WALKS moving
814-9417729

On October 3 Richard MacDonald at 361 Teal Drive asked me to move a Baby grand piano to a house that was under construction. Richard said he was living with his parents for the next several months until his house was finished being built. He said he would need to rent my equipment until the house was completed. I agreed and told him to call me when it was done. Finished several months later he called from his place of business and said come get your equipment.

ORIGINAL

Richard was moved by E. L. Dinges (Mayflower moving & Storage). Mayflower also moved the piano from where it was being stored at 1612 Timbeline Drive to the appropriate spot and reassembled it.

The piano was not in use when I moved it. It was disabled and stored.

Thanks Gary Walk
