Re: Security Requirement for The Energy Alliance LLC.

Dear Aaron,

National Fuel Gas Distribution Corporation ("NFGDC") is aware The Energy Alliance LLC. (EAL) has filed an application with the Pennsylvania Public Utility Commission to supply natural gas service to the public in Pennsylvania and specifically within the service territory of NFGDC.

As you know, in making such an application, EAL must furnish acceptable security to each utility where EAL will do business. As such, under its tariff, NFGDC could require EAL to provide a bond or other financial security instrument in an amount that NFGDC determines to be appropriate.

However, you have indicated, and it is NFGDC's understanding that EAL intends only to provide natural gas aggregating, brokering and consulting services at this time. You have stated that, in performing these services, EAL will never take title to any delivered natural gas.

Based upon your representations, NFGDC has determined that, at this time, EAL does not need to post a bond or other form of security to operate in its service territory. However, if the services provided by EAL change in the future, NFGDC reserves the right to require security from EAL as it deems appropriate.

If you have any questions concerning the foregoing, please contact me at 716-857-7599.

Yours truly,

Nathan E. Barnes

Dear Energy Alliance LLC:

We are pleased that The Energy Alliance LLC has applied for a license to provide Natural Gas Broker/Marketer Services on the distribution system of Columbia Gas of Pennsylvania, Inc. ("Columbia Gas").

Under Paragraph 2.4.5 of the Rules Applicable to Distribution Service section of the Tariff of Columbia Gas, The Energy Alliance LLC could be required to provide to Columbia Gas a bond or other financial security instrument in an amount that Columbia Gas determines to be appropriate. The Energy Alliance LLC has indicated only brokering and consulting services will be provided. Therefore, we have determined at this time that The Energy Alliance LLC does not need a bond or other financial security requirement to provide broker natural gas services to Columbia Gas customers.

If the creditworthiness requirement or Columbia Gas' exposure to The Energy Alliance LLC changes in the future, Columbia Gas might deem it appropriate to require The Energy Alliance LLC to provide a bond or other financial security instrument.

Please feel free to contact me at 614-460-6841 should you have any questions regarding a bond or other financial security instrument requirements of Columbia Gas.

Sincerely,

Michele Caddell
