7. FINANCIAL FITNESS

See Exhibit #6

a. **BONDING:** In accordance with 66 Pa. C.S. Section 2809(c)(1)(i), the Applicant is required to file a bond or other instrument to ensure its financial responsibilities and obligations as an EGS. Therefore, the Applicant is...

- Furnishing the ORIGINAL of an initial bond, letter of credit or proof of bonding to the Commission in the amount of \$250,000.
- Furnishing the ORIGINAL of another initial security for Commission approval, to ensure financial responsibility.
- Filing for a modification to the \$250,000 requirement and furnishing the ORIGINAL of an initial bond, letter of credit or proof of bonding to the Commission in the amount of \$10,000. Applicant is required to provide information supporting an amount less than \$250,000. Such supporting information must include indication that the Applicant will not take title to electricity and will not pay electricity bills on behalf of its customers. Further details for modification may be described as well.
 - *At the conclusion of Applicant's first year of operation it is the intention of the Commission to tie security bonds to a percentage of Applicant's gross receipts resulting from the sale of generated electricity consumed in Pennsylvania. The amount of the security bond will be reviewed and adjusted on an annual basis.*
 - *Example version of a bond and letter of credit are attached at Appendix D & E, Applicant's security must follow language from these examples.*
 - *Any deviation from these examples must be identified in the application and may not be acceptable to the Commission.*

b. **FINANCIAL RECORDS, STATEMENTS, AND RATINGS:** Applicant must provide sufficient information to demonstrate financial fitness commensurate with the service proposed to be provided. Examples of such information which may be submitted include the following:

9. DISCLOSURE STATEMENT:

Disclosure Statements: If proposing to serve Residential and/or Small Commercial (under 25 kW) Customers, provide a Residential and/or Small Commercial disclosure statement. A sample disclosure statement is provided as Appendix G to this Application.

- Electricity should be priced in clearly stated terms to the extent possible. Common definitions should be used. All consumer contracts or sales agreements should be written in plain language with any exclusions, exceptions, add-ons, package offers, limited time offers or other deadlines prominently communicated. Penalties and procedures for ending contracts should be clearly communicated.

Not applicable for an applicant applying for a license exclusively as a broker/marketer.

See Appendix G

10. VERIFICATIONS, ACKNOWLEDGEMENTS, AND AGREEMENTS

- a. **PJM LOAD SERVING ENTITY REQUIREMENT:** As a prospective EGS, the applicant understands that those EGSs which provide retail electric supply service (i.e. takes title to electricity) must provide either:

- proof of registration as a PJM Load Serving Entity (LSE), or *Exhibit # 5*
- proof of a contractual arrangement with a registered PJM LSE that facilitates the retail electricity services of the EGS.

The Applicant understands that compliance with this requirement must be filed within 120 days of the Applicant receiving a license. As well, the Applicant understands that compliance with this requirement may be filed with this instant application.

(Select only one of the following)

- AGREED - Applicant has included compliance with this requirement in the instant application, labeled in correspondence with this section (10).
- AGREED - Applicant will provide compliance with this requirement within 120 days of receiving its license
- ACKNOWLEDGED - Applicant is not proposing to provide retail electric supply service at this time, and therefore is not presently obligated to provide such information

- b. **STANDARDS OF CONDUCT AND DISCLOSURE:** As a condition of receiving a license, Applicant agrees to conform to any Uniform Standards of Conduct and Disclosure as set forth by the Commission. Further, the Applicant agrees that it must comply with and ensure that its employees, agents, representatives, and independent contractors comply with the standards of conduct and disclosure set out in Commission regulations at 52 Pa. Code § 54.43, as well as any future amendments.

