**JOINT PETITION
OF
UGI UTILITIES, INC. – GAS DIVISION
UGI CENTRAL PENN GAS, INC.
AND
UGI PENN NATURAL GAS, INC.
FOR A PROTECTIVE ORDER**

UGI Utilities, Inc. - Gas Division (“UGI”), UGI Central Penn Gas, Inc. (“CPG”), and UGI Penn Natural Gas, Inc. (“PNG”) (collectively, the “Companies”), hereby seek, pursuant to the provisions of 52 Pa. Code §5.41 and 5.365, the issuance of a protective order with respect to confidential or proprietary information that might need to be filed with the Commission, produced in discovery, or otherwise introduced into the record in the above-captioned proceedings, and in support thereof state the following:

1. The Companies, being natural gas distribution companies with gross intrastate annual operating revenues in excess of \$40,000,000, are authorized by the provisions of Section 1307(f) of the Public Utility Code, 66 Pa.C.S. §1307(f), and the Pennsylvania Public Utility Commission's ("Commission") gas cost recovery regulations at 52 Pa. Code §§53.61 - 53.68, to make annual purchase gas cost ("PGC") filings proposing modifications to their gas tariff rates to reflect increases or decreases in their natural gas costs.

2. On April 29, 2016, the Companies submitted the pre-filing information specified in 52 Pa. Code §§53.64(c) and 53.65, and 66 Pa.C.S. §1317(c), to the Commission.

3. On June 1, 2016, in accordance with the schedule for Section 1307(f) filings established by the Commission, the Companies submitted their 2016 PGC filings to the Commission.

4. During the course of this proceeding, it may be necessary for participants to disclose confidential or proprietary information in filings with the Commission, through discovery responses or through evidence introduced into the record.

5. Confidential and proprietary information may include, but not be limited to, (1) confidential customer information, (2) proprietary bids submitted by wholesale suppliers or asset managers for PGC supplies or services or (3) information pertaining to specific gas supply contractual arrangements or payments that could potentially be misused by wholesale market participants to gain an unfair advantage in such markets.

6. Under 52 Pa. Code §5.365, the presiding Administrative Law Judge may issue a Protective Order to limit or prohibit disclosure of confidential and proprietary information where "the potential harm to the party providing the information would be substantial and ... the

harm to the party if the information is disclosed without restriction outweighs the public's interest in free and open access to the administrative hearing process.”

7. In applying this standard, relevant factors to be considered include the extent to which disclosure would cause unfair economic or competitive damage; the extent to which the information is known by others and used in similar activities; the worth or value of the information to the party and to the party's competitors; the difficulty and costs of developing the information and other statute and regulations dealing specifically with disclosure of the information. 52 Pa. Code §§ 5.365(a)(1)-(5).

8. The release, in the current PGC proceedings, of non-public information such as customer-specific usage information; information concerning the specifics of proprietary bids or offers submitted by wholesale suppliers or asset managers; or information pertaining to specific gas supply contractual arrangements or payments could cause unfair economic or competitive damage to the Companies, and their customers by giving wholesale or retail suppliers an unfair competitive advantage in the marketplace, and by discouraging the submission of the lowest cost bids (or any bids at all) by potential suppliers in response to Company requests.

9. Conversely, the language proposed in the attached Protective Order protects against overly broad designations of protected information by giving all parties the right to “question or challenge the confidential or proprietary nature” of information marked as “Confidential” by a producing party.

10. The limitation on the disclosure of proprietary information proposed in the attached Protective Order fairly balances the interests of the parties, the public, and the

Commission, and will not prejudice the rights of the participants to develop a full record or frustrate the prompt and fair resolution of this proceeding.

WHEREFORE, the Companies respectfully request that the presiding Administrative Law Judge issue a protective order substantially in the form attached in **Exhibit A** to this petition.

Respectfully submitted,

PROTECTIVE ORDER

AND NOW, this ____ day of June, 2016, upon consideration of the Joint Petition of UGI Utilities, Inc. - Gas Division (“UGI”), UGI Central Penn Gas, Inc. (“CPG”), and UGI Penn Natural Gas, Inc. (“PNG”), for a Protective Order, such Petition is hereby granted. Therefore, it is ORDERED that:

1. This Protective Order dated June ___, 2016, in this matter, is hereby granted with respect to all materials and information identified at Paragraphs 2 and 5 of this Protective Order which are filed with the Commission, produced in discovery, or otherwise presented during these proceedings. All persons now and hereafter granted access to the materials and information identified in Paragraphs 2 and 5 of this Protective Order shall use and disclose such information only in accordance with this Order.

