TARIFF FORMAT

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4<sup>th</sup> revised Page 14 cancels the 3<sup>rd</sup> revised Page 14.
- C. **Paragraph Numbering Sequence** - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
  - 2.1
  - 2.1.1
  - 2.1.1.1
- D. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc., remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

- 2.2.2.5 Breaches in the privacy or security of communications transmitted over Company facilities.
- 2.2.2.6 Changes in any of the facilities, operations or procedures of the Company that render any equipment, facilities or services provided by the Customer obsolete, or require modification or alteration of such equipment, facilities or services, or otherwise affect their use or performance, except where reasonable notice is required by the Company and is not provided to the Customer, in which event the Company liability is limited as set forth in section 2.3.1.1.1.
- 2.2.2.7 Defacement of or damage to Customer Premises resulting from the furnishing of services or equipment on such Premises or the installation or removal thereof.
- 2.2.2.8 Injury to property or injury or death to persons, including claims for payments made under Workers' Compensation law or under any plan for employee disability or death benefits, arising out of, or caused by, any act or omission of the Customer, or the construction, installation, maintenance, presence, use or removal of the Customer's facilities or equipment connected, or to be connected to Company facilities.

2.2.4 The Customer shall not assert any claim against any other Customer or user of the Company's services for damages resulting in whole or in part from or arising in connection with the furnishing of service under this tariff or the SOA including but not limited to mistakes, omissions, interruptions, delays, errors or other defects or misrepresentations, whether or not such other Customer or Joint or Authorized Users contributed in any way to the occurrence of the damages, unless such damages were caused solely by the negligent or intentional act or omission of the other Customer or user and not by any act or omission of the Company. Nothing in this tariff is intended either to limit or to expand Customer's right to assert any claims against third parties for damages of any nature other than those described in the preceding sentence.

2.3 **Liability of the Company**

2.3.1 THE COMPANY MAKES NO WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED EITHER IN FACT OR BY OPERATION OF LAW, STATUTORY OR OTHERWISE, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, EXCEPT THOSE EXPRESSLY SET FORTH HEREIN.

Acceptance of the provisions of Section 2.3 by the Commission does not constitute its determination that any disclaimer or warranties or representations imposed by the Company should be upheld in a court of law.

Failure by the Company to assert its rights pursuant to one provision of this tariff does not preclude the Company from asserting its rights under other provisions.

In view of the fact that the Customer has exclusive control of its communications over the facilities furnished it by the Company, and of the other uses for which facilities may be furnished it by the Company, and because of unavoidable errors incidental to the services and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the following terms, conditions and limitations.

2.3.1.1 Limitations

---

COMPETITIVE LOCAL EXCHANGE CARRIER

---

- 2.3.1.1.1 Except as otherwise provided herein, no liability for direct, incidental punitive or consequential damages shall attach to the Company, its officers, directors, agents, servants or employees, for damages or costs arising from errors, mistakes, omissions, interruptions, failures, delays, or defects or malfunctions of equipment or facilities, in the course of establishing, furnishing, maintaining, rearranging, moving, terminating, or changing the service(s) or facilities (including the obtaining or furnishing of information in respect thereof or with respect to the Customer or users of the service or facilities) in the absence of gross negligence or willful and wanton conduct, whether a claim for such liability is premised upon breach of contract, breach of warranty, fulfillment of warranty, negligence, strict liability, misrepresentation, fraud, or any other theories of liability.
- 2.3.1.1.2 The remedy against the Company for an interruption or failure of service resulting from errors, mistakes, omissions, interruptions, failures, delays, or defects or malfunctions of equipment or facilities shall be as follows: At the Company's option, the Company shall either repair or replace any item of its facilities or defective part thereof at Company's expense.
- 2.3.1.1.3 Except for the extension of allowances to the Customer for interruptions in service as set forth herein or as limited by 52 Pa. Code § 69.87 and the Commission's Order regarding limited liability in Docket No. M-0098129, the Company, its affiliates, directors, officers, employees, assignees and/or successors, shall not be liable to a Customer or third party for any loss in excess of an amount in liquidated damages of \$100.00 for any direct, indirect, special, incidental, reliance, consequential, exemplary or punitive damages, including, but not limited to, loss of revenue or profits, for any reason other than as described herein, including, but not limited to, any act or omission, failure to perform, delay, interruption, failure to provide any service or any failure in or breakdown of facilities, including the obtaining or furnishing of information with respect to the Customer (including without limitation Customer's end users) associated with the service, unless such loss is caused by the willful and/or wanton misconduct of the Company.
- 2.3.1.1.4 Company's 9-1-1 service is offered solely to assist Customer in providing 9-1-1 emergency service in conjunction with applicable fire, police, and other public safety agencies. By obligation, direct or indirect, to any third party other than Company, Company shall not be liable for civil damages, whether in contract, tort or otherwise, to any person, corporation, or other entity for any loss or damage caused by any Company act or omission in the design,

development, maintenance, or provision of 9-1-1 service other than an act or omission including gross negligence or wanton or willful misconduct.

2.3.2 Service Irregularities

2.3.2.1 Nothing in this tariff shall be construed to limit the Company's liability in cases of gross negligence or willful misconduct.

2.3.2.2 The Company does not transmit messages but offers the use of its facilities, when available, for communications between parties, each of which is present at a telephone or communications device.