AGREED

- c. **REPORTING REQUIREMENTS:** Applicant agrees to provide the following information to the Commission or the Department of Revenue, as appropriate:

- Retail Electricity Choice Activity Reports: The regulations at 52 Pa. Code §§ 54.201--54.204 require that all active EGSs report sales activity information. An EGS will file an annual report reporting for customer groups defined by annual usage. Reports must be filed using the appropriate report form that may be obtained from the PUC's Secretary's Bureau or the forms officer, or may be down-loaded from the PUC's internet web site.
- Reports of Gross Receipts: Applicant shall report its Pennsylvania intrastate gross receipts to the Commission on a quarterly and year to date basis no later than 30 days following the end of the quarter.
- The Treasurer or other appropriate officer of Applicant shall transmit to the Department of Revenue by March 15, an annual report, and under oath or affirmation, of the amount of gross receipts received by Applicant during the prior calendar year.
- Net Metering Reports: Applicant shall be responsible to report any Net Metering per the Standards on http://www.puc.pa.gov/consumer_info/electricity/alternative_energy.aspx. Scroll down to the Net Metering Standards Section.
- Applicant shall report to the Commission the percentages of total electricity supplied by each fuel source on an annual basis per 52 Pa. Code § 54.39(d).
- Applicant will be required to meet periodic reporting requirements as may be issued by the Commission to fulfill the Commission's duty under Chapter 28 pertaining to reliability and to inform the Governor and Legislature of the progress of the transition to a fully competitive electric market.

AGREED

- d. **TRANSFER OF LICENSE:** The Applicant understands that if it plans to transfer its license to another entity, it is required to request authority from the Commission for permission prior to transferring the license. See 66 Pa. C.S. Section 2809(D). Transferee will be required to file the appropriate licensing application.

AGREED

- e. **ASSESSMENT:** The Commission does not presently assess Electric Generation Suppliers for the purposes of recovery of regulatory expenses; see *PPL Energyplus, LLC v. Commonwealth*, 800 A.2d 360 (Pa. Cmwlth. 2002).

ACKNOWLEDGED

- f. **FURTHER DEVELOPMENTS:** Applicant is under a continuing obligation to amend its application if substantial changes occur to the information upon which the Commission relied in approving the original filing. See 52 Pa. Code § 54.34.

AGREED

- g. **FALSIFICATION:** The Applicant understands that the making of false statement(s) herein may be grounds for denying the Application or, if later discovered, for revoking any authority granted pursuant to the Application. This Application is subject to 18 Pa. C.S. §§4903 and 4904, relating to perjury and falsification in official matters.

AGREED

- h. **NOTIFICATION OF CHANGE:** If your answer to any of these items changes during the pendency of your application or if the information relative to any item herein changes while you are operating within the Commonwealth of Pennsylvania, you are under a duty to so inform the Commission, within twenty (20) days, as to the specifics of any changes which have a significant impact on the conduct of business in Pennsylvania. See 52 Pa. Code § 54.34.

AGREED

- i. **CEASING OF OPERATIONS:** Applicant is also required to officially notify the Commission if it plans to cease doing business in Pennsylvania, 90 days prior to ceasing operations.

AGREED

- j. **Electronic Data Interchange:** The Applicant acknowledges the Electronic Data Interchange (EDI) requirements and the relevant contacts for each EDC, as listed at Appendix J.

AGREED

- k. **FEE:** The Applicant has enclosed or paid the required filing fee by **CERTIFIED CHECK OR MONEY ORDER** in the amount of \$350.00 payable to the Commonwealth of Pennsylvania.

PAYMENT ENCLOSED

11. AFFIDAVITS

- a. **APPLICATION AFFIDAVIT:** Complete and submit with your filing an officially notarized Application Affidavit stating that all the information submitted in this application is truthful and correct. An example copy of this Affidavit can be found at Appendix A. - *Attached*
- b. **OPERATIONS AFFIDAVIT:** Provide an officially notarized affidavit stating that you will adhere to the reliability protocols of the North American Electric Reliability Council, the appropriate regional reliability council(s), and the Commission, and that you agree to comply with the operational requirements of the control area(s) within which you provide retail service. An example copy of this Affidavit can be found at Appendix B. - *Attached*

12. NEWSPAPER PUBLICATIONS

Notice of filing of this Application must be published in newspapers of general circulation covering each county in which the applicant intends to provide service. Below is a list of newspapers which cover the publication requirements for Electric Generation Suppliers looking to do business in Pennsylvania.