2. The materials subject to this Order are all correspondence, documents, data, information, studies, methodologies and other materials which a party or an affiliate of a party furnishes in this proceeding pursuant to Commission rules and regulations, discovery

procedures or cross-examination or provides as a courtesy to a party to this proceeding, which are claimed to be of a proprietary or confidential nature and which are designated "CONFIDENTIAL" (hereinafter collectively referred to as "Proprietary Information").

3. Proprietary Information shall be made available to the Commission and its Staff for use in this proceeding, including counsel for and non-lawyer experts engaged by the Bureau of Investigation and Enforcement ("I&E"). For purposes of filing, to the extent that Proprietary Information is placed in the Commission's report folders, such information shall be handled in accordance with routine Commission procedures inasmuch as the report folders are not subject to public disclosure. To the extent that Proprietary Information is placed in the Commission's testimony or document folders, such information shall be separately bound, conspicuously marked, and accompanied by a copy of this Order. Public inspection of Proprietary Information shall be permitted only in accordance with this Protective Order.

4. In addition to I&E personnel identified in Paragraph 3, Proprietary Information shall also be made available: (a) to the statutory Consumer Advocate; (b) Small Business Advocate; (c) each party's counsel of record; and (d) the party's witness(es) or expert(s), to the extent required and for the limited purpose of participation in the above-captioned proceedings, who comply with the provisions of Paragraph 9 hereof.

5. The parties may also designate certain Proprietary Information as Highly Confidential Information, which shall be marked for the record as "HIGHLY CONFIDENTIAL," consisting of materials which are claimed to be of an extremely sensitive nature. Highly Confidential Information shall include, but not be limited to, (a) information about the identity and usage characteristics of specific customers that the Companies are not otherwise authorized to release; and (b) specific wholesale supplier bid information or related information that could give wholesale suppliers an unfair competitive advantage.

6. Highly Confidential information shall be provided in the same manner and to the same parties as referenced in Paragraphs 1 – 4 above, except that Highly Confidential Information shall not be provided to a party witness or expert who individually serves as a

witness or expert for, or as a consultant or advisor to (a) a transportation customer or group of transportation customer receiving transportation service on a Company distribution system; (b) a wholesale gas supplier or group of wholesale gas suppliers, as set forth on Exhibit 1 of Appendix A; or (c) a retail gas supplier or group of retail gas suppliers currently identified on the Commission's natural gas supplier list as of the date of this Order, set forth on Exhibit 1 to Appendix A.

7. If a party's witness or expert knows that another member of the witness or expert's firm also serves as a witness or expert for, or as a consultant or advisor to: (a) a transportation customer or group of transportation customers receiving transportation service on a Company distribution system or a wholesale gas supplier or group of wholesale gas suppliers, as set forth on Exhibit 1 to Appendix A; or (b) a retail gas supplier or group of retail gas suppliers currently identified on the Commission's natural gas supplier list as of the date of this Order, set forth on Exhibit 2 to Appendix A, the witness or expert must : (1) advise the producing party of the relationship; (2) make reasonable attempts to segregate those personnel assisting in the witness's or expert's participation in this proceeding from those personnel working on behalf of these entities; and (3) if segregation of such personnel is impractical, the witness or expert shall give to the producing party written assurances that the lack of segregation will in no way jeopardize the interests of the producing party. The producing party retains the right to challenge the adequacy of the written assurances that its interests will not be jeopardized or the accuracy or the assurances provided through the submission of an executed Appendix A as provided in Paragraph 9 hereof.

8. No other persons may have access to the Proprietary Information or Highly Confidential Information except as authorized by Order of the Commission or the presiding Administrative Law Judge. No person who may be entitled to receive, or who is afforded access to any Proprietary Information or Highly Confidential Information shall use or disclose such information for the purposes of business or competition, or any purpose other than the preparation for and conduct of this proceeding or any administrative or judicial review thereof.

9. Prior to making Proprietary Information or Highly Confidential Information available to any person as provided above, counsel shall deliver a copy of this Order to such person and, except for employees of I&E, shall receive a written acknowledgment from that person in the form attached to this Order and designated as "Appendix A." Counsel shall promptly deliver to the producing party a copy of the executed Appendix A.

