIONS APPLYING TO ALL TERRITORIES SERVED (Cont'd)

4. UPGRADE/EXTENSION OF FACILITIES

A. Residential

Whenever the owner or occupant of any property eligible for service as a residential customer makes a written application for service to the Company, and the Company has authority to render service to said applicant, the Company shall extend its facilities so as to serve said property or new residential development, provided that the applicant shall first have executed an agreement to pay to the company the rate charged under the appropriate service classification and to contribute to the cost of extending facilities, an amount equal to the difference between the total cost of construction of facilities less the Company's Maximum Investment (as calculated in Rule No. 3, above).

Income taxes, if any, paid with respect to the Contribution will be recorded in a deferred account and such taxes, less the income tax effect of depreciation received with respect to the property constructed with the Contribution, will be included in the Company's rate base in subsequent rate case proceedings.

B. Commercial or Public Authority; Industrial

Whenever the owner or occupant of any property eligible for service as a Commercial or Public Authority customer, or as an Industrial customer, makes a written application for service to the Company, and the Company has authority to render service to said applicant, the Company shall extend its system so as to serve said property, provided said applicant shall first have executed an agreement to pay to the Company the rates charged under the appropriate service classification and to contribute to the cost of extending facilities, an amount equal to the difference between the total cost of construction of facilities less the Company's Maximum Investment (as calculated in Rule No. 3, above).

Income taxes, if any, paid with respect to the Contribution will be recorded in a deferred account and such taxes, less the income tax effect of depreciation received with respect to the property constructed with the Contribution, will be included in the Company's rate base in subsequent rate case proceedings.

The Company's Maximum Investment for Commercial or Public Authority and Industrial customers shall equal the Maximum Company Investment as calculated in Rule No. 3 above; provided, however, that, in the event that the Company reasonably believes that the Company's installation of facilities will be completed substantially in advance of date that the Customer's use will equal projected annual volumes used to calculate the Maximum Company Investment as calculated in Rule No. 3 above, the Company may discount the Maximum Company

4. UPGRADE/EXTENSION OF FACILITIES (Cont'd)

Investment as calculated in Rule No. 3 above to present value based upon the Company's most recent Commission-approved fair rate of return. (C)

C. Developer/Builder - Residential

Whenever the Developer/Builder of a residential property eligible for service makes a written application for service to the Company, and the Company has authority to render service to the property to be developed, the Company shall extend its system to serve said property, provided that, if the cost to extend the facilities exceeds the Maximum Company Investment, as calculated below, the Developer/Builder shall have entered into an agreement to contribute to the cost of extending facilities. (C)

The Maximum Company Investment for extensions involving a Developer/Builder shall be calculated as follows:

(1) The Developer/Builder shall provide a reasonable schedule of unit completion within the property to be developed;

(2) The Maximum Company Investment shall be calculated (as provided in Section 3) separately based on the number of units scheduled to be completed:

(a) within twelve months from the date of the estimated completion of construction of the new facilities; and

(b) during each successive twelve month period following the date of the estimated completion of construction of the new facilities.

(3) For all units not scheduled for completion within twelve months from the estimated date of completion of the construction of the new facilities, the Maximum Company Investment, as calculated above, shall be discounted to present value at the projected date of the completion of Company installed facilities using the Company's most recent Commission-approved fair rate of return.

(4) The sum of the discounted Maximum Company Investment for units to be installed more than twelve months after construction of Company facilities and the Maximum Company Investment for units scheduled for completion within twelve months of the estimated date of completion of construction of Company facilities shall equal the total Maximum Company Investment for the extension.

(C) Indicates Change

RULES AND REGULATIONS APPLYING TO ALL TERRITORIES SERVED (Cont'd)

4. UPGRADE/EXTENSION OF FACILITIES (Cont'd)

The Developer/Builder shall contribute to the cost of extending facilities, an amount equal to the difference between the total cost of construction of facilities less the Maximum Company Investment (as calculated above).

Income taxes, if any, paid with respect to the Contribution will be recorded in a deferred account and such taxes, less the income tax effect of depreciation received with respect to the property constructed with the Contribution, will be included in the Company's rate base in subsequent rate case proceedings.

In the event that the Developer/Builder does not achieve the projected annual completion rate, the Maximum Company Investment and the amount to be contributed will be recalculated, in the same manner stated above, based upon actual units completed. If the recalculated amount to be contributed is greater than the previously calculated amount to be contributed, the Developer/Builder will be required to pay such difference to the Company; provided, however, that no amount will be required to be paid if the recalculated amount to be contributed exceeds the Company's actual cost of construction less the recalculated Maximum Company Investment.