2.3.2.3 **Connections with Other Telecommunications Providers**  
When the Company uses the facilities or services of other companies to establish connections or provide services to Customer, the Company shall not be liable for any act or omission of the other company or companies, their agents, or employees, that limit the ability of Company to provide services to Customer as described in the SOA and this tariff.

2.3.3 Maintenance and Repair

2.3.3.1 All ordinary expense of maintenance and repair in connection with services provided by the Company is borne by the Company unless otherwise specified.

2.3.3.2 At the Customer's request, non service-affecting maintenance and repair may be performed outside the Company's regular business hours or, in the Company's sole discretion and subject to any conditions it may impose, in hazardous locations. In such cases, charges based on the cost of labor, material, and other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

2.3.3.3 Nonrecurring charges do not apply to repair service.

2.3.4 Database Errors or Omissions

---

**COMPETITIVE LOCAL EXCHANGE CARRIER**

---

- 2.3.4.1 Notwithstanding any other provisions herein, the Company expressly denies any representation or warranty that database records, data, or other information created, utilized or furnished hereunder will be furnished without interruption or free of errors or omissions. In no event shall the Company, its officers, directors, agents, servants, or employees, be liable for direct, incidental, punitive, or consequential damages for damages or costs arising from any such interruptions, errors, or omissions, whether a claim for such liability is premised upon breach of contract, breach of warranty, fulfillment of warranty, negligence, strict liability, misrepresentation, fraud, or any other theories of liability.
- 2.3.5 Limitation of Liability
- 2.3.5.1 Nothing in this tariff shall be construed to limit the Company's liability in cases of gross negligence or willful misconduct.
- 2.4 **Application for Service**
- 2.4.1 Applications for establishment of service must be made to the Company in writing. These applications become contracts upon approval by the Company and the Customer or the establishment of service, and shall be subject at all times to the lawful rates, charges and regulations of the Company.
- 2.4.1.1 Requests from Customers for additional service or equipment must be made in writing and, upon approval of installation of the service, become a part of the original contract, except that each additional item is subject to the appropriate Tariff rates, charges and initial contract period, if any.
- 2.4.1.2 Any change in rates, charges or regulations authorized by the legally constituted authorities will act as a modification of all contracts to that extent without further notice.
- 2.4.2 Initial Contract Period
- 2.4.2.1 Service is provided on month-to-month or on a term agreement basis. The Initial Contract Period is one (1) year unless otherwise specified in this tariff or mutually agreed upon by contract. Penalties may apply for early termination of the Service Order Agreement (SOA).

---

**COMPETITIVE LOCAL EXCHANGE CARRIER**

---

- 2.4.2.2 Except as otherwise stated in this tariff or an SOA, at the expiration of the initial term specified in each Service Order Agreement, or in any extension thereof, service shall be renewed automatically for a one (1) year term upon written notification to the Customer 60 days prior to the expiration of the initial term, unless the Customer provides notice of intent not to renew such agreement at least 60 days prior to the end of the initial or any additional term. Termination shall not relieve the Customer of its obligations to pay any charges incurred under the Service Order Agreement and this tariff prior to termination. The rights and obligations that by their nature extend beyond the termination of the term of the Service Order Agreement shall survive such termination.
- 2.4.3 Cancellation and Deferments
- 2.4.3.1 When the Company advises a Customer that ordered services are available on the requested due date, and the Customer is unable or unwilling to accept service at that time, the facilities will be held available for the Customer for a 30 business day grace period. If after 30 business days the Customer has still not accepted service, regular monthly billing for the ordered services may begin, or the facilities will be released for other service order activity, and cancellation charges (non-recurring charges that would have applied had the service been installed) may be applied. These cancellation and deferment provisions apply to requests for all Company services.
- 2.5 **Payment for Service**
- 2.5.1 The Customer is responsible for payment of all charges for facilities and services furnished the Customer, including charges for services originated, or charges accepted, at such facilities.
- 2.5.2 Customers will be billed directly by the Company and charges will be included in the Customer's regular bill pursuant to billing and collection agreements established by the Company with the applicable Customer.
- 2.5.3 Unless otherwise specified, all charges for Company-provided services, equipment and facilities, exclusive of usage or transaction sensitive charges, start the day after service is installed, continue through the day service is disconnected and are payable monthly in advance. Charges for usage or transaction related services are payable monthly for services used in the

---

COMPETITIVE LOCAL EXCHANGE CARRIER

---

previous billing cycle, except the Company reserves the right to require payment of such charges at more frequent intervals.

