Pa. PUC, Harrisburg, Pa. 17105-3265

Re: F-2015-2491526, 1519 Arrott St. Phila., Pa. 19124

Dear Sir/ Madam;

1. The fact remains that the owners do not reside at the rental property. I have overpaid my electric bill (for credit purposes) and therefore am not responsible for tenant's electric bills from a rental property. This judgement expects me to pay my personal as well as tenants bills in addition to \$650 for fixing the problem that occurred when the property was in tenants possession without safeguarded PECO meters.
2. This judgement does not ask PECO to make its meters temper free against foreign wiring. May be a lock and a key on its meters was a better solution than offering no solution at all. Peco seems to take advantage of the "law" that seems to place the burden of all business risks on the property owners only. If this is justice then it certainly lacks common sense.
3. Conclusions of Law #10 on page 11. Once again, the property owner is to be held responsible to pay for all business risks instead of making PECO pay its fair share in the theft of electricity through foreign wiring due to its inadequate safeguards of its meters.
4. Conclusion of Law #11 on page 11. Our complaint is based on common sense which requires the "law" to be spelled out, elaborated, interpreted and logically applied by generally and universally accepted principles. That is, if a property owner did not benefit from foreign wiring then he/she should not be expected to pay for all bills. That would be an insult to a business/financial injury.

Thank you all involved and May God Bless us all with more common sense.

Sincerely,

Mr. D. Ghauri