C1. Developer/Builder Commercial or Industrial

Whenever the Developer/Builder of a commercial or industrial property eligible for service makes a written application for service to the Company, and the Company has authority to render service to the property to be developed, the Company shall extend its system to serve said property, provided that, if the cost to extend the facilities exceeds the Maximum Company Investment, as calculated below, the Developer/Builder shall have entered into an agreement to contribute to the cost of extending facilities.

The Maximum Company Investment for extensions involving a Developer/Builder shall be calculated as follows:

(1) The Developer/Builder shall provide a reasonable schedule of customer attachments and projected additional annual revenues from volumes to be transported by or purchased from the Company and consumed by the attaching customers;

(2) The Maximum Company Investment shall be calculated (as provided in Section 3) separately based on the historical and projected additional annual revenues from volumes to be transported by or purchased from the Company and consumed by the attaching customers:

(a) within twelve months from the date of the estimated completion of construction of the new facilities; and

(b) during each successive twelve month period following the date of the estimated completion of construction of the new facilities.

4. UPGRADE/EXTENSION OF FACILITIES (Cont'd)

(3) For all customer attachments not scheduled for completion (C)  
within twelve months from the estimated date of completion of the  
construction of the new facilities, the Maximum Company Investment, as  
calculated above, shall be discounted to present value at the projected  
date of the completion of Company installed facilities using the  
Company's most recent Commission-approved fair rate of return.

(4) The sum of the discounted Maximum Company Investment for  
customers to be attached more than twelve months after construction of  
Company facilities and the Maximum Company Investment for customer  
attachments scheduled for completion within twelve months of the  
estimated date of completion of construction of Company facilities shall  
equal the total Maximum Company Investment for the extension.

NATIONAL FUEL GAS  
DISTRIBUTION CORPORATION

Supplement No. 36 to  
Gas - Pa. P.U.C. No. 9  
First Revised Page No. 16B  
Cancelling Original Page No. 16B

RULES AND REGULATIONS APPLYING TO ALL TERRITORIES SERVED (Cont'd)

4. UPGRADE/EXTENSION OF FACILITIES (Cont'd)

The Developer/Builder shall contribute to the cost of extending facilities, an amount equal to the difference between the total cost of construction of facilities less the Maximum Company Investment (as calculated above).

Income taxes, if any, paid with respect to the Contribution will be recorded in a deferred account and such taxes, less the income tax effect of depreciation received with respect to the property constructed with the Contribution, will be included in the Company's rate base in subsequent rate case proceedings.

In the event that the Developer/Builder does not achieve the projected annual completion rate, the Maximum Company Investment and the amount to be contributed will be recalculated, in the same manner stated above, based upon actual additional annual revenues from volumes transported by or purchased from the Company and consumed by the attaching customers during the 60-month period following completion of the extension and the projected additional annual revenues from volumes to be transported by or purchased from the Company and consumed by the customers attached as of the last day of such 60-month period. If the recalculated amount to be contributed is greater than the previously calculated amount to be contributed, the Developer/Builder will be required to pay such difference to the Company; provided, however, that no amount will be required to be paid if the recalculated amount to be contributed exceeds the Company's actual cost of construction less the recalculated Maximum Company Investment.

D. Upgrade

The Company's investment for the upgrade of facilities shall be subject to the formula described in Rule No. 3. An upgrade is required when the customer needs dictate increasing or changing the current service line, main line or meter size for the increased volume or pressure requirements.

E. Advance Payment and Construction

Construction of any extension will not be undertaken until the amount of the applicant's contribution has been paid to the Company by the applicant. The actual construction of the extension shall be scheduled at the Company's discretion.

(C) Indicates Change

RULES AND REGULATIONS APPLYING TO ALL TERRITORIES SERVED (Cont'd)

4. UPGRADE/EXTENSION OF FACILITIES (Cont'd)

F. Refunds of Customer Investment

Any customer attaching to a facility extended/upgraded within five (5) years of completion thereof will be required to contribute to the cost of the extension/upgrade in accordance with Rules 3 and 4. In the event a new customer attaches to an extension/upgrade of the Company's facilities paid for by a customer or a developer/builder, within five (5) years of the date of completion thereof, a pro rata refund will be made to customers or developer/builder who were charged for such extension. An annual review of such extensions is made on the anniversary date of completion thereof, during said five (5) years, and any refunds due are made at that time except for extensions for a developer/builder of commercial or industrial property which shall be reviewed at the end of year five (5) and any refunds due will be made at that time. No refunds will be paid for attachments occurring more than five (5) years after the completion date and in no case will the aggregate amount of refunds to a customer or developer/builder exceed the amount which the customer or developer/builder paid for the mainline extension/upgrade.