- 2.5.4 When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.
- 2.5.5 In the event a Customer is indebted to the Company for charges and services previously rendered in Pennsylvania, or for service under one or more accounts at the same location, and the Customer does not pay the charges or satisfy such indebtedness, the Company may charge and bill such indebtedness against other accounts of this Customer.
- 2.5.6 In the event that payment from a Customer is less than the total amount of all charges owing to the Company and the Customer does not specifically designate the manner in which he wishes to apply said payment, then the Company may apply all or any part of the payments received to such accounts or indebtedness in any manner that the Company deems appropriate.
- 2.5.7 Except as otherwise specified, where the rate to be charged for a particular service is determined by applying a percentage or similar factor to a quoted rate, and such computation results in a fraction, the charge for the service shall be computed to the nearest cent, a half cent being increased to the next higher cent.
- 2.5.8 The furnishing of services, equipment and facilities and any indebtedness resulting therewith shall not result in a lien, mortgage or other security interest in any real or personal property of the Customer, unless such indebtedness has been reduced to judgment.
- 2.5.9 Service may be discontinued or refused to a Customer for the nonpayment of any sum for service furnished in the Commonwealth of Pennsylvania or for the provision of facilities which also have been provided in Pennsylvania.
- 2.5.10 Unless otherwise specified, in the event it becomes necessary for service to be discontinued to a Customer for nonpayment, a written notice of at least seven days (measured from the date of mailing) will be given to the Customer advising the Customer of the amount due and the date by which the same

---

---

must be paid to avoid service being discontinued. If the Customer fails to pay or make suitable arrangements for payment by said due date, the Company may suspend the service or discontinue the service and remove any or all of the Company's equipment from the Customer's premises.

- 2.5.11 Payment of bills for service may be made by any means mutually acceptable to the Customer and the Company. Payment that is not honored or paid by the payer's designated financial institution will be considered as nonpayment. A returned payment charge is applicable to the account for each occasion that a payment is returned to the Company for reason of insufficient funds or closed account.
- Maximum Returned Payment Charge: \$25
- 2.5.12 Customers may have the following options as to the method of paying bills for Company provided service(s):
- If by U.S. Mail, by check or money order only;

  - Customer's account type;

- 2.5.14 Payments received by the Company after the due and payable date on the Customer's bill may result in discontinuance of the Customer's service.
- 2.5.15 The Company will not be responsible if a Customer's service is discontinued after payment has been remitted, unless the payment is timely, as set forth in 2.5.13, or, if the payment is not timely, the requirements of 2.5.14. have not been met.

**COMPETITIVE LOCAL EXCHANGE CARRIER**

**2.5.16 Incomplete Calls**

There shall be no charge for incomplete calls. No charge will be levied for unanswered calls. Customers will receive credit for calls placed to a wrong number if the customer notifies the Company of the error

**2.5.17 Advanced Payments**

To safeguard its interests, the Company may require a Customer to make an advance payment before services and facilities are furnished. The advance payment will not exceed an amount equal to the nonrecurring charge(s) and one (1) month's charges for the service or facility and additional (1) month advance payment for each subsequent month. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated non-recurring charges for the special construction and recurring charges (if any) for a period to be set between the Company and the Customer. The initial advance payment will be credited to the Customer's initial bill. Subsequent advance payments will be credited on the appropriate monthly bill. Advance payments do not accrue interest.

**2.5.18 Billing Standards**

The Company complies with the requirements of Chapter 64 in 52 Pa. Code regarding billing standards and practices for residential customers. In instances where sections of this tariff may conflict with Chapter 64, regulations, the regulations in Chapter 64 will prevail.

**2.6 Customer Deposits**

2.6.1 The Company does not collect customer deposits.

**2.7 Late Payment Charges**

2.7.1 A late payment charge on an overdue bill may be charged on the unpaid balance of the bill at a monthly rate not to exceed 1.25%; however this charge will not apply to any previously applied late charges.

2.7.2 Collection procedures and temporary disconnection of service are unaffected by the application of a late charge. The late payment charge does not extend the time for payment or otherwise enlarge or change the rights of a Customer. Notice of intention to pay late will not avoid this charge

---

**COMPETITIVE LOCAL EXCHANGE CARRIER**

---

- 2.7.3 The late payment charge does not apply to the following:
- Bills mailed more than ten days after bill date.
  - Final bills.
  - One time miscellaneous bills.

2.8.2 Unless disputed, the invoice shall be deemed to be correct and payable in full by the Customer. If the Customer is unable to resolve any dispute with the Company, then the Customer may file a complaint with the Bureau of Consumer Services, Pennsylvania Public Utility Commission, Secretary's Bureau, Commonwealth Keystone Building, 2<sup>nd</sup> Floor, 400 North Street, Harrisburg, Pennsylvania 17120. Telephone 1-800-692-7380.

**2.9 Taxes and Fees**

2.9.2 The amount paid by the Company to a municipality as a cost of doing business within that municipality under a franchise, or pursuant to a license or occupation tax levied by the municipality, will be added to the bill for service to the Company's Customers within such municipality and for the privilege of employment within the municipality shall be so surcharged.

2.9.3 All state and local taxes and fees shall be listed as separate line items on the Customer's bill.

2.10.3 Credit for failure of service or equipment will be allowed only when failure is caused by or occurs in the equipment owned, provided, and billed for, by the Company.

2.10.4 The credit allowance will not apply where service is interrupted by the negligence or willful act of the Customer or the failure of facilities provided by the Customer, or where the Company, pursuant to the terms of the Tariff, suspends or terminates service because of unlawful or improper use of the facilities or services, or any other reason covered by the Tariff or as further defined.

2.10.5 No credit allowance shall be made for interruptions due to electric power failure where, by the provisions of this Tariff, the Customer is responsible for providing electric power.

2.10.6 When the Customer's main service is interrupted for a period of at least 24 hours, credit to customers, after due notice by the customer, at the following rate shall apply (except as provided for in paragraph 3):

2.10.6.1 One-thirtieth of the tariff monthly rate of services and facilities furnished by the Company rendered inoperative, useless, or impaired for each of the first three full 24-hour periods during which the interruption continues after notice

---

by the customer to the public utility conditioned that the out of service extends beyond a minimum of 24 hours.

