STATEMENT OF TECHNICAL FITNESS

I am the founder of CAMCO Management and have been its CEO for more than 35 years. CAMCO is one of the leading community association management companies in the region and manages more than 70 communities including 20+ high-rise buildings in the region. In addition to the many other responsibilities as the company's chief executive officer, I oversaw and directed the entire portfolio's transition through the re-introduction of deregulation and the financial impact of the electricity rate caps coming off in January of 2010. In total I am responsible for the power procurement of over 20 buildings with an annual load of around 100,000 mWh. Through that process I have worked with a number of the leading EGSs in the area. I am well versed in the power procurement process from start to finish.
