Letter of explanation.

I was declared disabled by A federal judge in 2008 by my orthopedic surgeon June 16 2004. 3 State Workers Comp Judges declared the same thing. Since I am disabled and no longer have a meniscus in my right knee, and a tear in the left meniscus on both sides with it separating from the bone. Deteriorating ACL, MCL, LCL, and PCL ligaments in both knees there are days I cannot drive. Especially since I have developed osteoarthritis in both knees and require pain medicine at least 4 times a day. Just to operate at a close to normal. Especially since it is raining today and my arthritis is acting up I cannot go outside or drive to the post office to mail something. Therefore I need to use the Fax machines that are available to participate in these preceding.

By denying me there use you are denying me the rights accorded a non handicapped individual. I have no choice in this matter besides what is the use of having a fax machine if they cannot be used. If you require proof that I am disabled let me know I can fax you the 3000 or 4000 pages that I have proving it.