- 2.10.6.2 Two-thirtieths of each full 24-hour period beyond the first three 24-hour periods. However, in no instance may the allowance for the out-of-service period exceed the total charges in a billing period for the service and facilities furnished by the public utility rendered useless or impaired.
- 2.10.6.3 When service is interrupted for a period of at least 24 hours due to such factors as storms, fires, floods or other conditions beyond the control of the Company, an allowance of 1/30 of the tariff monthly rate for all services and facilities furnished under tariff by the Company rendered inoperative or substantially impaired to the extent of being useless shall apply for each full 24 hours during which the interruption continues after notice by the customer to the Company.
- 2.10.6.4 The allowances set forth herein may not be applicable where service is interrupted by the negligence or willful act of the customer to service or where the Company, pursuant to the terms of the contract for service, suspends or terminates service for nonpayment of charges or for unlawful or improper use of the facilities or service or for any other reason provided for in this tariff.
- 2.10.7 In addition and not by way of limitation, in the event that there is a delay in installation of service, if any service date is promised, or any failure to service or properly maintain the items of service as provided for herein concerning maintenance or any failure to repair or replace the items of service as provided herein, then the refunds provided shall be the exclusive remedy against the Company.
- 2.10.8 Under all circumstances set forth above, the Company shall not be liable to the Customer or any other persons for special, incidental, punitive, or consequential damages, losses, expenses, or costs, if any.
- 2.10.9 Overcharge/Undercharge
- 2.10.10 When a customer has been overcharged, the amount shall be refunded or credited to the customer.

2.11.1.1 The rates and charges quoted in the Tariffs of the Company contemplate the use of service arrangements, equipment and facilities in quantities and types regularly furnished by the Company. Where equipment, facilities, or service arrangements are requested which are not provided for in the Company's applicable Tariffs, monthly rates and one-time charges, such as nonrecurring and construction charges, will apply based on the circumstances in each case.

2.11.1.2 These special equipment and service items will be provided whenever, in the judgment of the Company, there is a valid reason for providing the service requested. In such cases, the Company reserves the right to require an initial contract period commensurate with relevant circumstances.

2.11.1.3 The rates and charges specified contemplate that work will be performed during regular working hours and that work once begun will not be interrupted by the Customer. If, at the request of the Customer, work is performed outside of regular working hours, either to meet the Customer's convenience or because the time allowed is insufficient to permit completion during regular hours or if the Customer interrupts work which has begun, the Customer may be required to pay any additional costs incurred.

2.11.1.4 The rates and charges quoted in the Tariffs of the Company contemplate the use of standard procedures and practices for furnishing service, equipment and facilities. These special practices or

---

procedures will be provided at the discretion of the Company, depending upon each individual case.

**2.12 Discontinuance of Service**

- 2.12.1 Customers must give at least 5 days oral or written notice to the Company for discontinuance of service, unless specified otherwise in the agreement. The Company shall hold the Customer responsible for payment of all charges, including fixed fees, surcharges, etc., that accrue through the end of the Customer's bill cycle, unless otherwise noted in the description of the service affected.
- 2.12.2 If a Customer cancels a Service Order Agreement or terminates services before the completion of the term for any reason whatsoever other than a Service Interruption, the Customer agrees to pay to the Company termination liability charges, as defined below. These charges shall become due as of the effective date of the cancellation or termination.
- 2.12.3 The Customer's liability for early cancellation or termination of service shall be equal to the following:

- 2.12.3.4 To the extent that there is no other requirement for use by the Company for facilities specially constructed at the request of the Customer pursuant to Section 2.3.9, termination charges in addition to those described in this Section may apply as determined on an Individual Case Basis.
- 2.12.3.5 Inclusion of termination liability by the Company in this tariff or a contract does not constitute a determination by the Commission that the termination

**COMPETITIVE LOCAL EXCHANGE CARRIER**

---

liability imposed by the Company is approved or sanctioned by the Commission. Customers shall be free to pursue whatever legal remedies they may have should a dispute arise.

**2.13.4 Unlawful Use of Service**

2.13.4.1 Service shall not be used for any purpose in violation of law or for any use as to which the Customer has not obtained all required governmental approvals, authorizations, licenses, consents, and permits. The Company shall refuse to furnish service to an applicant or shall disconnect the service without notice of a Customer when:

2.13.4.2 An order shall be issued, signed by a judge finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law, or

**COMPETITIVE LOCAL EXCHANGE CARRIER**

2.13.4.4 If service has been physically disconnected by law enforcement officials at the Customer's premises and if there is not presented to the Company the written finding of a judge, then upon written or verbal request of the Customer, and agreement to pay restoral of service charges and other applicable service charges, the Company shall promptly restore such service.

2.13.5 **Obligation to Furnish Service**

2.13.5.1 The Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain, and maintain with just and reasonable earnings, suitable rights and facilities, and to provide for the installation of those facilities required to the furnishing and maintenance of that service. At the option of the Company, in managing its facilities, certain regular service restrictions may be temporarily imposed at locations where new or additional facilities being constructed are not readily available to meet service demands.

