I am writing this as a request for a Petition interlocutory review.

Why does the PUC have fax machines yet they cannot read the faxes sent to them in ARIAL 16 Script? I was told this by Judge Watson at a hearing this morning.

By not being able to use a fax machine this will prejudice the PUC against me because I am fully disabled and cannot get out to the post office very often and when my wife gets home they are closed. So I have to send stuff via fax. I need to fax copies of documents to the Parties involved with my complaints, as I have been told by the Secretary of the PUC's Letters.

Thank You!