5. MAINTENANCE OF FACILITIES

After initial installation of facilities has been made, pursuant to Rule Nos. 3 and 4, above, all facilities including mains, customer service lines (i.e., the portion of the service line from the outlet of the Company's service stop cock to the inlet of the meter) and Company service lines (i.e. the portion of the service line from the gas main to and including the curb box and service stop cock), shall be maintained, replaced or renewed, as required, at the expense of the Company.

5A. SPECIAL UTILITY SERVICES

The provisions of Rules 3 and 4 do not apply to applications for special utility service. "Special utility service" shall include (a) a request for utility service when the applicant has an installed alternative fuel capability, including service from a natural gas well; (b) a request for utility service when the applicant is already receiving natural gas service from another Pennsylvania public utility; (c) a request for utility service from an applicant located in an area in which another natural gas utility is authorized to serve the applicant; (d) a request for utility service by an applicant who was the owner or ratepayer of record for the premises at the time the Company last provided service to the premises; (e) any request for service by an applicant who, in the Company's view, is unlikely to remain on the Company's system for a sufficient period of time to justify the extension. Applications for special utility service shall be resolved on a case-by-case basis through negotiations between the applicant and the company.

## Load Justified Investment Calculation - Example New Small Volume Industrial Service Customer

Small Volume Industrial Service is a Pennsylvania single tier rate.

Minimum Bill = \$ 65.60  
 Margin = \$ 1.9760  
 Project Term = 10 Years  
 LJI Factor = 3.39

Monthly Non-Gas Revenue = <Minimum Bill> + (<Tier 1 Consumption> X <Tier 1 Margin>)

Ex. January = \$ 65.60 + (100 X \$1.976)  
 = \$ 263.20

| MONTH         | CONSUMPTION<br>(MCF) | MONTHLY<br>NON-GAS REVENUE |
|---------------|----------------------|----------------------------|
| January       | 100                  | \$ 263.20                  |
| February      | 90                   | \$ 243.44                  |
| March         | 70                   | \$ 203.92                  |
| April         | 30                   | \$ 124.88                  |
| May           | 10                   | \$ 85.36                   |
| June          | 10                   | \$ 85.36                   |
| July          | 10                   | \$ 85.36                   |
| August        | 10                   | \$ 85.36                   |
| September     | 10                   | \$ 85.36                   |
| October       | 30                   | \$ 124.88                  |
| November      | 70                   | \$ 203.92                  |
| December      | 90                   | \$ 243.44                  |
| <b>TOTALS</b> | <b>530</b>           | <b>\$ 1,834.48</b>         |

= ANNUAL GAS REVENUE (AGR)

Load Justified Investment = AGR X LJI Factor  
 = \$ 1,834.48 X 3.39  
 = \$ 6,218.89

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
COST OF SERVICE INTERROGATORIES

- Q. Please provide a detailed supply and requirement schedule for the Company's three most recent annual peak days and for design day. The schedules should include deliveries by source and requirements by rate schedule. Identify sources and requirements for transportation customers separately. Also, include the Company's daily sendout sheet for each peak day and applicable weather data.
- A. Attached as page 2 please find a supply and requirement schedule for the three most recent annual peak days for National Fuel Gas Distribution Corporation, Pennsylvania Division ("Distribution"). The deliveries to Distribution include upstream receipts and other sources. The requirements are segregated into sales and transportation service. Distribution cannot determine on a daily basis for MMT customers whether they are purchasing system supply on any given day. Pages 3 through 5 are the daily sendout sheets for the most recent three peak days. Page 6 is the requirements schedule by class for NFGD's 2006-2007 design day. This is the same design day in Distribution's most recent PGC 1307(f) docketed at R-00061246 for which gas cost rates were developed.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
COST OF SERVICE INTERROGATORIES

14. Please provide a summary identifying the salient features of each of the following. Salient features include contract party, effective term and applicable contract quantities (daily, annual, seasonal, etc.).
- a. All firm transportation agreements by type greater than one month in length. Indicate whether the capacity is available at the Company's citygate to meet design day requirements or is upstream capacity. Identify the downstream pipeline for each upstream arrangement.
  - b. All firm storage, gathering and exchange agreements. Indicate if each agreement provides design day capacity at the citygate or requires separate transportation (identify) service to effectuate delivery. Include on-system storage and peak shaving facilities used by the Company and identify all ratcheting provisions applicable to the Company's contractual and on-system storage arrangements.

