To whom it may concern,

I am writing in regards to my PUC suspension. I received a Complaint (docket number C-2016-2527976) that I was operating under a without insurance while under the PUC regulations. Through an oversight, due to a very slow winter, my insurance did lapse for a short period of time. While I did not maintain insurance, I was not operating during that time period. I own a Landscaping business and was seasonally shut down. Once I realized the lapse, I brought everything up to date and current. There is currently insurance coverage on all vehicles and is on record with the Public Utility Commission. I have received notice that my suspension has been lifted. I am writing in hopes of having my fine waived due to the short lapse that occurred while I was not operating due to the season. Please let me know what I need to do to continue being compliant with my PUC .

Thank You,