2.13.5.2 When connections are requested and facilities to provide the required connections at the CO normally designated to serve the premises of the Customer are inadequate, facilities may be furnished from another CO to provide the requested interconnection. 2.13.7 **Resale/Sharing of Service**

Service on Customers' premises furnished by the Company shall not be used for performing any part of the work of transmitting, delivering, or collecting any message where any toll or consideration has been or is to be paid any party other than the Company, without written consent of the Company.

2.14 **Suspension and Termination of Service**

The Company shall mail or deliver written notice to the customer at least 7 calendar days before the date of proposed suspension regardless of the grounds upon which suspension is sought. When at least 10 calendar days

---

**COMPETITIVE LOCAL EXCHANGE CARRIER**

---

have passed since suspension of service, the Company may terminate service for failure to pay a reconnection fee and to remedy the original grounds for suspension. The only exception for suspension without prior notice is when the suspension is based on an occurrence, which endangers the safety of a person or appears likely to prove physically harmful to the service delivery system. At the time of suspension the Company shall mail a notice of suspension to the customer's billing address.

**2.15 Pennsylvania Telephone Relay Service**

The Pennsylvania Telecommunications Relay Service (PA TRS) is a relay telecommunication service for the deaf, hard of hearing, hearing and/or speech disabled population of the Commonwealth. The PA TRS is mandated by the Americans with Disabilities Act of 1990 to provide functionally equivalent telephone services that are available to other U.S. citizens, at no additional cost. The PA TRS includes both traditional relay (devices such as Teletypewriters (TTY) and Telecommunication Devices for the Deaf (TDD)) and captioned- telephone voice-carry-over relay services (captioned telephone). These relay services permit telephone communications between individuals with hearing and/or speech disabilities, who must use a TTY, TDD, or captioned telephone, with individuals having normal hearing and speech. Additionally, 711 abbreviated dialing is available to access the PA TRS. The Company's switching equipment is arranged to translate the "711" calls to the assigned toll- free number, (888) 895-1197, in order to route calls to the Telecommunications Relay Service Provider, in accordance with Commission's Order entered on February 4, 2000 at Docket No. M-00900239.

**2.15.1 Surcharge**

In addition to the charges provided in this tariff, a surcharge will apply to all residence and business access lines served by this Company (Access lines are those lines extending from the telephone company's central office to the end-user's premises). This surcharge applies regardless of whether or not the access line uses the PA TRS.

The surcharge serves as the funding vehicle for the operation of the PA TRS, Telecommunications Device Distribution Program, and the Print Media Access Service Program and shall be calculated by the Pennsylvania Public Utility Commission (Commission). The Commission shall compute the PA

TRS surcharge each year and notify local exchange carriers of the surcharge amount to be applied for the twelve-month period commencing with July 1 of each year. The Commission may revise the surcharge more frequently than annually at its discretion. Tariff revisions will be filed whenever the Commission calculates a new surcharge amount and notifies the Company.

The following surcharge rates apply to all customer bills issued on or after July 1, 2008.

**Monthly Charge**

Per residence access line: \$0.08

Per business access line: \$0.08

Centrex lines will be assessed on an equivalency basis as determined by the Commission.

**2.16 Toll Presubscription**

- 2.16.1 Toll Presubscription is a procedure whereby a customer designates to the Company the IntraLATA and InterLATA Toll Providers, i.e., Interexchange Carriers (IXCs), which the Customer wishes to be the carriers of choice for toll calls. Such calls are automatically directed to the designated carrier(s) without the need to use carrier access codes or additional dialing to direct the calls to the designated carrier. Toll presubscription does not prevent a customer, who has presubscribed to a toll carrier, from using carrier access codes or additional dialing to direct calls to an alternative toll carrier on a per call basis. Each carrier will have one or more access codes assigned to it for various types of service. When an end user selects a carrier as its preferred IXC, only one access code of that carrier may be incorporated into the switching system of the Company permitting access to that carrier by the end user without dialing an access code. Should the same end user wish to use other services of the same carrier, it will be necessary for the end user to dial the necessary access code(s) to reach that carrier's other service(s). An IXC must use Feature Group D (FGD) Switched Access Service to qualify as a presubscription toll provider unless prior arrangements have been made with or by the Telephone Company. IXCs must submit an Access Service Request (ASR) to the Telephone Company. Selection of toll presubscription provider by an end user is subject to the terms and conditions following.

---

COMPETITIVE LOCAL EXCHANGE CARRIER

---

- 2.16.2 At the option of the IXCs, the nonrecurring charge for a change in toll presubscription, as provided herein, may be billed to the IXCs, instead of the end user (NRC PIC). This may involve charges resulting from end-user initial free choice Preferred Interexchange Carrier (PIC), specified as follows.
- 2.16.3. Presubscription Charge Application  
End user choices for toll presubscription:
- 2.16.3.1 Designating an intraLATA and interLATA IXC(s) as primary carrier(s) thereby requiring no access code to access those IXCs' service. End users are not required to choose the same IXC for intraLATA and interLATA toll presubscription. Other nonpresubscribed IXCs are accessed by dialing 10XXX, 101XXXX, or other required codes.
- 2.16.3.2 Choosing no carrier as a primary carrier thus requiring 10XXX or 101XXXX code dialing to access all IXCs.
- 2.16.4 If a new customer cannot decide upon presubscription IXCs, the Company may extend a 30 calendar day period following completion of the initial service request to make a choice without charge. In the interim, the customer will be assigned as a 'No-PIC' and must dial an access code to make toll calls.
- 2.16.5 If an IXC elects to discontinue Feature Group, the IXC is obligated to contact, in writing, all end users who have selected the canceling IXC as their preferred toll provider. The IXC must inform the end users that it is canceling its Feature Group D Service, request that the end user select a new IXC, and state that the canceling IXC will pay the PIC change charge as provided herein (PIC Change). The IXC must provide written notification to the Telephone Company that this activity has taken place. Following the IXC's discontinuance of service, the Company will bill the canceling IXC the change charge for each end user that is currently designated to the IXC at the time of discontinuance (PIC Change).
- 2.16.6 An unauthorized PIC change is a change in the presubscribed IXC that the end user denies authorizing. PIC disputes for end users are resolved through an investigative process.

