Mifflintown, PA 17059

To Whom It May Concern:

Ramsey's Trucking of Mifflintown had been our principal hauler of pallets from March, 1987 thru June, 1990.

We had a load of pallets to be delivered to Baltimore, MD, on the afternoon of April 27. On April 26th Ramsey called to confirm they were able to take the load. In the morning of April 27th, Ramsey called our office stating they were unable to deliver this load, as their truck drivers refused to haul into Friday afternoon Baltimore traffic. It took several hours of calling every trucker we could locate before we could find someone to haul this load on such short notice.

This was the culmination of an on-going dissatisfaction with Ramsey Trucking leading to our search for a new trucking company to haul our pallets.

At that time Matthew Sieber trucking of Mifflin was approached to do our trucking. After some discussion Sieber was subsequently engaged to haul pallets for our company.

Other reasons for our dissatisfaction with Ramsey's over the years have been Mrs. Ramsey's constant rescheduling of our loads to suit her schedule when she had overbooked with other pallet shops. Pallets have to be delivered when scheduled by the purchasing company! This rescheduling makes for poor relations with these companies.

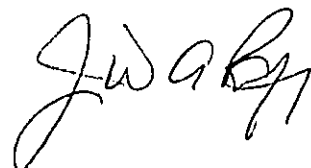

Ramsey's empty trailers were not back to our shop for loading till late in the afternoon, causing our men to stay and work late in order to get the loads on the truck for next day delivery - resulting in overtime pay. There were times when we needed a trailer and Ramsey had an empty trailer sitting at our neighbors pallet shop and had none "available" for us.

There was no co-operation on Ramsey's truckers part in tying down loads and helping stack pallets in the center of the truck, whereas Sieber's truckers help with anything they can when they are waiting on a load.

Ramsey's tie-down strap ratchets were rusted and the straps were always disorganized in their compartment.

Ramsey's always hauled on old heavy wood decked trailers whereas Sieber's trailers are new light aluminum, resulting in our being able to send more pallets to our purchasers.

Ramsey's constant belligerent attitude toward myself, as the person scheduling our loads, has also contributed to our company's dissatisfaction with them.