Response:

See attached pages 2 – 5.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
COST OF SERVICE INTERROGATORIES

- Q. Please provide the following for each curtailment during the last three years:
- a. Dates of curtailment
  - b. Type of curtailment (firm service, interruptible service, both)
  - c. Whether curtailment was related to amount of capacity on the Company's system, other capacity or supply related
  - d. Rate schedule that curtailed volumes would have been billed under
  - e. Curtailed volumes by rate schedule
  - f. Actual volumes moved by rate schedule
- A. National Fuel Gas Distribution - Pennsylvania Division has not experienced a curtailment situation during the last 3 years. In fact, no curtailments have been imposed since the severe weather conditions of the 1976 -1977 heating season.

PENNSYLVANIA DIVISION  
COST OF SERVICE INTERROGATORIES

Q. Please identify the Company's design day planning criteria and the probability of design day occurrence. Include any available documentation supporting the Company's claimed probability of occurrence.

A. An extreme peak day analysis is performed by Distribution for allocating costs to customer classes. Use of the term "extreme peak day", by Distribution, refers to a calculated level of gas usage based on the day in a winter season that has the highest number of degree days, i.e., the day with the lowest average temperature for which Distribution plans gas supplies and pipeline capacity. A peak day, in contrast, is an historical day of greatest gas usage in a winter period, which may not have occurred on the coldest day of the year. The peak may not occur on the coldest day of the year for several reasons. For example, if the coldest day was not a business day and many businesses were not operating, the peak day might not be the coldest day.

Based on the experience of the most recent 30 years, as shown on page 2, the Pennsylvania Division has experienced extreme degree days of 74 or greater 2 times. Therefore, it is realistic to expect similar extreme days to occur in the future with some frequency. In addition, the Commission in an order adopted on August 17, 2000, at Docket No. R-994898, based upon the more extensive study presented by Distribution in that proceeding, concluded that use of 74 heating degree days was reasonable for planning capacity and allocating costs.

PENNSYLVANIA DIVISION  
COST OF SERVICE INTERROGATORIES

- Q. For each customer class contained in the cost of service study, please provide monthly throughput by class.
- A. Please refer to Exhibit No. 110, Schedule 9, Pages 1 and 2 for monthly throughput for each customer class contained in the cost of service study.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
COST OF SERVICE INTERROGATORIES

19. Please provide workpapers showing the development of each allocation factor reflected in the Company's cost of service study. Include a description of each allocation factor, all calculations performed to develop the allocators and all supporting documentation, studies or other information relied upon to determine the allocators.

Response:

Please see the workpapers associated with Exhibit No. 111.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
COST OF SERVICE INTERROGATORIES

20. Please provide all workpapers, calculations and supporting documentation for the functionalization and classification performed for the Company's cost of service study.

Response:

Please see Exhibit No. 111 and its associated workpapers.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
REVENUE REQUIREMENT INTERROGATORIES

- Q. If past weather normalized sales or sales trends are used in models or otherwise relied on in reaching sales projections, please provide actual and normalized throughput by month by rate schedule from the beginning of the historic test year and the future test year through the most recent month available and update as additional data become available. Separately identify sales and transportation throughput and provide the workpapers which develop normalized sales.
- A. The Company, in its econometric models, uses actual Mcf per account on a throughput basis as the dependent variable and experienced weather (degree days) as an independent variable for determining its projections at normal weather.

Pages 2 through 24 show actual and weather normalized sales and transportation volumes from the beginning of the historic test year and the future test year to-date by rate schedule.

Note: Normal Degree Days based on 6243 Total Annual Degree Days.

"Base Mcf/Acct" calculated over a 3 month time period.

Control Degree Days used in Normalization calculation.

Summary Degree Days based on the Average of 21 Controls.

"Normal Mcf/Acct" = "Normalized Mcf" divided by "Accts".