If an unauthorized change in toll presubscription occurs, the IXC making the unauthorized change will be assessed a charge for unauthorized change in

---

**COMPETITIVE LOCAL EXCHANGE CARRIER**

---

presubscription as provided at the end of this section (PIC Change). In addition, the IXC will be assessed the applicable charge for returning the end user to the preferred IXC (PIC Change).

**2.17 Caller ID Blocking**

A calling party may block the passage of his/her telephone number, associated main listed name and voiceback of calling identification information to users or subscribers to Optional Central Office Services which utilize Signaling System 7 (SS7) technology. Blocking will also prevent call completion through the use of Return Call (\*69) Service. Customers have two blocking options as follows:

- 2.17.1 Per-Call Blocking - To activate per-call blocking, a customer dials a special code prior to placing a call. Blocking will be activated for that outgoing call only. There is no charge for using per-call blocking, and it is provided on an unlimited basis. Per-call blocking is available to all customers in the Company's serving territory, or
- 2.17.2 Per-Line Blocking - Per-Line Blocking must be added to a customer's line by contacting the Telephone Company's business office and having a service order issued. All calls are automatically blocked when a customer subscribes to Per-Line Blocking unless the blocking feature is deactivated. If a customer subscribes to Per-Line Blocking, he/she can deactivate blocking by dialing a special code prior to placing a call. Blocking will be deactivated for that outgoing call only. As facilities permit, a Per-Line Blocking customer will be provided with a separate code to deactivate blocking, which is different from the per call blocking code. Where this separate code is not available, the code for per-call blocking and the code to deactivate Per-Line Blocking will be the same. Per-Line Blocking is available to all customers in the Company's serving territory. Per-Line Blocking is provided without charge, except as discussed below.
- 2.17.3 Per-Line Blocking will be available to all customers, free of charge, in the Company's serving area and can only be added or removed from a customer's line by placing a service order with the Company. Initial requests for Per-Line Blocking will be provided at no charge. Subsequent requests for Per-Line Blocking for the same customer and telephone number at the same

**COMPETITIVE LOCAL EXCHANGE CARRIER**

---

address may be charged the applicable non-recurring charge(s). This non-recurring charge will be waived for customers of the Company who are victims of domestic violence, the staffs of domestic violence programs and agencies, and emergency services personnel, while performing their jobs.

- 2.17.4 Customers who use either per-call blocking or line blocking may be unable to complete calls to Caller ID subscribers who have activated the Anonymous Call Rejection feature (ACR) of Caller ID services. If a customer using blocking calls a Caller ID subscriber who has activated Anonymous Call Rejection, he/she will hear an announcement that the Caller ID subscriber is not accepting blocked calls. There are several ways to complete a call to a Caller ID subscriber who has activated Anonymous Call Rejection: (1) place the call through an operator; (2) place the call on the Company's network using a Company's telephone calling card; or (3) place the call without blocking. Options (1) and (2) involve charges in addition to the cost of the call. However, the live operator surcharge will be waived for the Company's customers who are victims of domestic violence, the staffs of domestic violence program agencies and emergency service personnel, while in the performance of their jobs. If the operator surcharge cannot be waived when the call is being placed, the Company will, upon notification, credit the live operator surcharge to the aforementioned party's telephone bill. Furthermore, should alternative methods become available in the future which permit the aforementioned to access the ACR party without revealing the caller's telephone number, the Company will waive any additional charges associated with such alternative methods. Blocked calls routed to the Anonymous Call Rejection (ACR) announcement will not be rated as completed calls.
- 2.17.5 Caller ID blocking will not prevent the delivery of telephone numbers to 911 emergency service providers. Caller ID blocking currently will not work for callers who place calls to 8xx, 900, and/or other information and message services carrying a specific charge billed to a caller by a local telephone company.

**5. SERVICES****5.1 E9-1-1 Emergency Services**

9-1-1 Emergency Services are telecommunications services that permit a Public Safety Answering Point (PSAP) to receive emergency calls placed by dialing the number 9-1-1 and/or emergency calls originated by personal communications devices.

9-1-1 Emergency Services support interconnection to other telecommunications service providers for the purpose of receiving emergency calls originating in the other providers' networks. 9-1-1 Emergency Services include 9-1-1 Routing and Transfer Services that use a call management system to either directly perform the selective routing of an emergency call to the appropriate PSAP, or may be used to hand-off the call to a separate 9-1-1 Service Provider (possibly a legacy E9-1-1 Selective Router) for call completion to the appropriate PSAP. 9-1-1- Emergency Services also provide services of call bridging and post call activity reporting.

