**VALUATION CHARGES**

**Released Value of \$0.60 per pound per article.** This is the most economical protection option available; **however, this no-cost option provides only minimal protection.** Under this option, the Carrier assumes liability for no more than \$0.60 per pound per article. Loss or damage claims are based and settled on the weight of the article multiplied by \$0.60. For example, if a 10-pound stereo component, valued at \$1,000 were lost or destroyed, the carrier would be liable for no more than **\$6.00 (10 pounds x 60 cents per pound).** **Obviously you should think carefully before agreeing to such an arrangement.**

The Table below shall be used to determine the rate on a shipment, when such shipment is released to a value exceeding \$0.60 per pound per article as evidenced by an increased value declared on the Bill of Lading. The method by which such rates are determined is outlined below:

**Excess Declared Value:**

Shipper may increase Carrier's liability to a level whereby Carrier shall either:

- (A) repair the article to the extent necessary to restore it to the same condition as when it was tendered for delivery to the carrier, or pay the cost of such repairs; or
- (B) replace the article with an article of like kind and quality, or pay the cost of such replacement; but in no event to exceed the value declared.

To qualify for said protection, the declared value of the shipment must be declared on the Bill of Lading as either a lump sum dollar amount for the value of the shipment that may not be less than \$6,000.00 or a dollar amount per pound that may not be less than \$6.00 per pound, whichever is greater. The cost of your valuation charge for protection is based on table below subject, in all cases, to a deductible:

<u>Valuation</u>	<u>\$100 Deduction</u>
\$6,000	\$79
\$10,000	\$127
\$25,000	\$191
\$50,000	\$272
\$100,000	\$510
\$150,000	\$743
\$200,000	\$984
\$250,000	\$1272