Note: Normal Degree Days based on 6243 Total Annual Degree Days.

"Base Mcf/Acct" calculated over a 3 month time period.

Control Degree Days used in Normalization calculation.

Summary Degree Days based on the Average of 21 Controls.

"Normal Mcf/Acct" = "Normalized Mcf" divided by "Accts".

Note: Normal Degree Days based on 6243 Total Annual Degree Days.

"Base Mcf/Acct" calculated over a 3 month time period.

Control Degree Days used in Normalization calculation.

Summary Degree Days based on the Average of 21 Controls.

"Normal Mcf/Acct" = "Normalized Mcf" divided by "Accts".

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
REVENUE REQUIREMENT INTERROGATORIES

Q. Please provide the workpaper developing the Company's FTY load growth adjustment.

A. The FTY load growth adjustment can be found on Exhibit No. 110, Schedule 8.

As shown in Exhibit No. 10, Schedule 2, the number of customers for the residential, commercial and public authority classes is projected to remain at the historic test year level.

Exhibit No. 110, Schedule 9 shows the projected Mcf per account for the residential, commercial and public authority classes.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
REVENUE REQUIREMENT INTERROGATORIES

Q. Please provide a complete copy of the computer output generated by the Company's statistical analysis package for all residential, commercial, public authority and industrial econometric models of gas demand estimated by the Company, but not presented in the filing.

A. Various alternative models were evaluated for the residential, commercial and public authority classes, however the statistical analysis software package utilized by the Company allows the user to review the model results on the computer screen thus avoiding unnecessary printing. Consequently, models with unacceptable results were not printed on hard copy or preserved in any manner; only the models presented in this filing were printed on hard copy.

Industrial econometric models were not developed in this filing.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
REVENUE REQUIREMENT INTERROGATORIES

- Q. Identify the historical data source(s) for each dependent and independent variable utilized to develop the econometric models of gas demand for each forecasted customer group.
- A. The data source for the residential, commercial and public authority dependent variable, actual Mcf/Account, is based on the Company's revenue reports (KRVN-1162) for retail sales, CTSN and TBSN reports for transportation volumes. The residential, commercial and public authority gas price variable is based on the Company's revenue reports (KRVN1113). It is the result of dividing total actual revenue by total actual consumption. The gas prices were then expressed in real terms using the GDP chain-type price index from the U.S. Department of Commerce Bureau of Economic Analysis. The residential, commercial and public authority degree day variable is based on actual heating degree days as published by the National Oceanic and Atmospheric Administration (NOAA). The residential conservation variable (Trend) is a successive trend recognizing that as appliances are replaced, the usage impact decreases due to the replacement of more efficient appliances. The commercial conservation variables (Trend) is a successive trend recognizing improvements in the envelope of the establishment.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
REVENUE REQUIREMENT INTERROGATORIES

- Q. Identify the source(s) and supporting documentation for the FTY value of each independent variable which required forecasting in the Company's gas demand models.
- A. The documentation for the residential, commercial and public authority gas prices can be found on page 2. The source for the chain weighted GDP is the Blue Chip Economic Indicators, Vol. 31, No. 3 March 10, 2006. The documentation for normal degree days can be found on page 3. Normal degree days are provided by the National Climatic Data Center/NOAA. The trend variables are a continuation of a linear representation of appliance replacement/conservation expressed on a successive numeric basis.

REVENUE REQUIREMENT INTERROGATORIES

- Q. Please provide in hard copy and on a computer diskette in Lotus 1-2-3, QuattroPro or other spreadsheet format, the dependent and independent variable databases relied upon to produce the Company's gas demand models. For variables based on averages, include the observations which comprise the average (e.g. gas prices).
- A. Pages 2 through 4 show the residential dependent and independent variables used in the demand models. Pages 5 through 7 show the commercial dependent and independent variables used in the demand models. Pages 8 through 10 show the public authority dependent and independent variables used in the demand models. A diskette has been provided to the OCA, OSBA and OTS containing the Excel spreadsheet with the data.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
REVENUE REQUIREMENT INTERROGATORIES

- Q. In the form identical to the previous question, please provide a database for all independent variables which were analyzed by the Company, but excluded from the filed gas demand models.
- A. All independent variables that were analyzed by the Company were included in the respective models .

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
 PENNSYLVANIA DIVISION  
 REVENUE REQUIREMENTS INTERROGATORIES

14. Please provide a copy of the Company's detailed capital budgets for the preceding and current calendar years which underlie the projected test year capital additions in this case.