9-1-1 Emergency Services includes a comprehensive data management and delivery service, 9-1-1 ALI Services. 9-1-1 ALI Services provide PSAPs more control over ALI data management with highly accurate data and reporting. 9-1-1 ALI Services offer features such as "drill down" metric reporting capabilities for wireline, wireless, and VoIP 9-1-1 calls. The solution includes a web interface for data queries and MSAG management.

9-1-1 Emergency Services are offered subject to the availability of facilities. The Customer is the Governing Body that orders service and is responsible for the payment of charges and compliance with the terms and conditions of this tariff.

9-1-1 Emergency Services are only available under contract with a minimum term agreement of one (1) year.

**5.1.1 9-1-1 Routing Service**

9-1-1 Routing Service is a public safety grade, specialized managed network for processing 9-1-1 calls that allows the PSAP to accommodate new technologies while simultaneously enabling more control over 9-1-1 call routing operations. The Company's solution utilizes a redundant, secure IP infrastructure. Facilities and nodes are geographically diverse and are

---

COMPETITIVE LOCAL EXCHANGE CARRIER

---

equipped with physically redundant data communications and power equipment that allow for continuous operation and reliability. 9-1-1 Routing Service delivers emergency calls from both traditional and non-traditional voice networks. In addition to processing traditional TDM voice traffic, 9-1-1 Routing Service also provides IP based call processing capabilities.

The Company's 9-1-1 Routing facilitates interoperability and allows for specialized management of different call types. The Customer can designate, capture, and report on specific instructions for handling each of the following call types:

**Wireline:** Supports traditional wireline emergency calls originating from an end office, central office and/or enterprise PBX over standard based Centralized Automatic Message Accounting (CAMA), both analog and digital interfaces, SS7 and PRI interfaces.

**Wireless:** Supports delivery of wireless 9-1-1 calls to assigned PSAPs. Carriers having the capability to provide wireless handset ANI, cell site and sector and/or longitudinal and latitudinal (x,y) coordinates in the appropriate format, may connect directly to the 9-1-1 Routing Service.

**VoIP:** Supports delivery of VoIP emergency calls originating from a VoIP Service Provider. VoIP Service Providers capable of providing calls and data in the appropriate format can connect directly to the 9-1-1 Routing Service.

## 5.1.2 9-1-1 Routing Service Features

### 5.1.2.1 Automatic Number Identification (ANI)

ANI is the feature by which the telephone number or other related routing (pANI) number associated with an inbound 9-1-1 caller is received by the Company's 9-1-1 Emergency Services and passed on to the proper PSAP. The ANI is also used to determine the proper PSAP to receive the inbound call.

### 5.1.2.2 9-1-1 Routing Options

#### Selective Routing

The routing of a 9-1-1 call to the proper PSAP based upon the location of the caller. Selective Routing is typically accomplished by mapping the ANI to an ESN that has been derived based on the caller's location. The ESN maps to a

---

COMPETITIVE LOCAL EXCHANGE CARRIER

---

specific routing rule that identifies the PSAP and possible alternative destinations.

Trunk Only Routing

Inbound trunks, typically from a given telecommunications carrier, can be designated to route all calls to a given destination, usually a specific PSAP. If Trunk Only Routing is not specified the system will attempt to perform Selective Routing.

Default Routing

When an incoming 9-1-1 call cannot be selectively routed due to the reception of an ANI number that is either not stored in the selective router data base, unintelligible ANI or when no ANI number is passed, a predetermined call route will be chosen and the caller will be terminated to the PSAP based upon the incoming trunk facility the call is passed over.

PSAP Abandonment Routing

If a situation arises where a PSAP must be closed or evacuated, this feature provides specific routing instructions for delivery of calls to recovery locations.

5.1.2.3 9-1-1 Transfer Options

Fixed Transfer

Fixed transfer is a feature that enables a PSAP call taker to transfer a 9-1-1 call to a secondary destination (possibly another PSAP) by dialing a pre-assigned speed dial code or by use of a single button on an approved Customer telephone system that dials the appropriate code.

Selective Call Transfer

Selective Call Transfer is a feature enabling a PSAP call taker to transfer an incoming 9-1-1 call to another agency by dialing a pre-assigned speed dial code associated with police, fire or medical agencies or by use of a single button on an approved Customer telephone system that dials the appropriate code. The specific transfer destination is determined by the caller's originating location as specified by the ESN.

Manual Transfer

A PSAP call taker may transfer an incoming call manually by depressing the hook switch of the associated telephone or the "add" button on approved Customer telephone system, and dialing either an appropriate seven or 10-digit telephone number.

---

COMPETITIVE LOCAL EXCHANGE CARRIER

---

Alternate Routing

The overflow call disposition transfer feature enables the ability for callers to be terminated either to a previously designated alternate call center, a prerecorded message or to a busy tone when all PSAP trunks are busy.

5.1.2.4

Call Event Logging

The call event logging feature delivers reporting information containing the ANI received from a 9-1-1 call, the identity of the incoming trunk the Selective Router received the call over, the identity of the outgoing PSAP trunk the call is terminated to, and the date and time the call was delivered to its target destination, transferred and/or disconnected.