The newspapers in which proof of publication is required is dependent on the service territories the applicant is proposing to serve. The chart below dictates which newspapers are necessary for each EDC. If the applicant is proposing to serve the entire Commonwealth, please file proof of publication in all seven newspapers.

Please file with the Commission the Certification of Publication, along with a photostatic copy of the notice to complete the notice requirements.

Proof of newspaper publications must be filed with the initial application. Applicants do not need a docket number in their publication. Docket numbers will be issued when all criteria on the item 14 checklist (see below) are satisfied.

Sample Disclosure Statement Format
for Electric Generation Suppliers

This is an agreement for electric generation service, between *(EGS name)* and *(customer's name and address)*.

Background

We at *(EGS name)* are licensed by the Pennsylvania Public Utility Commission to offer and supply electric generation services in Pennsylvania.

Our PUC license number is A-XXXX-XXXXXXX.

We set the generation prices and charges that you pay. The Public Utility Commission regulates distribution prices and services. The Federal Energy Regulatory Commission regulates transmission prices and services.

Include one of the two following options:

You will receive a single bill from *(billing agent name)* that will contain *(Electric Distribution Company name)* charges and *(EGS name)* charges.

You will receive a separate bill from *(EGS name)* for generation charges and a separate bill from *(distribution utility name)* for its charges.

Right of Rescission - You may cancel this agreement at any time before midnight of the third business day after receiving this disclosure. You can contact us by phone, in writing or electronically (if available) to cancel this agreement. See Section 9 for how to contact us.

Definitions

Generation Charge - Charge for production of electricity.

Transmission Charge - Charge for moving high voltage electricity from a generation facility to the distribution lines of an electric distribution company.

4. OPERATIONS

c. PROPOSED SERVICES

Mpower Energy NJ LLC proposes to offer retail electricity supply to residents and businesses in the PA area (Peco, PPL for electric, and Columbia, Philadelphia Gas Works and UGI Utilities for gas) with options for variable-capped, fixed, index and variable rate structure contracts and 6, 12 and 24 month terms.

d. PROPOSED SERVICE AREA

Although we published for the entire Commonwealth because we were unsure of which territories we would ultimately be moving into at the time of publication we have, in the end, decided only to service PECO, PPL, (electric) Columbia, Philadelphia Gas Works and UGI Utilities (gas). We have not changed our publications and therefore have not sent out the additional proofs of service, but we have updated our application to reflect this decision.

5. COMPLIANCE

c. CUSTOMER/ REGULATORY/ PROSECUTORY ACTIONS:

In New Jersey three complaints have been filed against Mpower Energy NJ. In two cases, the customers claimed to have been slammed and we were able to provide sales and TPV recordings to disprove the allegations. In one case, the customer provided his information but changed his mind after completing the TPV. The marketer was aware of this change but failed to inform the enrollment department. He instead submitted the account for enrollment with the complete TPV and the account was therefore approved. All dealings with this marketer were terminated prior to receipt of this complaint due to their failure to abide by our strict code of conduct and sales ethics. Upon receipt of the complaint, Mpower Energy NJ promptly dropped the account and credited the customer for any rate differential plus an additional discount of 15%. In New York complaints have been filed with the Public Service Commission of New York, the BBB and the Attorney General. The nature of the complaints varied greatly and included complaints concerning difficulty reaching us due to long wait times on the phone, slamming allegations, requests to be added to our DNC, requests for clarification of charges or confirmation of customer service interactions and complaints about rates. In many cases complaints were filed unnecessarily by customers wishing to avoid phone wait times rather than by customers who first attempted to contact Mpower Energy directly to resolve their issues.

d. SUMMARY

Mpower Energy LLC is an accredited BBB business with an A+ rating. In all cases, including those filed with the NJ BPU, the BBB and the NY PSC, Mpower Energy was able to resolve the customers' concerns and settle the matter. In all cases related to slamming or billing issues regardless of the results of any consequent investigations, Mpower Energy immediately dropped the accounts in question and credited the customers according to the utility's rates for all periods in service with Mpower (if there was a difference in the customers favor).

