Honorable Judge Watson,

I am sending you a copy of an overview of my property. This is not new evidence. I have sink pictures showing the ground view but this shows a better view of the tower & lines & the trees to be cut due to West Penn's negative program. One picture is original & I have highlighted the lines & trees to show details on the other ones. I only decided to do this when attorney Brian Warkof phoned me and asked me to drop this case because of would not win it. I still think some one will span West Penn's methods of ... "as West Penn may determine". I signed R.O.W. almost 50 years ago and that won't change BUT, their new 2012 negotation should not make me change my life style. These trees do not interfere with West Penns access to the tower. Their only crime is they (the trees) are NOT on the approped negotation list. They provide wind & snow becal, noise barrier & a place for my birds & wildlife.
