RE: PUC Docket No.: C2015-2497658

Dear Ms. Chiavetta;

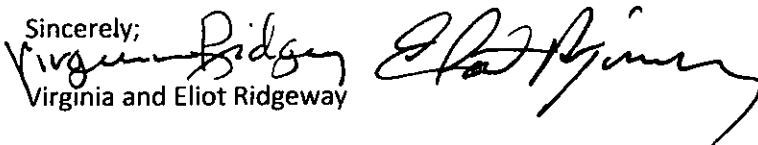

We were apparently ill advised and or perhaps did not have a complete understanding about what the full process entailed when filing a formal complaint with the PUC. We believed we would simply be given the opportunity to plead our case before a PUC administrative law judge in an attempt to receive compensation for the damages that occurred when PECO sub-contractor GRID ONE installed the AMI meter on June 6, 2014. We were prepared to appear in good faith at a scheduled hearing before the ALJ and present the facts, as we know them to be true, regarding the events that took place June 6, 2014. We did not anticipate nor were we prepared to receive the packet of information sent by PECO legal department that required responses prior to a hearing. It became clear to us that we were incapable of responding responsibly without seeking well versed legal counsel to assist with correct interpretation of new matters, motions, and preliminary objections. However, the one statement from PECO that reads the PUC does not have the power or jurisdiction to award monetary damages made it clear to us that proceeding in this direction is not in our best interest, since our only objective was to be reimbursed for damages and not suffer further financial hardship attached to this matter.

At this time we are respectfully requesting to withdraw our formal complaint with the PUC. We will anticipate further instructions, if required, to finalize this matter.

We have sent a copy of this letter to PECO's law department.

Thank you for your time and attention, please feel free to contact us.

Sincerely;

Virginia and Eliot Ridgeway