8. TECHNICAL FITNESS

a. Previous experience in the industry, types and number of customers.

Mpower Energy NJ LLC currently operates only in New Jersey. We are also license by the PSC in Maryland but have not begun marketing in the area. We expect to begin operating in Maryland by the beginning of 2016. Mpower Energy LLC operates in New York State exclusively.. The New Jersey electric license number is ESL-0143 and the gas license number is GSL-0129. Please note that licenses have not been provided for NY or MD since these Commissions do not provide physical licenses. Our initial letters of acceptance have been included in this packet. In New York State Mpower Energy LLC currently provides gas services to 23,465 residential customers and 282 commercial customers. Mpower Energy NJ LLC provides gas service to 800 residential customers and electric service to 1200 residential customers. Mpower Energy LLC provides electric service to 35,864 commercial customers and 2,610 residential customers.

Business plans for operation within the Commonwealth

Pending the approval of our application Mpower Energy NJ intends to begin marketing in PPL, PECO, Columbia, Philadelphia Gas Works and UGI territories. The service offered will be competitively priced retail electricity and natural gas supply for residential and small and large commercial customers.. We will be offering 12 month capped-variable rates with options for 12 month fixed rate structure contracts, variable month-to-month rate plans. At some point in the future we may introduce Index (Fixed Adder), and Guaranteed Savings contracts. The only rate we will initially be working with is our capped-variable as reflected in the disclosure statement we have been working with the PUC to amend. If we choose to update our rate offerings in the future we will update the Commission prior to doing so. Also, at Mpower Energy's discretion and on a case by case basis, shorter or longer term contracts (no longer than 36 months) may be negotiated with commercial clients.

In other states Mpower Energy NJ representatives market both by door-to-door and telemarketing. Additionally, our customers are able to explore their options and enroll through our website (our website is currently under construction and will be submitted for review by the Commission upon completion) though we do not currently actively advertise online. In Pennsylvania, our agents will begin with door-to-door sales. We will inform the Commission of plans to begin telemarketing but we have attached our PA telemarketing license in Exhibit #7.

d. Oversight of Marketing

Mpower Energy is constantly striving to improve its operations. The process is ongoing based upon customer feedback, regulatory agency feedback, regulation changes and technology updates. Mpower Energy has dedicated careful attention to company branding in recent years in an effort to curb customer misunderstanding and agent misrepresentation. Mpower agents go into the field wearing company uniforms *bearing the company name and logo prominently. The uniforms include hats, shirts, and jackets. They must be wearing their picture ID's at all times while marketing in the field. They carry company branded pens and binders and all of our documents are clearly branded as well.* This leaves no room for customers to confuse Mpower Energy with the utilities. Additionally, our agents give customers a bill or rights which clearly states that they are not affiliated with the utility and under no obligation to purchase services. We have in recent years brought a significant amount of our operations in-house in order to have greater control and oversight over our agents' activity and implemented a quality assurance department responsible solely for monitoring all calls. We have improved our record retention systems, terminated agreements with numerous contractors who were not complying with our regulations. Recently we have begun rebuilding our website under the guidance of our legal team.

Mpower Energy has allocated significant resources toward the meticulous retention of all recordings of all customer interactions. Additionally Mpower Energy employs Quality Assurance specialists whose sole job it is to spot check as many sales calls as possible. No sale is accepted without a TPV recording and our TPV process is administered by live agents carefully trained to identify any misunderstanding on the customer's part, misinformation by the sales agent or misrepresentation by a minor or person other than the account holder. If at any point the TPV agent identifies any questionable patterns or activity, the agent is instructed to terminate the call and alert Mpower Energy as a pre-emptive measure against an illegitimate enrollment. Mpower Energy also conducts double verification on any accounts flagged by the TPV agents, in the case that the enrollment was requested by anyone other than the account holder or spouse or in cases where any discrepancy in the information provided might suggest a problem with the enrollment. Mpower Agents are rigorously trained according to a strict Code of Conduct and their transactions are closely overseen by supervisors in the call centers or in the field. For our customer's protection our agents are not permitted to collect any personal or financial information other than the account holders name, contact information and LDC account number. Mpower Energy NJ LLC records all of its sales calls and spot checks the calls.