5.1.3

9-1-1 ALI Services

5.1.3.1

MSAG Management

The Company provides a data management and administration tool that automates the viewing and communication of updates, insertions, and deletions to the MSAG database.

5.1.3.2

Database Standards Compliance

The Company acts as the facilitator with the addressing authority in the creation and maintenance of the MSAG utilizing recognized National Emergency Number Association (NENA) recommended standards.

5.1.3.3

Subscriber Record Management

Subscriber Record Management is the collection of service order records from Telephone Service Providers (TSPs), validation of those records against the MSAG, and storage of the records for the generation of the ALI database.

5.1.3.4

ALI Database Updates

After processing and validating subscriber record updates, the Company posts ALI records for call routing and for retrieval and display by the PSAP during 9-1-1 calls.

5.1.3.5

ANI/ALI Discrepancy Resolution

An ANI/ALI discrepancy occurs when an ALI record delivered to a PSAP does not match the information of the caller. The Company will investigate ANI/ALI discrepancy reports and refer each discrepancy to the respective TSP for resolution.

---

COMPETITIVE LOCAL EXCHANGE CARRIER

---

- 5.1.3.6      Misroute Resolution  
An ANI/ALI misroute occurs when a 9-1-1 call is delivered to the incorrect PSAP. The Company investigates ANI/ALI misroute reports and refers each misroute report to the TSP for resolution.
- 5.1.3.7      No Record Found (NRF) Resolution  
An NRF occurs when the ANI provided does not exist in the ALI database and/or when NRF is displayed at the PSAP. The Company will resolve or refer each NRF to the respective TSP for resolution.
- 5.1.3.8      Local Number Portability (LNP) Processing  
The Company supports LNP, which allows subscribers to switch from one TSP to another without changing their phone numbers.
- 5.1.3.9      ALI Delivery  
ALI Delivery provides location information via the ALI Data Access Connections to a PSAP during a 9-1-1 call.
- 5.1.3.10     Data Support of Wireless and VoIP E9-1-1  
The Company's database management systems support both Phase I and Phase II wireless and VoIP E9-1-1 call processing. This includes the E2 interface used by wireless service providers to communicate 9-1-1 caller location information to the ALI database.
- 5.1.3.11     ALI Metrics Reporting  
The Company provides access to reports that provide details on data transactions, the number of records processed, and the number of errors.
- 5.1.4        9-1-1 Routing Service Connection (Port)  
9-1-1 Routing Service Connection ports allow the PSAPS to connect their public safety grade networks to the VESTA Router Service for 9-1-1 voice and data delivery.
- 5.1.5        ALI Data Access Connection (Port)  
ALI Data Access Connection ports provide the PSAP networks access to the ALI Database for ALI Delivery.
- 5.1.6        Private Switch/Location Database Service Features  
Private Switch/Location Database Service is available with the Service Feature Offerings described for 9-1-1 Service, above.

---

**COMPETITIVE LOCAL EXCHANGE CARRIER**

---

**5.1.7 Trunk Features**

The Company may provide Trunks and/or IP circuits, or Trunks and/or IP circuits may be obtained from either the local exchange carrier, or another facilities provider. If obtained from either the local exchange carrier or another facilities provider, the Company will provide the points of ingress where the TDM and/or SIP trunks may terminate. The Company may provide access lines.

**5.2 9-1-1 Emergency Service Rules and Regulations**

5.2.2 9-1-1 Emergency Services are provided by the Company where facilities and operating conditions permit.

5.2.3 9-1-1 Emergency Services are not intended as a total replacement for the local telephone service of the various public safety agencies that may participate in the use of this service. The Customer must subscribe to additional Local Exchange Services for purposes of placing administrative outgoing calls and receiving other calls.

5.2.4 Application for 9-1-1 Emergency Services must be executed in writing by the Customer. If execution is by an agent, satisfactory evidence of the appointment must be provided in writing to the Company. At least one local law enforcement agency must be included among the participating agencies.

agencies or municipalities or employees or agents of any one of them, or (2) for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of 9-1-1 Emergency Services and the equipment associated therewith, including, but not limited to, the identification of the telephone number, address, or name associated with the telephone number used by the party or parties accessing 9-1-1 Emergency Services hereunder, or (3) arising out of any act or omission of the Customer, in the course of using services provided pursuant to this tariff.

### 5.3 9-1-1 Emergency Services Rates & Charges

	Monthly Rate Per Person Served
9-1-1 Routing + 9-1-1 ANI + 9-1-1 ALI	\$0.120
9-1-1 Routing + 9-1-1 ANI	\$0.115

1. Persons Served is calculated by taking the county population as estimated by the U.S. Census Bureau data (<http://www.census.gov/popest/counties/>),. For Customers with PSAPs that serve an area that crosses county boundaries, or encompasses only a portion of a county, the number of persons served will be determined based on a percentage of area served in each county. The number of persons served is subject to annual review and sizing using the most recent U.S. Census Bureau data.

2. 9-1-1 Routing Service and 9-1-1 ALI Service are provided as a package. Customer requests to obtain these services separately will be handled individually.

3. Additional charges will apply for 9-1-1 Exchange Access and ALI Data Access Connection, which are MultiProtocol Label Switching (MPLS) services and are offered under contract where, in the Company's judgment, suitable facilities are available (see Sections 2.3.9 and 2.3.10).
