To Those Whom It May Concern:

I am enclosing ANOTHER copy of the same letter I sent you regarding my unknowingly filing the wrong form with you, which stated that I am rescinding and nullifying that letter.

Please READ IT this time, and understand that I am NOT becoming engaged in a lawsuit. I want to speak in person – as I stated in that letter -- with an authorized, knowledgeable, informed PECO and/or PUC engineer or other authorized, knowledgeable, informed person about the severe problems involved in considering replacing my perfectly functional electric meter with a dangerous "smart" meter.

I don't know how to express this any more clearly.

M. Gillespie

To Those Whom It May Concern:

RE: REVISED SUBMISSION

I am contacting you because I was apparently given the wrong information in order to request a meeting with PECO regarding the unwanted replacement of my current, well-functioning electric meter.

My intention was/is to discuss this matter with an authorized and knowledgeable PECO or PUC engineer or person familiar with the widely-publicized problems with the replacement meters. I was told that the only way to connect with someone other than your front-line telephone operators was to send you a complaint letter. By mailing that Complaint Letter as I was told, this resulted in an unexpected, undesired result.

RECEIVED

DEC 8 2015

PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

I cannot find another form on the PECO website to use to request a meeting with a knowledgeable, authorized PECO engineer or other qualified employee. I had/have no intention of becoming involved in a lawsuit. I wish to discuss my deep concerns as they relate to my personal, physical and medical safety, to my unfortunate disability, and to the mandatory safety of my home and property.

If you have some form other than the one I inadvertently sent you, please forward it to me. I cannot find anything online.

Please disregard and retract the formal Complaint letter as I wish to dismiss any legal status which the letter may have entailed. Simply, as requested above, I wish to speak with a PECO person as described above, regarding the request to replace my currently well-functioning electric meter.