Simple complaints are handled at the customer service level. Complaints having to do with slamming, agent misconduct of any kind, DNC violations or unauthorized guarantees made by the agents (or any complaint for which the customer has requested escalated assistance) are escalated to the compliance department. At that point we first reach out to the customer to discuss the issue and ensure that we have a clear understanding of what took place and what is required to resolve the situation. Unless the customer requests otherwise, any account under investigation for compliance violations of any kind is automatically returned to the utility so as not to allow the customer to incur any further charges from Mpower Energy. Additionally, customers contesting charges or enrollment are offered a retroactive adjustment of charges. If Mpower charged more than the utility at any point during the customer's time in service by Mpower Energy, Mpower will refund the difference. Termination fees are refunded or waived. Once the charges have been stopped or adjusted, Mpower will pull all available records of interactions with the customer including sales calls, attempted sales calls, paper contracts, customer database notes made by CSRs who assisted them in the past, TPV recordings and knock/call logs. Since steps have already been taken to reduce or eliminate impact of on the customer, at this point the findings of our investigation are mainly used for internal quality control purposes. If the findings reveal any gap in our compliance policies all departments are called upon to take appropriate measures to prevent the issue from recurring. If it is confirmed that an agent willingly and knowingly violated the code of conduct in any way, the agent is terminated. If no proof can be found that the allegations are true the agent's record is noted for future reference. Three complaints of the same or similar nature will be considered proof of misconduct and the agent will be terminated at the time that the third complaint is lodged against him/ her. If the agent represents a contractor with whom we do business their supervisors are made aware of the violation and asked to take steps on their part to curb any possibility of recurrence. Vendors/contractors who employ repeat offenders and who cannot provide satisfactory proof that measures were taken to address the compliance gap are also terminated. Additionally, Mpower Energy has a claw-back policy for all commissions paid to contractors which ensures that there are financial repercussions for violations as well.

Once an investigation has been completed and all appropriate disciplinary measures and operational changes implemented, Mpower Energy provides a written report of the findings and the course of action

taken in response to the regulatory agency that originally submitted the complaint. Where appropriate, the customer is also given an update.

f. FERC FILING

Note: This is technically not applicable since we are not wholesalers and are not required to have a Power Marketer License. We are however in the process of obtaining our license. We will update the PUC once it has been approved by FERC.

12. NEWSPAPER PUBLICATIONS

Note: The PUC is already in possession of both the originals and a set of copies (since we are filing for both electric and gas licenses). We published a notice based on Appendix I for both EGS and NGS in all 7 publications. As noted above, no additional Proofs of Service have been sent out since we have now limited our planned service territory to the utilities that have already received our Proofs of Service.

RE: MPower Energy, LLC

Dear Mr. Popack:

Thank you for submitting your Retail Access Application Package to become an Energy Services Company (ESCO) serving residential and nonresidential natural gas and electric customers in New York State. This letter is to inform you that documentation submitted in your application package has been reviewed by Staff and established to be in compliance with the New York State Public Service Commission's ESCO eligibility requirements that are implemented by codes and regulations found in the Uniform Business Practices, the Home Energy Fair Practices and other applicable regulations.

I am also pleased to notify you that MPower Energy, LLC has successfully met the Commission's EDI Phase I certification requirements for Core and Utility Bill Ready and Utility Rate Ready Transactions effective February 2009. All requirements therefore, for this initial stage of your eligibility determination have been satisfied.

Please be advised that you may now continue with the utility approval stage of the eligibility process by contacting those companies in whose service territories you intend to participate. The utility stage normally consists of a creditworthiness determination, completion of Phase III EDI testing and the execution of any operating or billing service agreements. Please note that each utility's eligibility requirements pertain to only their retail access programs.

Once you have satisfactorily completed the utility eligibility stage, Staff will be notified by the utility of your success. It would be helpful if MPower Energy, LLC notified Staff of the actual production date in the utility service territories you intend to enroll

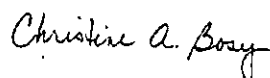

customers. At that point I will confirm that your final eligibility requirements have been satisfied.