10. A producing party shall designate data or documents as constituting or containing Proprietary Information or Highly Confidential Information by affixing, as appropriate, a CONFIDENTIAL or HIGHLY CONFIDENTIAL stamp or typewritten or printed designation on such data or documents. Where only part of data compilations or multi-page documents constitutes or contains Proprietary Information or Highly Confidential Information, the producing party, insofar as reasonably practicable within discovery and other time constraints imposed in this proceeding, shall designate only the specific data or pages of documents which constitute or contain Proprietary Information or Highly Confidential Information.

11. Any federal agency which has access to and/or receives copies of the Proprietary Information or Highly Confidential Information will consider and treat such information as within the exemption from disclosure provided in the Freedom of Information Act as set forth at 5 U.S.C.A. § 552(b)(4) until such time as the information is found to be non-proprietary.

12. Any state agency which has access to and/or receives copies of the Proprietary Information or Highly Confidential Information will consider and treat such information as within the exemption from disclosure provided in the Pennsylvania Right to Know Law, Act of February 14, 2008, P.L. 6, 65 P.S. §§ 67.101-67.3104 until such time as the information is found to be non-proprietary.

13. Any public reference to Proprietary Information or Highly Confidential Information by counsel or persons afforded access thereto shall be to the title or exhibit reference in sufficient detail to permit persons with access to the Proprietary Information or Highly

Confidential Information to fully understand the reference and not more. The Proprietary Information or Highly Confidential Information shall remain a part of the record, to the extent admitted, for all purposes of administrative or judicial review.

14. Parts of any record of this proceeding containing Proprietary Information or Highly Confidential Information, including but not limited to all exhibits, writings, testimony, cross examination, argument and responses to discovery, and including reference thereto as specified in number Paragraph 13 above, shall be sealed for all purposes, including administrative and judicial review, unless such Proprietary Information or Highly Confidential Information is released from the restrictions of this Order, either through the agreement of the parties or pursuant to order of the Administrative Law Judge or the Commission. Unresolved challenges arising under Paragraphs 6 or 7 shall be decided on motion or petition by the presiding officer or the Commission in conformity with applicable rules, regulations, orders, statutes, precedent, etc., to the extent that such guidance is available.

15. The parties affected by the terms of this Order shall retain the right to question or challenge the confidential or proprietary nature of Proprietary Information or Highly Confidential Information; to question or challenge the admissibility of Proprietary Information or Highly Confidential Information; to refuse or object to the production of Proprietary Information or Highly Confidential Information on any proper ground, including but not limited to irrelevance, immateriality, or undue burden; to seek an order permitting disclosure of Proprietary Information or Highly Confidential Information beyond that allowed in this Order; and to seek additional measures of protection of Proprietary Information or Highly Confidential Information beyond those provided in this Order. If a challenge is made to the designation of a document or information as Proprietary Information or Highly Confidential Information, the party claiming that the information is Proprietary Information or Highly Confidential Information shall carry the burden of demonstrating that the designation is necessary and appropriate.

16. Except in the case of Proprietary Information or Highly Confidential Information provided by the Companies to the OCA, I&E or OSBA, upon completion of this

proceeding, including any administrative or judicial review, all copies of all documents and other materials, including notes, which contain any Proprietary Information or Highly Confidential Information, shall be immediately returned upon request to the party furnishing such information. In the alternative, parties may provide an affidavit of counsel affirming that the materials containing or reflecting Proprietary Information or Highly Confidential Information have been destroyed.

Natural Gas Suppliers List

List of companies licensed to be competitive gas suppliers in Pennsylvania. Visitors can find a list of residential suppliers currently making offers in a specific service territory on the [PAGasSwitch page](#).

Notice to All Licensed Gas Suppliers.

Effective Immediately: Any changes to the following list must be submitted in writing with an original signature (i.e., no faxes) to the Secretary of the Commission. Changes submitted by any other means will not be accepted or made.

PLEASE NOTE: Only Licensed Suppliers are authorized to provide gas service in Pennsylvania. Every attempt is made to keep the following list current, however, please be advised that the information can change on a day-to-day basis. This list will be updated as the information becomes available. PUC licensing standards include that the supplier is bonded or has provided other security approved by the Commission to ensure financial responsibility; that the supplier has met the PUC technical and financial responsibility guidelines; and, that the supplier agrees to uphold consumer protection laws and reliability standards, along with supporting the consumer education requirements.
