Dear Sir/Madam:

I am writing this to explain why I have not maintained evidence of insurance on file with the PUC. Over the past year my health has deteriorated. These health issues have caused me to not be able to continue working. I apologize for not sending a letter sooner in regards to this matter. I have been trying to make sure that all of the proper places have been notified of my retirement & closing of my business. This has been a very lengthy process & I have been working on this since the beginning of May. Again I sincerely apologize. I hope you reconsider charging me the \$500 penalty for this. At the current time I have no income & I'm trying to get disability because of my health issues.