Be advised that to maintain your ESCO eligibility, you must notify Staff of any substantive legal, financial or business related changes to your company as they occur. If your business plan changes and you decide to expand your service offerings by choosing to participate in any of the ESCO referral programs or move into other utility service territories, you must immediately submit the appropriate documentation for Staff review and determination of how it affects your current eligibility.

If you are using vendors to provide ESCO related services (e.g., EDI), the ESCO remains fully responsible for any activities the vendors perform. If you have not already done so, or if you have changed vendors since last reporting them to us, please provide Staff a list with contact information for all vendors that you are now using. Finally, you must submit a statement annually, by January 31st, indicating that the information in your original or most recent updated Retail Access Application remains current, or submit a statement identifying revisions. Upon completion of our review of new eligibility information, Staff will then update your eligibility status as necessary.

We will only post your company's contact information on our Website once you have completed the eligibility process and are ready to begin enrolling customers. Please do not hesitate to contact me if you have any further questions or concerns at (518) 486-2432 or Christine_Bosy@dps.state.ny.us.

Sincerely,

Christine A. Bosy

Dear Mr. Dubrovsky:

On March 20, 2015, MPower Energy NJ, LLC ("Company") filed an Application for License to Supply Natural Gas or Natural Gas Supply Services in Maryland under COMAR 20.54. The Company proposes to provide natural gas supplier broker services in Maryland for residential, commercial and industrial customers as described in the application.

After considering this matter at the May 6, 2015 Administrative Meeting, the Commission granted the Company a license to supply natural gas or natural gas supply services in Maryland (License Reference No. IR-3484). The license granted by the Commission under this Letter Order is limited solely to natural gas supplier services for the customer classes and service territories recommended by Staff. Additionally, the Company is directed to provide marketing and training materials specific to its Maryland operations to the Commission Staff and Office of People's Counsel 30 days prior to commencing operations in Maryland. The Company is also prohibited from marketing in Maryland with the name "MPower" and instead utilize its approved "d/b/a" name with the Maryland Department of Assessments and Taxation. Furthermore, the Company's website shall include a notification on its website of its d/b/a name utilized in Maryland and a disclaimer that MPower Energy is not affiliated with the State of Maryland's EmPOWER Maryland program.

Finally, the Company is reminded that it is under a continuing obligation to notify the Commission within 30 days of any changes to the information upon which the Commission relied in granting this license. A copy of the supplemental or updated information is required to be filed concurrently with the Office of People's Counsel.

Dear Mr. Dubrovsky:

On August 28, 2014, MPower Energy-NJ, LLC ("Company") filed an Application for a License to Supply Electricity or Electric Generation Services in Maryland under COMAR 20.51. The Company proposes to provide electricity supplier services in Maryland for residential, commercial and industrial customers as described in the application. Additional information was filed on December 10, 2014 and February 4, 2015.

After considering this matter at the March 11, 2015 Administrative Meeting, the Commission granted the Company a license to supply electricity or electric generation services in Maryland (License Reference Number IR-3384). The license granted by the Commission under this Letter Order is limited solely to electricity supplier services for all customer classes and service territories applied for and recommended by Staff. Additionally, the Company is directed to provide marketing and training materials specific to its Maryland operations to the Commission Staff and Office of People's Counsel 30 days prior to commencing operations in Maryland. The Company is also prohibited from marketing in Maryland with the name "MPower" and instead utilize it's filed "d/b/a" name with the Maryland Department of Assessments and Taxation, once approved. In addition, the Company shall include a notification on its website of its "d/b/a" name utilized in Maryland. Furthermore, the Company's website shall also include a disclaimer that MPower Energy, LLC is not affiliated with the State of Maryland's EmPOWER Maryland program.

Finally, the Company is reminded that it is under a continuing obligation to notify the Commission within 30 days of any changes to the information upon which the Commission relied in granting this license. A copy of the supplemental or updated information is required to be filed concurrently with the Office of People's Counsel.
