C-2016-2552834

I am writing this as a request for a Petition interlocutory review.

Judge Watson refused to admit as evidence the copy of 55 56.12 because he knows the law. I would like to know what law he is talking about and why this was not admitted as evidence in the hearing we had on the 31 August 2016 at 10:00 A.M. Because it pertains to PPL not informing me of the outages which has been proven in this case. I think it should be admitted as evidence.

A public utility may temporarily interrupt service when necessary to effect repairs or maintenance; to eliminate an imminent threat to life, health, safety or substantial property damage; or for reasons of local, State or National emergency.

(1) *Interruption with prior notice.* When the public utility knows in advance of the circumstances requiring the service interruption, prior notice of the cause and expected duration of the interruption shall be given to customers and occupants who may be affected.

(3) *Notification procedures.* When customers and occupants are to be notified under this section, the public utility shall take reasonable steps, such as personal contact, phone contact and use of the mass media, to notify affected customers and occupants of the cause and expected duration of the interruption.

(4) *Permissible duration.* Service may be interrupted for only the periods of time as are necessary to protect the health and safety of the public, to protect property or to remedy the situation which necessitated the interruption. Service shall be resumed as soon as possible thereafter.

Brief for a Petition interlocutory review. Just filed

Judge Watson refused to admit as evidence the copy of 55 56.12 because he knows the law. I included this with my complaint as proof as what law PPL was breaking since I am required to do that with my complaints. I think that his evidence should be admitted and weighed on since they never explained nor notified me that my power would be going out.