Fiscal 2005 Capital Budget

REVENUE REQUIREMENTS INTERROGATORIES

20. Please state whether the future test year budgeted labor includes any increases or decreases in the number of employees during the future test year. If increases have been budgeted, please state whether the future test year includes budgeted positions which have not been filled.

The future test year does not include any increases or decreases in the number of employees during the future test year.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
REVENUE REQUIREMENTS INTERROGATORIES

21. Please explain how the Company has treated routine or normal position vacancies which occur as a result of terminations or retirements in its budgeted labor projections.

In determining the size of the labor force for rate making purposes, the Company uses a recent actual pay period. That pay period is reviewed for any abnormalities. In this case, none were detected. The Company will then *determine whether there are specific plans for changes in the labor force.* Where, as in this case, there are no plans to change the size of the labor force, the Company assumes that the size of the labor force will remain constant throughout the future test year.

NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
PENNSYLVANIA DIVISION  
REVENUE REQUIREMENTS INTERROGATORIES

22. Please provide the most recent insurance premiums for each type of insurance coverage (i.e., employee benefit and those purchased by the Company) reflected in the Company's filing. If available, please provide estimated premiums for the subsequent calendar year.

Employee Benefits:

Group Life Insurance (Note 1)

Term Insurance Rate = \$0.161 / \$1,000  
AD&D Insurance Rate = \$0.025 / \$1,000

Health Insurance (Self Insured)

Estimated claims paid per employee per month in the first year rates will be in effect equals \$858.11 plus administrative fee per employee per month of \$35.98 to produce a total cost per employee per month of \$894.09.

Pharmaceutical Card System (Self Insured)

Estimated claims paid per employee per month in the first year rates will be in effect equals \$233.23 plus administrative fee per employee per month of \$0.50 to produce a total cost per employee per month of \$233.73.

Note 1: Rates effective through May 31, 2006. These will be updated when known.

REVENUE REQUIREMENTS INTERROGATORIES

29. Please provide an analysis (description, dates and amounts) of any gains or losses on utility property sold for the lesser of the last three years or since the Company's last rate case or anticipated during the FTY. Explain how such amounts have been treated for ratemaking purposes.

The company has not sold any major property in the last three years.

The normal process for handling gains or losses on the sale of utility property is to credit Gas Plant in Service (Account 101) and debit the Reserve (Account 108) plus the cost of removal, salvage value, and any proceeds. The gain or loss is then included in the annual depreciation calculation.

**IMPORTANT IRS REQUIRED NOTICE**

require us to advise you that contributions or gifts to the American Gas Association are not deductible as charitable contributions for federal purposes. Dues payments are usually deductible by members as an ordinary and necessary business expense. The American Gas Association expects that our dues may be used to influence legislation. The Association will pay directly the federal tax that is due on lobbying activities.

one-year subscription to American Gas, the normal subscription rate for which is \$59.00 per year for U.S. and Canadian subscribers and \$110.00 per international subscribers.

Received Time Dec. 14. 3:40PM

## A.G.A. PURPOSES

1. To enhance the understanding of the energy-consuming public and its representatives at both the local and national levels about the essential role of the gas industry in supplying clean and efficient energy to the nation and about the challenges the industry faces in continuing to provide adequate supplies of such energy for the future.

2. To encourage the development of increased supplies of natural gas as well as supplemental supplies of synthetic and other substitute gaseous forms of energy in a timely manner by supporting research and development of new or improved technologies, by improving the understanding of the financial community and the public of the need to support gas industry ventures, and by facilitating a more favorable governmental environment.

3. To encourage improved economy and safety, including the optimum utilization of gas, for the mutual benefit of the public and the gas industry through improved efficiency, environmental and energy conservation practices, and through research and similar activities leading to better gas delivery and utilization equipment.

4. To collect, analyze, and disseminate information on gas industry activities including: the production, storage, manufacturing, transmission, distribution, marketing, and utilization of gas; the accounting and administrative methods employed by the industry; and other activities of importance to the industry.

5. To provide educational, financial, management, personnel, and other appropriate services to A.G.A. member companies, their employees, and others concerned with the gas industry.

6. To cooperate with other domestic and international organizations in promoting gas industry activities or objectives by the interchange of information or sharing of facilities and by affiliating with such organizations in such a manner as may be mutually beneficial.
